

THE OFFICIAL EXCUSE.

No Plebiscite This Year Because the Opposition Blocked the Franchise Bill.

Money for Manitoba Schools—The Quarantine—Plans for Railway Building.

From Our Own Correspondent.

OTTAWA, June 7.—A deputation from the Methodist conference interviewed the government to-night on the prohibition question. Sir Richard Cartwright in replying said one reason why the plebiscite will not take place this year is because the opposition have blocked the franchise bill.

Mr. Morrison brought up the question of the Alaska boundary treaty this afternoon. He will strongly oppose any concession of territory to the United States, and he pointed out that what is at issue is involved in the proposition to make the summit of Mount St. Elias the starting point of the line.

Senator Macdonald brought up the equipment of William Head quarantine, urging that better accommodation should be provided. Senator Scott said that the government intended to strengthen the station.

The government proposes granting \$300,000 out of the Manitoba school lands funds to the provinces for the maintenance of public schools.

The Supreme Court gave written judgments to-day, all of Eastern interest. Vice-President Shaughnessy said today that if the Crow's Nest agreement goes through the line will be completed to the summit this fall and to Kootenay Lake by the end of next year.

Mr. Casey's bicycle bill passed its third reading to-night. The alien labor bill also passed its third reading.

W. Jennings Bryan, late Democratic candidate for President, visited Ottawa to-day, and was warmly greeted by leaders on both sides.

MODERN WAR MATERIEL.

VANCOUVER, June 6.—The steamer Huphe, which arrived to-day from the Orient, states that the Philippines are being short of ammunition, are using cocoa nuts for cannon balls, and with them have committed great havoc among the Spanish troops.

While the steamer was in the Philippines on her last trip a British resident informed the officers that the Spanish government had captured twenty-five Roman Catholic priests, supposed to be in sympathy with the rebels, and roasted them like sucking pigs.

The Huphe came under special charter to the Canadian Pacific railway, with a cargo of 3,800 tons, consisting principally of new tea and coffee, and discharging cargo here and will return here to load for the Orient.

DREYFUS' SAD PLIGHT.

LONDON, June 7.—The Daily Chronicle this morning gives prominence to a report that Prof. Carvalho, the expert in handwriting, is going from New York to Paris to assist in reopening the case of Captain Albert Dreyfus, who on January 5, 1895, was drummed out of the French army and sentenced to life imprisonment on conviction of having sold war department maps and plans to a foreign government.

Dreyfus made the following statement after his condemnation: "In the chamber of a foreign embassy a paper is discovered announcing that our documents are about to be sent. That paper is submitted to experts in handwriting. Three of these reported it to be my handwriting, two report that it is not, and that on evidence I was condemned. At 18 I entered the Polytechnic school. I had a splendid military career before me, a fortune of £20,000, and a certainty of an income in the future amounting to £2,000 a year. I have never run after women, never touched a card in my life, I had no need for money, why then should I have turned traitor?"

The following is the text of the document found, it was said, at the German embassy: "Have no news for you. I do not know what to do. I send you in the meantime the conditions of the forts. I also hand you the principal passages of the firing instructions. If you desire the rest I will have them copied. The document is precious. The instruction has only been given to the officers of the general staff. I leave for the manoeuvres."

The report which caused the arrest of Dreyfus was signed by General Mercier, minister of war, General Boissodre, chief of general staff, and Col. Conoe, his assistant. The arrest was decreed by the unanimous vote of eleven ministers, all of whom bound themselves to keep secret the details of the crime and trial.

AN ICE BLOCKADE.

St. John's, Nfld., June 7.—The British steamer Barcelona, Captain Campbell, eleven days from Liverpool, has arrived here. She reports experiencing high winds and foggy weather. Directly in the track of shipping she passed numerous icebergs of great size.

The northern coast is now completely blocked with ice. If the wind continues the St. John's harbor is likely to be blocked also.

FATALITY AT QUALICUM.

NEW YORK, June 3.—Professor Schiller, who for the last four years has been instructor of logic at Cornell University, has been elected a fellow and tutor in philosophy at Corpus Christi College, Oxford. He will soon leave to accept this new position. An Oxford fellowship is much sought after honor. Professor Schiller was educated at that university, and is a well-known writer on philosophy.

BAYONET CHAMPIONS.

The Toronto Highlanders Carry the Day at the Great Islington Tournament.

Two Canadians Left to Face Each Other in the Final Event Yesterday.

From Our Own Correspondent.

LONDON, June 7.—The final event of the bayonet bouts, dismantled, at the military tournament in the Agricultural Hall, Islington, was won to-day by Private Stewart of Canada, who defeated Private Wesson of Canada, thus winning the first prize of £5.

On Saturday last Sgt. Williams and Privates Wesson, Stewart and Maclean of Canada competed against four members of the New South Wales Mounted Rifles and won. Williams and Maclean retired from the competition, leaving Stewart and Wesson to compete to-day for first place and the prize.

CANADA WINS AGAIN.

LONDON, June 8.—At the royal military tournament at the Agricultural Hall, Islington, to-day, in the bayonet fighting between the Regular and Colonialists the prize was carried off by the 48th Canadian Highlanders.

CANOVAS AGAIN PREMIER.

MADRID, June 6.—The Queen Regent has confirmed Senor Canovas, the Premier, in his ministerial power, and the cabinet will remain in office with the personnel unchanged.

All the leading members of the Diet and the Chamber of Deputies who were consulted by Her Majesty, as well as three marshals, have advised her to underwrite from Cuba. It is understood, however, that the government does not contemplate any immediate change in the supreme command in Cuba.

The solution of the crisis is a general surprise as much in ministerial circles as in the world at large. The only explanation is that the first thought of the Premier is to vindicate his own proper so far as the Liberals are concerned, and when this is established, to find occasion at an early date to modify the cabinet as to satisfy the Liberals and terminate the deadlock before the Cortes reassemble, which will probably not be for several months. It can hardly be doubted that the modification will include the replacing of Capt. Gen. Weyler by some other commander.

HAVANA, June 6.—In political circles and among the Spanish general public there is a feeling of acute anxiety, and it is not to be wondered at that the Premier in Madrid, keen satisfaction is expressed at the news that Senor Canovas has received fresh proof of confidence from the Crown.

THREE FIREMEN KILLED.

SAN FRANCISCO, June 6.—A fire in the southeastern part of the city at noon today cost three firemen their lives and entailed a property loss of \$100,000. The killed are: John Maholey, of chemical No. 6; Frank Keller, of hose cart No. 2, and James Hallinan, driver of truck No. 1.

The fire started mysteriously in a ten-story brick building, known as the Schrott & Westfield, and leased to the Standard Biscuit Company. So far as is known the only occupants of the building at this time were John Erwin, the fireman, and Charles W. Cook, who were at work in the office. Cook departed at 11 o'clock, and Erwin was freed from his work at noon when a fireman rushed in conveying the information that the building was ablaze in the upper stories.

Adjacent to the building was a row of old wooden buildings, including a branch Salvation Army barracks and the well known station. These were set on fire by the fire. The firemen were in a neighboring paint shop, endeavoring from that point to check the spread of the flames. A falling timber struck the wall, fell, burying beneath it the firemen. Fortunately the police station contained only three prisoners, but the terrified yells and appeals of the trio to be liberated caused much excitement among the gathering crowds. They were transferred as quickly as possible to the Central station.

Meanwhile floor after floor of the factory fell in, rendering the side walls unsafe. Then the east wall of the factory toppled over, and a waving sheet of flame spread over the wide wooded area adjoining. With the crash of the east wall occurred the tragedy of the burning. A score of firemen were in a neighboring paint shop, endeavoring from that point to check the spread of the flames. A falling timber struck the wall, fell, burying beneath it the firemen. Fortunately the police station contained only three prisoners, but the terrified yells and appeals of the trio to be liberated caused much excitement among the gathering crowds.

A MISSING SHIP.

PHILADELPHIA, June 7.—Heavy premiums are being asked for re-insurance on the British ship Crown of Scotland, which sailed from Philadelphia on November 22 for Japan. She was spoken on December 27, near the equator, and there have been no reports of her since that date. She was laden with a cargo of refined petroleum. It is feared the vessel and her crew have been lost. The ship is insured in Europe and the cargo in the United States. The Crown of Scotland sailed from Liverpool, where she was built in 1883.

FATALITY AT QUALICUM.

NANAIMO, June 7.—(Special)—A telegram from June 7 to-day says Harry Thames, of Qualicum, shot himself through the head with a revolver yesterday. No further particulars have been obtained. A magistrate and Constable Scharschmidt have gone to hold an inquest.

A JUBILEE QUARREL.

Montreal's English and French Societies to Hold Rival Parades and Trouble Feared.

Queer Devices of Quebec Politicians to Be Investigated in Election Courts.

From Our Own Correspondent.

MONTREAL, June 7.—(Special)—Trouble is threatened between the English and French societies in connection with the Jubilee parade. The parade was actively taken in hand by the St. Jean Baptiste Society, who made no provision for the English societies.

The St. George's Society has now decided to take no part, and it is likely the Caledonian and St. Andrew's will follow suit. The Orangemen have announced their determination to hold a monster parade, and a motor has been notified by the St. Jean Baptiste Society they fear trouble will ensue in that case.

MONTREAL, June 7.—(Special)—The Champlain Liberals having contested the election of Dr. Marcotte on the ground of clerical interference, Dr. Marcotte has entered a cross-petition against Mr. Trudel, the defeated Liberal candidate, asking his disqualification. He also asks the disqualification of Messrs. Larue, Geoffroy and several other members of the Dominion and Quebec parliaments.

MONTREAL, June 7.—Messrs. Dan Mann and William Mackenzie will have the contract for the C.P.R. for building the Crow's Nest Pass Railway, and no doubt will sub-let so as to permit the greatest possible progress with construction. In all probabilities it will take two seasons. Railway men here estimate the construction at fully \$27,000 a mile, including bridges. It also comprises that Chas. Hyman, of London, Herbert Holt, of Montreal, and others, are interested with Heinze and his associates of the Columbia & Western, who are after a subsidy to build a railway from Robson west to Penticon.

MONTREAL, June 7.—(Special)—At the annual meeting of the Bank of Montreal to-day General Manager Clouston said the past year had been very disappointing and the future is shrouded in uncertainty. In all probabilities it will take two seasons. Railway men here estimate the construction at fully \$27,000 a mile, including bridges. It also comprises that Chas. Hyman, of London, Herbert Holt, of Montreal, and others, are interested with Heinze and his associates of the Columbia & Western, who are after a subsidy to build a railway from Robson west to Penticon.

With regard to the particular applications now before the committee the good, however, that the government does not contemplate any immediate change in the supreme command in Cuba. The solution of the crisis is a general surprise as much in ministerial circles as in the world at large.

Crop prospects are good in the Northwest and fair in Ontario, though toward in Quebec. Mineral development in the West is adding daily to the wealth of the country, and various lines of industry will be assisted through the building of the railway into the British Columbia mining region, which of itself will be almost enough to develop the commerce of the barometer to fair weather.

RAILWAY MEN BENEFIT.

OTTAWA, June 7.—The special committee appointed to inquire into the railway bills of Messrs. Casey and Maclean reported to-day. The main features of Mr. Casey's bill as amended provide that in case of the temporary injury of a railway employee the company will require to pay sixty per cent of the current rate of wages received for one year.

Every member of the committee no doubt sympathized with the people of the Coast cities in their desire to secure the trade of the mining districts, but it did not follow that they would be deterred by any legitimate protest of the Coast cities in their desire to secure the trade of the mining districts, but it did not follow that they would be deterred by any legitimate protest of the Coast cities in their desire to secure the trade of the mining districts.

THE BRITISH ASSOCIATION.

TORONTO, June 7.—(Special)—At a meeting of the British Association committee on Saturday it was announced that the government of Manitoba agreed to spend \$500, and that of British Columbia \$1,000, in showing the natural resources of these provinces to visitors.

A request from over 60 mine owners and representatives of mining companies, both in Ontario and British Columbia, has been received, that a special exhibit of mining specimens be made during the meeting of the association, and that papers and addresses dealing with the mines of the country be added to the programme. A committee has been appointed to discuss the question of mining interests.

MAIL ROBBER SENTENCED.

KAMLOOPS, June 7.—(Special)—At the assizes here to-day the prisoner Leitch pleaded guilty to the robbery of the Fort Steele mail, after his trial had been in progress for four and a half hours. He was sentenced to ten years' imprisonment.

PROMOUNCED INCURABLE.

No case of Catarrh Too Acute, or of Too Long Standing but Dr. Agnew's Catarrh Powder can always cure. When All Else Fails It Cures—Try It First and Save Experimenting.

"Five years ago my little daughter was attacked with catarrh of a very severe type. It was protracted, and I here state for the benefit and encouragement of all sufferers from this dreadful malady that after using two bottles my child was completely cured, and I consider it my duty to give my testimony to Dr. Agnew's Catarrh Powder." Mrs. Geo. Graves, Ingersoll, Ont., sold by Dean & Hiscock and Hall & Co.

HEINZE THE WINNER.

Minister Blair Favors Chartering Only His Company to Build to Penticon.

Government Not Convinced of the Feasibility or Necessity of Second Through Line.

From Our Own Correspondent.

OTTAWA, June 8.—The railway committee this morning considered the bill of incorporation of the Columbia & Western Railway Co., Mr. Heinze's enterprise, to which it is understood the government have agreed to pay a large subsidy for the construction of a line from Robson to Penticon.

Mr. Bostock is the member in charge of the bill, and Barrister D'Arcy Scott, of Ottawa, appeared in its interest. Dr. Milne, of Victoria, and Mr. Norman McLean, of Vancouver, as promoters of the Vancouver, Victoria & Eastern Company, opposed the granting of a charter to the Columbia & Western, holding that in the interest of the Coast cities they should have the preference.

Mr. Oliver, M.P., asked for a declaration of the policy of the government. Mr. Blair said he was not prepared to announce this fully until it is decided in the House of Commons. He said, however, that the construction of a line west of Penticon, and the Canadian Pacific company did not embrace any greater length of railway than from Lethbridge to the Columbia river.

Mr. Blair said he was not prepared to announce this fully until it is decided in the House of Commons. He said, however, that the construction of a line west of Penticon, and the Canadian Pacific company did not embrace any greater length of railway than from Lethbridge to the Columbia river.

SALVATION BY SUICIDE.

Authentic Story of the Remarkable Craze Affecting Simple Russian Peasantry.

Fanatical Antipathy to the Census as a Roll Call for Summons to Judgment.

From Our Own Correspondent.

LONDON, June 8.—A special correspondent of the Daily News who went to Tiraspol, Russia (about 70 miles north-west of Odessa), to inquire into the case of the self-immolation of a number of persons belonging to the religious sect known as the Kasakinski, says he learns that Feodor Kovaleff, one whose names is the bodies of eight of the fifteen victims, found, including those of Kovaleff's wife and two children, will probably not be indicted for the part he took in bringing about the deaths of these victims.

A formal inquiry is made into his mental condition he will, in all likelihood, be confined in a monastery.

The magistrates who are examining into the matter are convinced that Kovaleff is wholly sincere in all that he does, and that he is absolutely unconscious of having committed a crime in having buried six persons alive and waited up nine others in the cellars of his houses. The prisoner belongs to an ultra-fanatical branch of the Kasakinski, called the Beguni.

So rigorously exclusive are the members of this branch that they will not eat or drink from the same utensils used by relatives who have married ordinary members of the Rasation. They will not worship in churches or buildings in which are usually filthy beyond description.

One of the chief personalities of the drama enacted at Ternofka, near Tiraspol, was a woman called Vitalis, who was a prophet, priest and preacher. She was the daughter of respectable, well-to-do parents, and was fairly well educated. She entered an orthodox convent but later returned to her father's home.

Some time ago she suddenly vanished, and was not heard of until her body was exhumed at Ternofka. At the time of her self-immolation she was forty years old. She was of ascetic, commanding figure and was possessed of persuasive eloquence. She had great power among the peasantry, who formed her chief audience.

An instance of the influence of Vitalis was the willing up of Kovaleff's wife and children. During the training of the census Kovaleff arrived home one evening and found his young wife strangely depressed. His inquiries as to what was troubling her resulted in the information that she was afraid that the enumerators would enter the names of their two children in the census record, with the result that they would ultimately be forced to join the orthodox church and thereby be irrevocably doomed to eternal damnation.

The prospect hastened to the mother and instead of trying to prevent her self-sacrifice, she recommended her for holy and laudable resolve. She finally convinced Kovaleff that by self-martyrdom he and his family could alone hope for salvation.

It was in about 150 miles farther than the feasibility of a line west of Penticon, and the Canadian Pacific company did not embrace any greater length of railway than from Lethbridge to the Columbia river.
