WHEAT HIGHER ON FOREIGN DEMAND

Decline in Receipts at Minneapolis and Duluth Contributed to Rise.

CHICAGO, Oct. 22.—Revival of export demand today strengthened the price of wheat. Accordingly, the market closed steady at an advance of ¼c to 3-8c net. Other leading staples, too, all showed a gain—corn 5-8c to 1c, oats 7-8c to 1c, and provisions 7½c to 15c.

Lower prices from Liverpool failed to depress wheat except right at the opening. Continued falling off in receipts at Minneapolis and Duluth acted as more than an offset. Reports from India that rain had fallen and from Argentina that crop prospects had become brilliant, made only a passing impression. It was not so when word came that exporters had taken as much as 100 loads of Manitoba. Bullish sentiment spread, as after Baltimore announced charters for three cargoes to go to France. There were also advices that foreigners were buying flour at Minneapolis.

Although corn dipped in sympathy with a decline at Liverpool, offerings were quickly absorbed and prices advanced sharply. Country reports were to the effect that feeders were paying higher figures than could be obtained from Chicago cash houses. The bears had to contend besides with the influence of unsettled weather.

Big shorts in oats covered freely. Rural offerings were reported light.

Provisions advanced after early weakness due to lower prices for hogs. There was a general buying movement which appeared to grow out of the strength of coarse grain.

TAKING A PLEDGE FOR SAFETY FIRST

Grand Trunk Railway Employes Will Assist in Preventing Accidents.

The Grand Trunk Railway is distributing the following pledge among its employes in connection with the "safety first" campaign:

"I will railroad according to the book of rules. I will do all in my power to guard against unsafe acts on my part. If I see a fellow-employe doing his work in an unsafe manner, I will speak to him as a friend and use my moral influence to have him perform his duties in the safest possible manner. I will remember and practice at all times safety first."

This statement is printed below the pledge: "Eighty-three per cent. of all persons injured on railroads are you men who work for the roads. Sixty-six per cent. of all preventible injuries sustained by you are due to unsafe practices, which you could avoid."

APPEAL OF GUNMEN MAY BE POSTPONED

Attorneys Make Application in Court—No Stay in Becker Case.

ALBANY, N. Y., Oct. 22.—(Can. Press).—Attorneys for the four "gunmen," who are under sentence of death for the murder of Herman Rosenthal, the New York gambler, today requested the court of appeals to postpone the hearing of their appeal until after Nov. 17. The appeals of the "gunmen" and former Police Lieutenant Charles Becker, convicted for instigating the murder, were to have been argued on Oct 18, but the court of appeals was prevented from convening on that date because of the sessions of the high court of impeachment. No application for a stay in the Becker appeal was made today.

The "gunmen's" attorneys asked for postponement on the ground that they had but recently been retained in the case. The court took the matter under advisement.

P. E. I. FUR FARMERS WANT OUR BEAVERS

Ask Mr. Hearst's Department for a Shipment of Busy Choppers.

FOR RESERVE SUPPLY

Carelessness and a Steady Market Have Killed All Eastern Beavers.

A new field of industry has been opened up for Ontario in the rise in favor of fur farming in Eastern Canada. The entry into this business of farmers in Prince Edward Island and their phenomenal success in fox breeding has created a similar enthusiasm in the raising of beaver and Ontario is looked upon to supply a reserve stock to proceed with.

For several years this emblematic animal has been extinct in the east, due to careless conservation and a steady market. The climatic conditions and physical nature of Prince Edward Island are, however, admirably suited for beaver farming, and a request has come to the department of lands, forests and mines for the disposal of a large number of animals.

Plentiful in North.

Algonquin Park is the habitat by means of which the request will be answered. Here, beaver, under the careful exercising of regulations, have multiplied in great numbers. In fact their increase in all the northern parts of the province has been made the subject of alarm by farmers, who fear evil consequences from the damming of their streams.

The government was approached thru the Fish and Game Association of Charlottetown, which aims at maintaining a reserve to be drawn upon by purchasing farmers. It is expected that the success of the fox-breeding industry will be duplicated.

WILL ELECTRIFY ONLY A PORTION

C. P. R. President Denies That Entire System is to Be Included.

WINNIPEG, Man., Oct. 22.—(Can. Press).—Sir Thomas Shaughnessy, president of the Canadian Pacific railway, who arrived here this morning from Minneapolis, on a business trip, laughed at the report which came from Milwaukee, crediting him with stating that the whole C. P. R. system might be electrified. What he had stated was that it was the intention to electrify Roger's pass tunnel, and if this proved successful in operation, electrification would be extended over the mountain division from Revelstoke to Field, B. C. Sir Thomas further denied the report in London that Canadian Pacific interests were to be split into three parts.

Sir Thomas announced that double tracking operations between Calgary and Fort William would be completed by the fall of next year, and one result would be, he said, a considerable acceleration in the train service. The company has under construction 1905 miles of road, exclusive of double tracking, of which 1600 miles are in the west. Twelve hundred miles of the total will be completed this fall.

Speaking briefly of the difficulties being met with by the company's officials in Austria, Sir Thomas expressed the opinion that all these would be straightened one way or another.

Sir Thomas expects to leave for the east Thursday evening.

OVER FIFTY LOTS IN REGENTS PARK SOLD

"Over fifty lots in Regents Park have been sold since the property was placed on the market," said Mr. W. S. Dinnick of the Dovercourt Land, Building & Saving Company. This is a good record for a subdivision. Most of the purchasers have the intention of building homes for themselves on their lots, while one builder has been particularly active in purchasing in this property and intends to erect nine houses there shortly.

The rapid sale of Regents Park is typical of the renewed attention being paid good subdivisions by the investor and home-site seeker. One real estate man sizes up the situation as follows: "The average investor in vacant land, and those who intend putting up homes for themselves on their purchase, have been receiving their salaries steadily during the tight-money period, and we don't anticipate anything but a good winter in real estate."

TO FREE BRITAIN OF LANDLORDISM

Lloyd George Nails Colors to Mast in Speech at Swindon.

REASONABLE RENTALS

Ministry of Lands Will Ensure Fair Play to Tenants.

SWINDON, Eng., Oct. 22.—(Can. Press.)—Chancellor of the Exchequer Lloyd George this afternoon dotted the "i's" and crossed the "t's" of the speech in which he inaugurated the government's land campaign at Bedford, on Oct. 11. He then said that it was his object to "free British land from landlordism and get the people back on it."

The two purposes of the Liberal government had set itself, he said today, were to attract and to retain the rural population on the land and to devise means to develop both the quantity and the quality of the total agricultural production of the British Isles. Everything, he asserted, would be subordinated to the attainment of these two objects.

Ministry of Lands.

As the first step, said the chancellor, it was purposed to establish a ministry of lands, with control and supervision of all questions dealing with the users of land both in town and country, and the functions of the present board of agriculture would be transferred to the new ministry.

The government, he said, intended to take the land out of chancery. Hereafter, if a landlord found that "some silly settlement" hampered his schemes for improving his land, he could apply to the ministry of lands, which would enable him to override the barrier.

The new ministry, he continued, would operate thru commissioners who would act in a judicial capacity and have the same power to reduce rents on small farms as the Scottish courts now possess.

Right to Appeal.

Large farmers also would have the right to appeal to the commissioners for a reduction of rent if the action of the state caused a rise in the wages of the farm laborers. In such an event the landlord would have to come in as a contributor, and in times of great agricultural depression a temporary lessening of the rent would be obtainable.

The new ministry of lands, according to the chancellor, is to be given full power to aquire, at a reasonable price, all waste, derelict and neglected tracts of land, and to plant them with forests, and to reclaim and drain the springs on such lands, with a view to their cultivation to the full limit of their possibilities. The ministry is to be not only empowered, but instructed to act, and the resources of the state would be placed at its disposal for this purpose.

If men want sport, said the chancellor, it must be at their own expense, and the game laws would be revised in this direction.

The establishment of a fair minimum wage for laborers with reasonable hours of work, decent housing and the prospect of the laborer obtaining a bit of land for himself would all be within the scope of the powers of the commissioners, who would have authority to fix the price of land in the case of compulsory acquisition.

The government proposed, the chancellor concluded, to remedy the grave deficiency of cottages in the country by building some themselves with state funds, "and we have got a nice little fund at hand—the insurance reserve fund."

The announcement of the land proposals by Chancellor Lloyd George was made by an absolutely unanimous decision reached at recent meetings of the cabinet.

THIS TEACHER NOT LOVED BY PUPILS

Boys and Girls Went on Strike to Show Their Disapprobation.

LOCKPORT, N.Y., Oct 22.—(Can. Press).—Two hundred boys and girls of the Lockport High School went on strike this afternoon because the board of education at its meeting last night failed to reach a decision regarding their complaint against Principal Walter Severance. J. W. Peterson, school trustee-elect, urged the students to return and 125 of them did so, but 75 boys remained out. A recent order abolishing school fraternities and lack of sympathy and cooperation in promoting the school's sports are the causes of complaint against the principal.

CLUBBED A COON GUN DISCHARGED

Robert Short, Eighteen-Year-Old Lad, the Victim of Hunting Accident.

CORNWALL, Oct. 22.—(Special.)—Robert Short and a number of other 19-year-old boys of North Burke, near Fort Covington, N.Y., went out hunting yesterday, and when about a mile from town they treed a coon. Short shot at the coon and brought it to the ground, but the other boys fearing it was still very much alive, Short crept up on the prostrate animal and dealt it a blow with the butt end of the gun, which was a double-barrelled one. As he landed on the coon the gun discharged, and the whole contents entered his right thigh. Short lived but a short time after the accident.
