BULL MOVEMENT-FLOWER COCKS AGAIN IN THE LEAD-R. T. SELLING AT 95-GRAN-ERS BUOYANT.

New York, Jan. 13.

wing to heavy storms our British st cables are working very badly, sequently it is difficult to say otly what the London market is. opened strong, however, with d buying of Denver pfd., the ific stocks, and Louisville. Arbige transactions promise to be ll on account of the interruption he cable communication.

here is a shrewd suspicion that wer interests have realized very vily during the last 2 or 3 days. vily during the last 2 or 3 days. Street remembers that hitherto Flower, has, as a rule, gone to ope about this period of the year, the question has arisen whether liquidation does not indicate the is contemplating a trip add. It is a question whether his arture from this country would be followed by considerable less vity in the stocks in which he is rested, and also by a lower range rices. The Street has now been cated to look on his transactions

rices. The Street has now been cated to look on his transactions he most important on the market without his leadership it is quite sible that there would be a falling both in speculative activity and ish enthusiasm.

nother topic which occupies the rest of the Street is the considering of the ratification of Spanish aty in Washington. There is y little doubt but that the necesy will be secured in the ate, but although the House has hing directly to do with the aty, indirectly its vote is necesifor its successful carrying, for reason that the Treaty provides the payment of \$20,000,000 to in.

ower brokers were apparently lerate buyers of Nor. Pacific, but bulk of the orders in these securwere thought to emanate from . Morgan & Co. is rumored that a Bull pool is g formed in Nor. Pacific.

CABLES BETTER-ADVANCE NOT WELL SUSTAINED - MARKET CLOSING LOWER.

Chicago, Jan. 13.

In response to the better feeling abroad the Chicago market opened firm at an advance of §. Cables this morning were of a much more satisfactory character being at an advance of § point both for corn and wheat.

Advocates of \$600, wheat in Chicago

Advocates of 80c wheat in Chicago were again fairly numerous to-day, with a following among scalpers suggestive of a strong general belief in its future either from overflow of speculation from stocks, or a more speculation from stocks, or a more pronounced recognition of the strong statatistical outlook here and abroad. There was a report circulated to-day that a strong contingent from Wall street was getting interested in wheat, and also an intimation that foreign houses tired of fighting a market that would not go down were on the verge of a general covering movement and more vigorous action along export lines.

The continued rapid advance in the security market, is a source of con-

security market, is a source of constant anxiety to the short wheat sellers, who know from experience what effect is likely, should it extend into wheat as has happened in other years.

Although the market has not held its advance as well as might have

its advance as well as might have been expected, yet the undertone seems to be firm. We cannot see anything to cause us to change our opinion and therefore advise purchase on all weak spots.

AFTERNOON BOARD.

AFTERNOON BOARD.

There does not appear to be the buoyancy of feeling we should like to see in this afternoon's transactions. In fact, speculation was dull and uninteresting, and on the whole the market was inclined to rest on its oars. Can. Pacific sold at 86\frac{1}{4}, 350 shares changing hands. There seems to be excell nt buying of this stock, although the demand is limited. Toronto Street was held back by operators awaiting statement for past year, which is expected to be good. Com. Cable was in good demand, selling at 186 and closing strong, we should not be surprised to see both this and Dom. Cotton do better. Telegraph was strong and sold up to 173.
