## THE HANSEN

### Salt-Glazed Terra-Cotta Weather-Protecting Chimney-Topping.

Patented in the United States and Canada.

Indorsed by Architects throughout the country; are mainly designed to replace the common corbelled chimney top; for the PROPER PROTECTION of chimney masonry from the usual EARLY DESTRUCTION of same by the action of rain and frost. These toppings are manufactured by steam press and dies, same as first-class salt-glazed sewer pipe, for keeping in stock in same manner, and as made in pieces (see diagrams) present the CHEAPEST, MOST PRACTICAL ever READY and LASTING material for bricklayers' use in topping out chimneys. Deducting value of mason's material and time saved when using these toppings, their COST PER FLUE does not exceed 50 to 60 cents that of common brick tops, which secures absolutely PERMANENT chimney masonry, and saves annoyance and REPAIR EXPENSES, the usual and too frequent experience of owners.

88 La Salle Street, Chicago, Ill.
