From THE DAILY COLONIST, June 6. THE CITY.

THE Court of Assizes at Kamloops has been adjourned for six weeks owing to the restriction of travel on account of the floods.

THE Arion club at a general meeting held on Monday evening decided to present the proceeds of their Queen's Birthday concert to the flood sufferers instead of, as origin-ally intended, to local charities.

On the occasion of his leaving for Nansimo to assume the rectorship of St. Alban's church, the Sunday school teachers of St. Barnabas in this city presented Rev. Mr. Taylor with a very handsome album.

THE Y.P.S.C. E. of the First Presbyterian church held a business meeting after their regular prayer meeting last evening. General business in connection with the society's work was transacted, and the following officers elected: Mr. W. C. Wilson, president; Miss M. A. Wilson, vice-president; Mise Gill, secretary; and Mr. D. A. Frazer, treasurer.

The newly formed local union of Christian Endeavor will hold its first meeting in the Y. M. C.A. rooms this evening, when the work of organization will be completed and committees appointed for carrying on the work and extending it in the city and district. Representatives from the various young people's societies are requested to attend.

A MEETING of the committee working on behalf of Mr. Eberts in the South Victoria electoral contest, held in the Tolmie school house on Monday evening, was succeeded by a public gathering of the electors; of whom there were between fifty and sixty present. Mr. Eberts gave an interesting address, reviewing his actions as the representative of the district in the legislature just dissolved; and speeches were also delivered by Messrs. John F. Chandler and W. J. Carey, who also intend to present themselves as candidates in that riding.

bers of the crew of the schoener Vera, and it is believed that the reported loss of Captain Shields and two of his men from their schooner has been interpreted by Mrs. Jolliboy to mean that her husband had been drowned, the result being that in a fit of despondency she has terminated her life.

A PICNIC and dance under the auspices of No. 1 company of the B.C.G.A., is to be held in the near future, on a plan something similar to that of the successful affair of last season. At a meeting of the company last evening the preliminary steps were taken in this connection. The company heard with evident approval of the proposed formation of a battralion rifle association, and no doubt many of the members will be present at the meeting in this connection to be held on Thursday evening. The request was made on behalf of the shooting committee that all members of the company who can do so will turn out for the Military Rifle League match at Clover Point on Saturday next, as provision will be made so that those who attend in excess of the number required to complete the teams will be allowed to shoot. The firing will commence at five o'clock in the morning, if anyone is in attendance so early, and will continue all day until completed.

The Court of Revision of the voters' list for the Victoria City electoral district was held in the court house yesterday. The Collector's duty at the court was light as no one appeared to object to any name on the list. There are now 4,677 names on the list, but to these will be added about 153 names on a supplementary list, to be printed in a few days. The supplementary list includes all those who have applied to be registered up to the 2nd June. The total number of voters who are entitled to vote at the election in Victoria will be 4,813. In terms of the recent order in council the Collector will hold another Court of Revision ten days prior to the election, when he will hear any objection to the names added to the supplementary list, which list can be hear any objection to the names added to the supplementary list, which list can be seen at his office. SALT SPRING ISLAND.

Bishop Perrin has returned from a visit to Salt Spring Island, where on Sunday morn-ing he dedicated a new church which has been built at Fulford Harbor. The design ing he dedicated a new church which has been built at Fulford Harbor. The design of the building is excellent and the work has been carried on in a most satisfactory manner by Mr. F. Raynes, the contractor. In spite of the west weather the church was well filled. The Bishop was assisted in the service by the Rev. J. B. Haslam, the late incumbent, and Rev. E. F. Wilson, who has been recently appointed as his successor. The rite of confirmation was administered, followed by a celebration of the Holy Communion. The offertory, amounting to \$15, was devoted to a fund for the purchase of an organ. THE FUR MARKET.

THE FUR MARKET.

In the circular issued at the end of May McMillan & Co. say that the receipts for May have continued large, although from the surrounding states they are decreasing, except of spring muskrat; but what keeps up the receipts are the winter caught furs average high in quality, but the present market value is depressed even for the kinds of furs which are in the best demand. The furs coming in from the surrounding states are commencing to run very poor in quality, except the water animals, viz. Beaver, muskrat and otter. Spring mink are all pale or red in color and a hippers must not expect high prices for them because for even the best mink there is not much demand. The bears that are in the spring before they commence to all dangers in the spring before they commence to all dangers in the spring before they commence to shed are full-furred and are the best of any time of the year. We still think that furs will rule lower as the season advances, even for the best lots.

"Is this hot enough for you?" is a silly question; but if you meet a man who complains of suffering from the heat, ten to one you will find, on inquiry, that he does not use Ayer's Strappurlla to tone up his system and free his blood from irritating humors.

The semi annual examination of candidates for entrance to a High school commenced yesterday in the High school building of this city. There was an unusually large number of applicants from the different schools, as follows: Boys' school, 32; Girls' school, 32; West school, 14; Central branch school, 18; other schools, 8; total, 104. This is by far the largest number that has ever applied at any one time to undergo the entrance examination, and is evidence that good work is being done not only in the schools of the city, but also in those of adjacent districts. Doubtless the education department will have plenty of additional work for some time to come in determining upon the merits of the different papers submitted. THE semi-annual examination of candi-

HARRY WALKER, one of the boys found to guilty at the Assizes on Tuesday of setting fire to a hay rick, has been admitted to bail on application of his counsel, Mr. W. J. Taylor, pending an appeal on the objection raised by the defence at the trial, The objection is based on section 10 of the Criminal Code, which reads: "No person shall be convicted of an offence by reason of an act or omission of such person when of the age of seven but under the age of fourteen, unless he is competent to know the nature and consequences of his conduct and to appreciate that it was wrong." On this point Crankshaw's Criminal Code says: "Between the ages of seven and fourteen there is still a presumption, but only prima facie, that the child is incapable; that is, the presumption is one which may be rebutted by clear and conclusive evidence of actual capacity." The contention raised by the defence is that the lad is under the age of fourteen and the Crown did not put in any evidence of actual capacity as required. HARRY WALKER, one of the boys found

Arthur Carruthers Regains His Lib erty, a Nolle Prosequi Being Entered.

The Spring Assizes resumed yesterday orning, Mr. Justice Crease presiding The first case was that of Harold Redgrave, accused of shooting John Barr at Donald, on the 23rd December last.

There were three counts to the indict ment-shooting with intent to murder, in tent to do grievous bedily harm, and wounding. Mr. R. Cassidy appeared for the Crown, and Mr. W. J. Taylor for the defence.

Mr. Cassidy having opened the case, Mr. Taylor for the defence stated that in order to save the time of the court and to expedite matters, the defence were prepared to admit the facts as set out in the depositions, which would be much shorter than examining witnesses.

The depositions were then read to the interval.

John Barr's deposition set forth that being with the accused in the Forrest House, Donalond, the evening in question a dispute arose between them as to the relative merits of various nationalities and finally Redgrave asked him to go down to the tank and set the it. Col. Metcalf followed in a witty and telling appeal for closer union and the fostering of Pythian principles. Brig. General H. A. Bigelow, of Seattle, expressed his pleasure at meeting again the many friends who had always made any visit to British Columbia one round of pleasure. He was in hopes that the Uniform Rank would become strong enough to warrant local officers being elected throughout.

THE LOCAL MARKETS.

British Columbia Demand for Northwest Cat-tle—The Early Potato Crop a Failure.

As a consequence of the recent heavy rains here, the potato crop in this locality is almost an entire failure, the seed having rotted in the ground before getting a chance to sprout. Being early in the season, however, another crop will be put in, which of course means late potatoes. No important effects of the devastation wrought to the farming district along the Fraser river by the prevailing flood have been felt in the Victoria market but that they will eventually seems inevitable. inevitable.

Nearly all meats for home comsumption now come from the American side and this is a little business point which is by no means being overlooked by the Northwest cattlemen. One, from Winnipeg, is now said to be in the Province making arrangements in the way of looking up suitable and available pasture lands and conferring with steamboat and railroad officials, with a view to finding a big market in British Columbia for beef. The gentlemen in question has been visiting the northern end of the Island in the vicinity of Comox, where, it is understood, he thoroughly pleased himself in the matter of selecting appropriate lands for accommodating large herds of cattle.

The market is being kept well supplied with small fruits and vegetables, the former of which will, no doubt, be materially augmented during the coming week with fresh consignments, arriving on the Australian steamship, although to what extent merchants are as yet unaware. Dairy produce, particularly egge, are not in as great stock as some little time ago, but scarcity seems still afar off. Oats are stiffening somewhat for reasons heretofore explained.

AYERS ... SARSAPARILLA HAS CURED OTHERS WILL CURE YOU

A Bright Lad. Ten years of age, but who declines to give his name to the public, makes this authorized, confidential statement to us:

"When I was one year old, my mamma died of consumption. The doctor said that I too, would soon die, and all our neighbors thought that even if I did not die, I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hutt my finger and it gathered and threw out pieces of bone. If I hutt myself so as to break the skin, it was sure to become a running sore. I had to take lots of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. It has made me well and strong."—
