### MARRIED SEVERAL TIMES

In the cold and chilly down the kindly old gentleman was waiting outside the jail for the discharged prisoners. He went up to one and asked if he needed any help.

"What brought you to this, my poor friend?" he asked kindly.

"I dunno, sir," replied the man sadly; "unless it was attendin' too many weddings."

"Ah, you learned to drink at those festivities or to steal, perhaps?" the old gentleman suggested sympathetically.

"No, it wasn't that. You see, I was altho the bridegroom."

### WINTER WEATHER HARD ON LITTLE ONES

Our Canadian winters are exceedingly based on the health of little ones. The weather is often so severe that the mother cannot take the little one out for an airing. The consequence is that baby is confined to overheated, badly ventilated rooms; takes cold and becomes cross and peevish. Baby's Own Tablets should be given to keep the little one healthy. They are a mild laxative which regulate the stomach and bowels and thus prevent colds. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### 1265 MOOSE KILLED LAST YEAR

The returns for the 1919 moose season in Nova Scotia show that during the open season of that year, October 1 to November 30th, 1,265 were legally killed, as against 1,243 the previous year, while there were 190 deer legally killed during the 1919 open season for those animals, Oct. 16 to October 31, as against 69 in 1918.

Minard's Limited Co., Limited.  
Gentlemen—My daughter, 13 yrs. old, was thrown from a sleigh and injured her elbow so badly it remained stiff and very painful for three years. Four bottles of MINARD'S LIMEWATER completely cured her and she has not been troubled for two years.

Yours truly,  
J. D. LIVESQUE,  
St. Joseph, P. O., 18th Aug 1919.

### HE WANTS TO TELL THE WHOLE WORLD

#### Dunham's Nerves Steady Now and Health is Fine Since Taking Tanlac

"Yes, sir, I am in the very best of health since I have taken Tanlac and I feel so grateful for it that I want to tell the world about this medicine," said Arthur Silas Dunham, who lives at 11 High street, Moncton, N. B.

"You can just imagine," he continued, "what a weakened, miserable condition I was in after I had the 'flu' and it was followed by pleurisy and bronchitis. I was so weak I could hardly get about and so nervous I shook like a leaf. Severe headache spells came on me and at times I got so dizzy it was hard for me to stand up. I had almost no appetite at all and the little I did force down seemed to give me no strength and nourishment. It was next to impossible for me to get a good night's rest why sometimes I got hardly two hours sleep. When morning came I was simply all in and all day long I felt so miserable that life was hardly worth living."

"A friend who knew the condition I was in came to see me and told me about Tanlac and advised me to give it a trial. And I am certainly glad I took his advice, for while I have only taken three bottles I am already feeling like a new man. My appetite is so fine that my biggest trouble is trying to satisfy it, and everything I eat agrees with me perfectly and is giving me strength and energy. My nerves are now steady and I am no longer bothered with headaches or dizzy spells I sleep like a child the whole night through and when morning comes I get up feeling just fine."

Tanlac is sold in Bridgetown by S. N. Weare and in Middleton by Clifford A. Mumford and in Bear River by L. V. Harris.

### CANADIAN MILLING INDUSTRY

The Canadian milling industry has, since 1914, made progressive strides and flour exports between that year and 1919 increased nearly five times. Today this business has an annual capacity of slightly more than 35,000,000 barrels a year and new mills are being continually added. In 1890 Canada exported 115,000 barrels of flour valued at \$525,383. By 1919 this had increased to 5,964,128 barrels valued at \$136,360,000. In the fiscal year of 1919, 5,196,806 barrels were milled at a value of \$99,826,596.

Great Britain has been by far, Canada's best customer for flour, her imports from the Dominion of this commodity for the fiscal year, being equal to about 29 per cent. of the total, or \$56,000,000 out of nearly \$190,000,000.

Exports by countries for the last year were as follows:—Great Britain \$56,270,225; United States \$99,794; British South Africa \$17,309; Newfoundland \$3,147,527; British West Indies \$3,329,527; Other countries \$34,147,570.

The Trade returns for the present fiscal year show that, as yet, the exports of flour are holding their own, though the European countries are again engaged by grain growing and military. In the last available period of five months 4,928,154 barrels of flour were exported, as compared with 4,513,375 in the same period in 1918. Of these 2,912,405 barrels went to the United Kingdom; 28,423 to British Guiana; 146,506 to the British West Indies; 297,845 to France; 100,132 to Greece; 55,735 to Italy; 73,109 to Newfoundland; and 233,084 barrels to other countries. Great Britain took a little more than 1,000,000 more barrels than she did during the same period in 1918, Other departments of the milling industry boom large also, as the following figures show: oatmeal \$4,032,567; cereals \$4,247,249; bran, etc., \$1,592,212.

Whilst on account of the change of conditions in Europe, the export trade may fall off considerably, the Canadian milling industry by reason of the activity produced during the year, is in a very strong position, and should be able to hold its own in the field of competition which is undoubtedly ahead.
