Nationalists' Object Only to Share in External Responsibilities of Empire Out of the Dominion - Bourassa and Monk to Speak in the English-Speaking Provinces.

MONTREAL, Nov. 9 .- (Special.)-At a meeting of ten thousand Nationalists, seld in the east end this evening, beneath the folds of the Union Jack, Mr. Bourassa proposed the following resolution, which was unanimously adopt-

"This meeting acclaims the result of the election in Drummond and Arthabaska as the triumph of the principle

That the victory justifies emphatically the attitude adopted on the navy bill by Mr. Monk, member for Jacques Cartier, and by the federal representatives who supported him. It shows that the people want to be consulted before being dragged into a new policy of imperial militarism.

"The meeting approves and ratifies the verdict rendered by the electoral division of Drummond and Arthabaska, reaffirms the will of the Canadian people to uphold the rights of the British grown in Canada, declares itself ready to approve all necessary and efficient measures to make sure the defence of Canadian territory, but it considers as contrary to the principle of Canadian autonomy and to the real unity of the empire any policy tending to impose upon Canada, that has no voice in the government of the empire, any share in its external responsibilities and its military defence outside of the Canadian territory, the only portion of the empire upon which the Canadian people may exercise any political or constitutional action."

A Defi to Sir Wilfrid.

The evident intention of the monster gathering was to contradict the statements that race appeals had been made in Drummond and Arthabaska. Mr. Bourages repeated his speeches against the naval policy of the government, and defled Sir Wilfrid Laurier to open "The meeting approves and ratifies

the naval policy of the government, and defled Sir Wilfrid Laurier to open any of the French Seats on the Island of Montreal, and present himself as a candidate, the Nationalist leader declaring that the prime minister of Canada would then see if his com-patriots were slaves to a man, rather

than to a principle.

He also attacked the English Conservative press and their correspondents. The World amongst the rest, accusing them of bad faith, and saying that they misrepresented the Na-tionalists' position before the English provinces. If, after the whole question is discussed and the majority of the country pronounces for imperial-ism, and this new movement, then the Nationalists will bow to the will of the majority, but not before. He and Mr. Monk will, he said, carry the war into Africa and speak in the English-

Will Be introduced by Mr. Monk.
Mr. Gilbert, M.P. for Drummond and
Atthabaska, also spoke briefly, announcing that he would be introduced
by Mr. Monk at Ottawa, but he did say which party he would sup-

Mr. Blondin, M.P. for Champlain, who had been accused of anti-race ap-peals, said it was an infamous lie, for if any body of people attacked the empire they would have first to destroy the Nationalists of Quebec, who would defend the British flag with their lives. Mr. Monk also spoke briefly, but made no startling an-

nounecment. The chairman was Mr. Patenaude, M.L.A. for Laprairie, and Rudolphe Monty repeated Sir Geo. Cartier's word that the last shot in defence of British supremacy on this continent would be fired by a French-Canadian.

RIOTING IN EXPRESS STRIKE Drivers Beaten Into Unconsciousness

and Loaded Wagons Set on Fire. NEW YOR, K Nov. 9.—Mayor Gaynor issued two characteristic eletters tonight, with a promise to bring the strike of express company employes to a head to-morrow. He forbids the op-eration of wagons by unlicensed driv-ers, this eliminating the strikebreakers on which the companies have depend-

More than 10,000 drivers and helpers, augmented by most of the taxicab chauffeurs in New York, are still on strike and goting is unabated.

A gang of seven strikers overturned loaded Adams Express Company wagon to-day, and after driving off three of the wagon men, attacked John Smith, a guard, whom they beat nearly into unconsciousness, and sent the horses galloping down the street. One of the worst riots occurred in Eighth-avenue, near a garage. Drivers of four machines were attacked by

AMERICANS ATTACKED IN THE CITY OF MEXICO ASPHALT BLOCK MAKES GOOD plete but unofficial returns, show that the Democrats will have a working majority of thirty.

Protest Registered by U. S. Ambassador - Buildings Stoned and Flag Torn to Tatters.

MEXICO CITY, Nov. 9.—Thru inassaults made openly on American citizens in the streets, a demonstration against Americans, beginning last night with the stoning of The Mexican Herald offices, to-day developed into an affair of international importance. A vigorous protest was registered by the United States -ambassador with the Mexican department of foreign re-lations, and at the same time the facts were telegraphed to Washington. To-night the attacks were renewed. Windows in a dozen American business places were smashed. All about town

shutters were hurriedly drawn, and establishments closed. While the police looked on and seemingly made no effort to prevent it, an American flag floating in front of a candy store in the business quarter, was torn down this afternoon by several hundred medical students and others, who trampled and spat on the stars and stripes. The mob then tore

the flag to tatters. The demonstration to-day was a continuation of the affair of last night, caused by antipathy aroused among the people by the burning at the stake of Antonio Rodriguez at Rock Springs, Texas, on the night of Nov. 3.

Report of Commission on Alberta
and Great Waterways Railway

Ready For the Legislature.

The facts, as gathered from the crew of the steamer, which made a trip to Monetville to-day, are that Joseph Larveque, a farmer living near Monetville, was drinking with a companion Monday evening, and about 11 o'clock went to the residence of Isaac Larveque with a bottle of whiskey. The latter, who is an old man of sixty, a widower, living with his grown-up family, was in bed when the men came, and, having been drinking during the day, was notin goodhumor. He got up and drank with his visitors, a quarrel started and the old man ordered Joe Larveque out.

Dared Him to Shoot. EDMONTON, Nov. 9.—(Special.)—
The report of the royal commission appointed to investigate the Alberta and Great Waterways Railway deal will be laid on the table at the opening of the legislature to-morrow. The contents of the report have not been allowed to reach the public before being presented to the legislature, and it will be brought down in the sealed envelope in which it was presented to the legislature to make a move in the matter.

control to-day. Discovered.

local manager could offer no explana-tion of the seeming lack of interest on the part of the public. Crane returned to his hotel and the following conver-

THE REAL MEANING.

TEDDY: Cheer up! The worst is over.

We have read a lot of the despatches and the comments of the editors, and none so far point out the one significant thing of Tuesday election: That the electors of the United States rose in the shape of the Democratic party and smote the Republican party hip and thigh; cut down Roosevelt, and mortally wounded Taft, substituted a Democratic majority in the house of representatives for a Republican one, either wiped out or incapacitated a Republican majority in the senate, smashed or made useless most of the Republican leaders like Aldrich, Cannon, and declared for tariff reduction on a sweening scale.

leaders like Aldrich, Cannon, and declared for tariff reduction on a sweeping scale.

In a word, that the Republican supremacy of almost fifty years was rolled deep down in the dust.

A dominant and arrogant party was humiliated; an opposition (Democrat) party that was thought to have become hopelessly democrated was suddenly raised to glory and to the immediate prospect

of great power.

Nobody expected what has happened. And yet, what else could have happened? The Republicans many of them, as insurgents, had turned on their own party, and Roosevelt was only more so. The Republicans in the house of representatives when they aided to depose Cannon, had made a fatal rent in the sail, and when Aldrich and others deserted the ship in the senate, it was noticed that a hopeless leak had sprung in the hold. How could such a hulk escape? But it was Taft who was in command, not Roosevelt, the the new captain was certainly the

nominee of the old one at the time the latter went ashore. But we believe, never since. Roosevelt had long ago lost hope in Big Bill.

It is time that a lot of insurgents, perhaps including Roosevelt, thought they could save the Republican ship by a change of course, a change of crew, and by a heaving over of unworthy ballast. All of which now seems to be absurd. It could not be done. The Republican Party was absolutely rotten and it was cast out. And the almost equally discredited Democratic party was the instrument em-But those who say that Roosevelt is beaten are mistaken.

Roosevelt's work is only begun-but the first underbrushing is The Trusts, the Interests, the Big Business, the High Price of Living Barons, the Railroads, Wall Street, Privilege, the combination of all these into a Plutocracy that ruled the land with a rod of iron to be done by the Democrats. are "beaten to a frazzle." Roosevelt is not-Roosevelt has won, and our prediction is that he will rank as one who wrought his best to

produce a revolution that was long over due. Do not let Wall Street rejoice or the men of discredited finance, or the extortionate railway tariff men; there is no relief for them; only still more rapid trial and summary execution. Nor is there much in it for Tammany outside of New York State.

The one clear thing is that the Republican party is smashed, not before its time. Next, that the Democratic party is up against a serious situation. It is not yet clear what men or party or parties will be the instrument of effecting the people's will.

Toronto Electric Light Company Charge That Dark-

ness in Parkdale Houses Resulted From Interference With Wires - City Denies, But is Investigating.

Manager Macrae of the Toronto Electric Light Company: "On Tuesday night, houses on a number of streets in South Parkdale were plunged in darkness. The reason was that the poles

the city has put up rammed the company's wires together so as to create a short circuit."

E. M. Ashworth, acting head of the city electrical department: "I do not think the city is to blame, but we are investigating. It looks almost impossible that the city's poles should have caused it."

When the Toronto Electric Light Company seeks next week at Osgoode Hall an injunction to restrain the city from going ahead with the construc-tion of its electrical distribution plant,

from going ahead with the construction of its electrical distribution plant, grave issues may depend upon the answer to a simple query. It is this: Why were the houses on Dunn-avenue, Cowan-avenue and other streets in South Parkdale plunged into darkness on Tuesday night?

The company is confident—professedly so, at any rate, that it was the hydro-electric poles on King-street, between Beaty-avenue and Dufferinstreet, that produced the little drama of "the light that failed." Manager Macrae is positiveness itself on the point, and, if the company can prove its case, the support the fact will give to the general contention of interference by the city with its overhead wires, will be of considerable value to the company, especially as Mr. Macrae, in the correspondence that passed between him and Mr. Drayton just prior to the application for an injunction, specifically named the stretch of King-street in question as a "horrible example," saying: "Your poles are being thrown thru our wires in the same reckless and dangerous manner which was enjoined by the order of the court."

The City's Version.

That's the company's side. The city's attitude, as represented by Corporation Counsel Drayton and Mr. Ashworth, who is acting chief of the electrical deventment in the illness of K. L. Atken,

who is acting chief of the electrical department in the illness of K. L. Aitken, differs somewhat. They are willing to be "shown" if the company can do the demonstrating, but they have a feeling, amounting almost to positive conviction, that this effort of the company to make out a concrete case will fall as dismally as the Parkdale service did on Tuesday night.

One point upon which there can be no disagreement is that Pardalians were seriously inconvenienced. The company investigated yestenday and came to the satisfying conclusion, as per Mr. Macrae's announcement, that the city was wholly to blame. He told Mr. Drayton about it, and the latter had a private conference with Mr. Ashworth.

"When I wrote my letter of protest to the mayor at the time the writ was issued, he said that the city would proceed with the overhead construction, including that on King-street going towards Dufferin-street, notwithstanding," said Mr. Macrae. "Well, last night houses on a number of streets in South Parkdale, including Dunnavenue and Cowan-avenue, were plunged into darkness.

"The reason was that the poles the city has put up rammed the company's wires together, so as to create a short circuit, and that put out the power. It happened between 7 and 8 p.m. and the light was cut off for the rest of the night. We had men out to connect the wires to-day. There is no doubt at all it was due to the city's poles. Mr. Drayton agreed that the information was right and he stopped the work at

Mr. Ashworth made this statement to The World last night: "It is true we are putting up poles there, and the Electric Light Co. had trouble last night, and say we caused it I had Mr. Jackson, our general superintend-ent in charge of construction work, report, and he said there was nothing to it. We discussed the matter with Mr. Drayton again in the afternoon, and we agreed to take all means to avert any possible trouble. Mr. Jack-son was sent out again to investigate. and he will report to-morrow.

Trouble Elsewhere, Too. Well-Known Toronto Man Invited

"As near as I can make out, the trouble is not in any way due to our poles, but the matter is more or less mysterious. I really doubt whether we are to blame. The company gets into trouble elsewhere with its lighting,

general, that of all the applicants for the position, he was the one most capable of filling the post, and he has been asked to come to Vancouver for the purpose of meeting the exhibition distribution of the Toronto Electric transfer of the Toronto Electric transf purpose of meeting the exhibition directors.

Mr. Good was this summer in charge

Mr. Good was this summer in charge.

Mr. Good was this summer in charge. "We don't see how it can in the slightest," they said.

"Were you surprised at the results?"
"Not in the slightest; we expected just what happened."

"When an avalanche starts, it usually carries everything before it, and that is what happened in this case," was the laconic answer.

"Do you think the results will in any which, under his management, in the contract, was impracticable. Mr. Drayton's study of the historic document in the company's offices occurred from 10 a.m. till 12.30 p.m. He is to seen expected, yielded a surplus of some \$15,000. Mr. Good was also for some years press agent of the Canadian National Exhibition at Toronto.
