Company/Product Information

Visioneering Corporation is a leading Canadian lighting manufacturer that produces and markets an extensive line of commercial and industrial luminaires and lamps.

Visioneering offers sports, flood, area/security, industrial H.I.D. fluorescent, and incandescent lighting for the growing needs of today's lighting market.

Visioneering carries a substantial inventory and is capable of shipping most fixtures within 2-3 days. In addition to its large inventory of in-house stock, Visioneering has the facilities to manufacture custom luminaires with deliveries taking approximately 4-6 weeks. Visioneering also carries a complete line of energy saving products, including ballasts, lamps, and reflector systems which can be incorporated into fixtures to give you the most efficient up-to-date luminaires available.

Visioneering is synonymous with excellent customer service, deliveries, and quality lighting products.
