THE WOOL MARKET.

The high prices which marked the first few days of the season were not maintained. The new clip brought 21 to 22c. for merchantable fleece at the opening, but buyers now quote 18 to 19c.; unwashed, 16c.; rejects, 11c. per lb.

MONTREAL. There is very little to note in the Montreal market. Sales of fine wools are small, as the manufacturers are not getting orders, and consequently most mills are not running full; no change in prices. Some large sales of foreign wool have been made in the United States recently at an advance of about 5 per cent. We quote Greasy Cape, 14 to 16c.; B.A. washed wool, 28 to 30c.; snow white Capes, 33 to 36c.

WOOLEN DUTIES.

In bringing down the tariff amendments the Minister of Finance, Mr. Fielding, said: "Worsted yarns and worsted tops are dealt with in items 375, 376 and 377. We have had some difficulty over these owing to the conflicting interests of the various woolen mills. There are a few woolen mills in Canada which make worsted yarns, and there are a considerable number which do not make them, but which use them in the manufacture of cloth. In the resolutions brought down the item fixed the duty at 15 per cent. on worsted yarns costing 20 cents per pound and under. This does not express what we had in mind. Instead of under it should read over. Worsted yarns costing 30 cents per pound and upwards will be dutiable at 20 per cent. That is an encouragement to the woolen mills which do not spin these yarns. A reduction to 15 per cent., we think, would be perhaps a pretty severe reduction to those who are making these yarns. The amount decided upon will, we think, give them a chance to continue the spinning, and not make the yarns too expensive for the large number of mills that want to use them in order to make a better quality of cloth. Worsted tops we propose shall be dutiable at 15 per cent. when made from wools of a similar character to those grown in Canada; when made from other wools they shall be on the free list. This item has given us considerable trouble, owing to the conflicting interests of the different branches of the woolen trade. I do not suppose we can compliment ourselves on making it wholly satisfactory, but I hope it will be reasonably so to the different interests."

AGENCY WANTED.

A responsible firm of manufacturers' agents in St. John's will be glad to hear of two or three leading manufacturers in the textile and kindred trades, who wish to be represented in Newfoundland. Address S. & S., care of "Canadian Journal of Fabrics," 61 Church Street, Toronto.
