## PROMINENT POSITION HELD BY STEEL SHARES

United States Steel Common Establishes New High Record for Year.

Sy STUART P. WEST. Special to The Advertiser. New York, Wall street, March 21.—

Steel.

Railway shares continued to do beter, but their progress as a rule was slow. Canadian Pacific touched 150 to the first time, and Union Pacific Columbia Gas Cuban Cane.

New York Central drew close to par, the street feeling coundant that at the postponed meeting in April the dividend will be raised to \$6. Balti. & Ohto was bought in anticipation of another. April the dividend will be raised to so. Balti. & Ohio was bought in anticipation of another remarkable showing, when the earnings statement for Febwhen the earnings statement for February come out.

It. was another field day for pools in specialties. American Steel Foundries was taken up on the ground that it had not had its proper share in the advance in the equipment group. Electric Storage Battery rushed up another three points, and Beechnut Packing, attractive from a speculative standpoint on account of the comparative scarcity of the flowing supply, was bid up over two points. On the other hand, profittaking was going on very noticeably in most of the oils and in the sugars.

WALL STREET FEATORES.

Tires resume advance. The upbidding of Kelly Springfield and United States Rubber, the leaders of the tire group, to new high prices for the year, today was regarded as belated response to the improvement in the business of these companies and to the upward trend of tire prices. Buying of these stocks recalled the favorable estimates of earnings, which have been current in Wall street in the past few months, with respect to the rubber and tire Middle States Oil. Midvals Steel

ther European buying to bring about higher raw sugar prices.
Simmons Company — The syndicate which set out to place privately a block of Simmons Company common stock on Friday of last week closed its book this morning with all of the stock sold. At the time this was announced it was also said that the company in its January and February operations had taken care of the dividend at the present was few was announced.

# TRADING AT MONTREAL

Annual Report of the Abitibi Power Company Reflects Business Increase.

Reported for The Advertiser by Johnston & Ward. by Johnston & Ward.

Montreal, Mauch 21.—Noon—The outstanding overnight development was the publication of the financial statement of the Abitibi Power and Paper Company for the year 1922. Net earnings of the company were equal to \$7.24 per share on the common stock. The report makes very agreeable reading for the shareholders. It tells in an interesting manner the story of the Canadian newsprint—industry, reflecting the great increase of volume of business over that of 1921.

Another event of considerable importance was the annual meeting of the British Empire Corporation and its constituent companies at noon. President Roy M. Wolvin declared the tell and the story of the constituent companies at noon.

British Empire Corporation and its constituent companies at noon. President Roy M. Wolvin declared that the general outlook is decidedly more encouraging as the company has a good demand for its products and prices are on the upgrade. The president launched a violent attack against socialistic agitators operating in Cape Breton and on the upgrade. The president launched a violent attack against socialistic aging tators operating in Cape Breton and declared that the operations have been very much hampered by plotting on the part of outside labor agitators.

Marketwise trading was rather quiet and with the exception of a couple of strong spots the tendency was fractionally easier. In the pulp and paper group Howard Smith common was the feature, establishing a new high level at 83½. Public utilities were fairly acture over in this group, but the price was easier.

The steel group was steady, with Steel of Canada at 79½.

The other departments of the list were featureless.

TORONTO STOCK EXCHANGE. Canadian Press Despatch.

Canadian Press Despatch.

Toronto. March 21.—Noon—The local stock market was very dull during the morning with sales light and fluctuations narrow. Consolidated Smelters was the most actively dealt in, but the range was narrow, and the stock was unchanged at 29 at noon. In no other issue did sales exceed 100 shares during the morning. Brazilian was off 5 at 50%; C. P. R. advanced a point to 153. Twin City was unchanged at 65, while Toronto Rafis lost ½ at 86.

STANDARD MINING EXCHANGE. STANDARD MINING EXCHANGE.
Toronto, March 21.—Noon—Prices firmed with the increased trading on the Standard Mining Exchange this morning and in few instances were losses registered.

Teck-Hughes led in the golds with a 3-point gain at 114. Dome was unchanged at 4275. McIntyre dropped 10c at 1930 and Goldale ½ at 49½. In the silvers gains ruled, and Mining Corporation was 30c higher at 285.

WEDNESDAY'S OPENING PRICES. WEDNESDAY'S OPENING PRICES.
Chicago, March 21.—Buying on the part of houses with eastern connections brought about a material upturn in the price of wheat today during the early dealings. Indications of new export business on this side of the Atlantic, together with higher quotations at Liverpool, had considerable bullish influence. Besides, an advance in French exchange rates tended also to strengthen wheat values, the inference.

strengthen wheat values, the inference conditions in Central Europe were looked for. The opening, which ranged from ½c to 1½c higher, was followed by Smallness of receipts and of rural offerings gave independent strength to the initial range.

Oats started ½c to ½c higher and later gave ground a trifle.
