Rents collected Traffic is showing a decided decrease on all the railway lines concentrating at Chicago. The ability to carry is there but the toninge is wanting. And that is what is the matter with the great system of railroads throughout the west. Until the new crops are harvested—which it must be confessed promise very poorly—many of the roads will be compelled to exist from hand to mouth for the want of something to transport. The shipments of east bound freight of all kinds from Chicago last week were 48,129 tons, or \$100 tons less than the previous week, which fell below the corresponding period last year.

I am manufacturing on the premises and I am certain you will be convinced it is the best value in the Dominion. Some may not understand how I sell a fine fashionable Hat at the price, but it is very simple. I pay no duty on the Silk Plush or Trimmings used in the manufacture of it, as I import them direct for use in my Factory, thereby making a saving of from 25 to 35 per cent. on the cost, which goes to the benefit of the purchaser, whereas Hats that are imported the importer pays duty on the labor, trimming, boxes, etc., making the cost very high.
