

UNIVERSITY OF THE CITY OF NEW YORK.

MEDICAL DEPARTMENT:

410 East Twenty-sixth St., opposite Bellevue Hospital, New York City.

THIRTY-FIFTH SESSION, 1875-76.

FACULTY OF MEDICINE.

REV. HOWARD CROSBY, D.D.
Chancellor of the University.
MARTIN PAINE, M.D., LL.D.,
Emeritus Prof. of Materia Medica and Therapeutics.
ALFRED C. POST, M.D., LL.D.,
Emeritus Prof. of Clinical Surgery; President of the Faculty.
CHARLES A. BUDD, M.D.,
Prof. of Obstetrics.
JOHN C. DRAPER, M.D., LL.D.,
Prof. of Chemistry.
ALFRED L. LOOMIS, M.D.,
Prof. of Pathology and Practice of Medicine.
WILLIAM DARLING, A.M., M.D., F.R.C.S.,
Prof. of Anatomy.

WILLIAM H. THOMPSON, M.D.,
Prof. of Materia Medica and Therapeutics.
J. W. S. ARNOLD, M.D.,
Prof. of Physiology.
JOHN T. DARBY, M.D.,
Prof. of Surgery.
CHARLES INSLEE PARDEE, M.D.,
Prof. of Diseases of the Ear; Dean of the Faculty.
ERSKINE MASON, M.D.,
Prof. of Clinical Surgery.
WALTER R. GILLETTE, M.D.,
Adjunct Prof. of Obstetrics.
WILLIAM STRATFORD, M.D.,
Adjunct Prof. of Chemistry.

POST GRADUATE FACULTY.

D. B. ST. JOHN ROOSA, M.D.,
Prof. of Ophthalmology and Otolology.
WM. A. HAMMOND, M.D.,
Prof. of Diseases of the Mind and Nervous System.
STEPHEN SMITH, M.D.,
Prof. of Orthopedic Surgery and Surgical Jurisprudence.

MONTROSE A. Pallen, M.D.,
Prof. of Gynaecology.
FANEUIL D. WEISSE, M.D.,
Prof. of Surgical Anatomy.
HENRY G. PIFFARD, M.D.,
Clinical Professor of Dermatology.

THE COLLEGIATE YEAR is divided into two Sessions—a regular Winter Session, and a Spring Session. The latter is auxiliary to the former, and the design of the Faculty is to furnish instruction to medical students throughout the year. Attendance on the regular Winter Session is all that is demanded of the candidates for graduation. Those who attend the other session receive a CERTIFICATE OF HONOR, as having pursued voluntarily a fuller course than usual.

THE SPRING SESSION is principally of a practical and clinical character, and affords particular facilities to students who have already taken one course in schools where such practical advantages exist to a less extent. The course consists also partly of lectures and examinations on the subjects necessary for graduating in medicine, conducted by the Professors of the regular Faculty and their assistants. These examinations will be addressed to both first and second course students. For the purpose of making the visits to the wards of the Hospitals as available as possible, the class is divided into sections. One division at a time is instructed in Practice, Diagnosis, Prescription, and Treatment of Patients. The course begins early in March, and continues till the middle of May, when the SUMMER COMMENCEMENT is held. During the Summer the College Clinics are kept open.

THE PRELIMINARY WINTER SESSION commences September 1, 1875, and continues till the opening of the regular session. It is conducted on the same plan as the Regular Winter Session.

THE REGULAR WINTER SESSION occupies four and a half months—commencing on September 29th, and continuing till the middle of February. The system of instruction embraces a thorough Didactic and Clinical Course, the lectures being illustrated by two clinics each day. One of these daily clinics will be held either in Bellevue or the Charity Hospital. The location of the College building affords the greatest facilities for Hospital Clinics. It is opposite the gate of Bellevue Hospital, on Twenty-sixth street, and in close proximity to the ferry to Charity Hospital on Blackwell's Island, while the Department of Out-door Medical Charity, and the Hospital Post-mortem Rooms are across the street. The students of the University Medical College will be furnished with admission tickets to these establishments free of charge. The Professors of the practical chairs are connected with one or both of these Hospitals. Besides the Hospital clinics, there are eight clinics each week in the College building.

THE POST GRADUATE COURSE is to consist of lectures delivered by the Professors of the several departments in the College building during the regular Winter Session, illustrated by clinics held both in Hospitals and at the College. After an attendance of one Session on these lectures, any candidate who is already a graduate of a recognised Medical College can obtain a Diploma Certificate, countersigned by the Chancellor of the University and the Dean of the Faculty of the Medical Department, and by four or more Professors of the Post Graduate Course, to the effect that the candidate has passed an examination by them in their respective branches of special medical instruction. The fee for the Diploma Certificate is \$30.

The Faculty desires to call attention particularly to the opportunities for dissection. Subjects are abundant, and are furnished free of charge, and the Professor of Anatomy spends several hours each day in demonstration in the dissecting-room.

FEES FOR THE WINTER COURSE.

For course of Lectures	\$140 00
Matriculation	5 00
Demonstrator's fee, including material for dissection	10 00
Graduation Fee.....	30 00

FEES FOR THE SPRING COURSE.

Students who have attended the Winter Course will be admitted free of charge. Those who have not attended the Winter Course will be required to pay the Matriculation Fee and \$30; and, should they decide to become pupils for the Winter, the \$30 thus paid will be deducted from the price of the Winter tickets. For the purpose of assisting meritorious individuals, the Faculty will receive a few beneficiaries, each of whom will be required to pay \$43 per annum and the Matriculation Fee.

For further particulars and circulars, address the Dean.

Prof. CHAS. INSLEE PARDEE, M.D.,
University Medical College, 410 East 26th St., New York City.
