

A Descriptive Catalogue of the Museum (now out of print) was issued by Dr. Starkey.

9. The Rutherford Collection [Experimental Physics].

This collection is housed in the Physics Building, under the control of Professor A.S. Eve, Director of the Department.

It consists of a number of objects and materials relating to the discovery of Radium D E and F at McGill University by Sir E. Rutherford (now Lord Rutherford), with notes in his own hand; also of equipment with which he carried out his researches. These objects are in a glass-fronted cupboard in the Secretary's office.

10. The Geological Collection.

A room in the Department of Geology (in the Mining and Chemistry Building) has been set aside for a collection illustrating Economic Geology. It is controlled by Professor J. O'Neill, Head of the Department.

The collection is organized in a series of fairly good cases.

11. The Botanical Collection.

This is a small collection in one room (the Library) of the Department of Botany in the Biological Building. It is in the charge of Professor F.E. Lloyd, head of the Department.

The collection consists of a variety of objects illustrating structural and economic botany placed in cases conveniently for use in teaching, and an Herbarium of Canadian and exotic plants.

12. The Architectural Collection.

Professor R. Traquair, Head of the Department of Architecture, has gathered together a series of casts illustrating the development of architecture and of architectural decoration, and examples of metal work - to "illustrate the technical possibilities of the material". These are all housed in his
