

BOYS FOR FARM HELP

THE Managers of Dr. Barnardo's Homes desire to obtain good situations with farmers throughout the country for bright, healthy little boys from ten to twelve years of age, who will be arriving from the London Homes in several parties during the present season. There are at present nearly 5,000 in these Homes receiving an industrial training and education to fit them for positions of usefulness in life, and those who are sent to Canada will be selected with the utmost care with a view to their moral and physical suitability for Canadian farm life. Farmers requiring such help are invited to apply to

THE MODEL SCUFFLER

LIGHT AND STRONG

QUICKLY ADJUSTED.

WE aim to make an implement which will adjust itself to all the varying conditions of the soil in the quickest possible manner, and with the least manipulation. We accomplish this by our new patented shank fastener or clamp. The change is made by loosening the nut half a turn, by which operation the point can be shifted to any conceivable position. This Scuffler is what many of our customers have already termed it—"a world beater." It is strong, durable, and of the best material and workmanship.

If your local agency does not supply you, write direct to
