

## **The Dominion Minister of Agriculture, Hon. S. A. Fisher, Uses Wells, Richardson & Co.'s Improved Butter Color in the Dairy Department of His "Alva Farm."**

---

Amongst the noted butter experts of Canada, the Hon. S. A. Fisher, Dominion Minister of Agriculture, takes high rank. He uses Wells, Richardson & Co.'s Improved Butter Color in his model dairy, which proves conclusively that it must be the best color for all butter-makers. The honorable gentleman writes as follows :

"Having been induced by your public spirit in offering prizes at the Montreal Exhibition, in the Dairying Department, to try your Butter Color, I may say that I have been using it all winter, and I am glad to report that we are highly pleased with it in every way. As my Guernsey cows do most of the coloring of our own butter themselves, even in winter, we do not use much artificial color, but with yours we find the most thoroughly natural color and the finest butter flavor fully retained."
