The members of the new council met at the Township Hall yesterday at 11 a.m., and after subscribing to the declaration of qualification proceeded to transact business, of which there was a large amount on hand. tion proceeded to transact business, of the there was a large amount on hand, Ex-Reeve Humberstone was present and endered the new council assistance in the tion of business laid over from the

eeting of the old council. The new council is composed of: Reeve

7. J. Hill; first deputy-reeve. John Gould-g; second deputy, William Sylvester; third eputy, J. L. Heslop; fourth deputy, W. H. Reve Hill on assuming the Reeve's chair made a clear statement of the line of action he intended to pursue. He congratulated the council upon the expression of confidence placed in them by the electors of the most populous, the most important, wealthiest and most progressive township in the County of York. In entering upon the duties of reeve he realized that he is assuming a grave responsibility. Reforms are necessary that will require the most careful and thoughtful consideration, which the electors have demanded in no uncertain voice, and he said he intended to devote his energy and abilities to the fulfilment to the utmost of his power of the pledges which he made to the electors. The first and most important was the finanthe piedges which he made to the electors. The first and most important was the financial position of the township. After 60 percent of the taxes have been collected the township is indebted to the bank in the shape of an overdrawn account to the extent of \$50,000. The adoption of prompt and vigorous measures is necessary to restore the mmnicipality to that high financial standing which it has enjoyed in the past, and from which it should never have been allowed to fall. There is still a large amount of taxes uncollected. In many cases owing to the want of proper means of securing correct descriptions of subdivided lots it has been difficult to collect these taxes as speedily as could be desired. He urged the council to take such steps as may be found necessary to secure immediate payment in order that the floating liability of the municipality and the interest charges may be reduced. From an examination of the reports he was convinced that a large

asy be reduced. From an examination of the reports he was convinced that a large mount of money had been expended for surposes which are not authorized by law. He pledged himself to have moneys so paid eturned to the townships and to have other lileged irregularities enquired into. He resonmended an examination of the books and accounts by an experienced accountant during the past three years. He also advocated ecuring a new set of books of approved altern to be opened for the year 1894. He also referred to the manner of collecting and lepositing the taxes, advocating reform in his matter. He said that great benefit would be derived from a general revision of the assessment rolls. The Public Health Board was also referred to, the ever feeling the deep responsibility which rusts upon the council in electing competent men on the board who will give their time and attention to the performance of their duties, and who will give between the test possible cost.

will give their time and attention to the performance of their duties, and who will give the best protection at the least possible cost. A fair and equitable distribution of the expenditure in the different districts is necessary to preserve that harmony and unity in the municipality which alone can insure success. He would endeavor to always carry out this principle that the various districts shall receive local benefits proportionate to the amount of taxes which they respectively contribute towards the general fund. In conclusion, he said that his efforts would be exercised to reduce the rate of taxation by the most rigid economy in the expenditure of all moneys, in order to promote the prosperity and happiness of the residents and taxpayers, and to sustain the proud reputation which has always been enjoyed by York Township.

proud reputation which has always been enjoyed by York Township.

The following committees were appointed for the year: Roads and Bridges—(East), the Reeve, Messrs. Sylvester and Lucas; (west), the Reeve, Messrs. Goulding and Heslip Printing Committee—The Reeve, Messrs. Heslip and Lucas. Stationery Committee—The Reeve, Messrs. Lucas and Heslop. Finance Committee—All the council. Water and Light Committee—The Reeve, Messrs. Sylvester and Lucas. eouncil. Water and Light Committee—The Reeve, Messrs. Sylvester and Lucas.
A number of accounts were received and referred to the Finance Committee, when the council adjourned and met as a finance committee, Mr. Goulding chairman.

mittee, Mr. Goulding charman.

A number of accounts were received from the different returning-officers for \$18 each, which the committee thought was too much, and recommended they receive \$14 each. A number of other accounts were also recommended to the paid.

The council again met, and orders were drawn for the accounts in accordance with the recommendations of the Finance Com-

mittee.

A number of accounts left over from the old council were, as they were certified to be correct, ordered to be paid.

An application was received from F. C. Miller applying for the position of sanitary inspector, which position he has filled for the past three years. Laid over.

A letter was received from Messrs. Bull & Werrett, solicitors, re York vs. Dunton, Walsh vs. York and Armstrong vs. York.

A patition praying that Mr. Albert Pedler be appointed road commissioner for Chester and Todmorden and another petition praying for the appointment of Charles Coe as commissioner for Division No. 5. (Swansea) were received. Dr. Thomas Armstrong applied for position of medical health officer.

(Swansea) were received. The Instanta Armstrong applied for position of medical health officer.

Mr. Joseph Hind applied to be appointed on the Board of Health. Mr. Alexander Bathgate applied for position of treasurer, offering his services for \$300 per year.

An order of the Railway Committee of the Privy Council dated Dec. 16 was read, which stated that the City of Toronto and the Township and County of York should pay a proportionate amount of the cost of the crossings of the C.P.R. on Dufferin and Bathurst-streets in Toronto. The order stated that the township and county should pay one-third of one-half of the cost of the said protection in equal proportions. The reeve said this was a very important matter, and his opinion was that the council should refuse to pay the amount ordered. A committee was appointed composed of Messrs. Lucas, Heslop and the reeve to confer with the solicitor regarding same.

On motion of Messrs. Heslop and Lucas, a sub-committee was appointed consisting of Messrs. Goulding and Sylvester to confer with the manager of the Imperial Bank in reference to the overdraft of the township account and make arrangements for payment of accounts and report to the council at its next meeting.

Joseph W. Shuter complained through his solicitors that he was charged \$106.95 local improvement, which he paid last year, for widening street opposite his premises, yet

improvement, which he paid last year, for widening street opposite his premises, yet the work had not been done and that a drain had been filled in, which flooded his place. A byla w was passed appointing Messrs.

J. T. Burnside and W. H. Moore auditors for 1894 at a salary of \$75 each.

A resolution was passed extending the time for the return of the collectors' rolls to March 1.

March 1.

A committee composed of Messrs. Goulding and Lucas was appointed to engage a competent accountant to make a special audit of the accounts of the township for 1891-2-3 with the least possible delay.

The council then adjourned to meet in the council chamber next Monday at 2 p.m.

Who They Are.
The new council is composed of one contractor, three farmers and one merchant. The Reeve, W. J. Hill, is a prosperous contractor in Toronto, but owns a valuable farm on the first concession of York (west side).

this his first meeting of being possessed of considerable municipal knowledge.

Third Deputy-Reere J. L. Heslop is an extensive dairy and general farmer in the Lansing neighborhood. He will make a good municipal officer.

municipal officer.

Fourth Deputy-Reeve W. H. Lucas, the man who headed the poll, is a prosperous merchant at Little York, where he has resided for the past six or seven years. He is a native of the Township of Cavan, East Durham. The people have made no mistake in electing him.

Application for a quotation for the Bonds on the Montreal Stock Exchange will be made in due course.

The Company was organized in 1892 under the laws of Nova Scotia. It has a special charter from the Government of that Province, naive privileges, including the right to carry on the business of mining, transporting and selling coal, and to construct and operate in the construction and operate in

new stope, certifies as to the earning capacity of the coal and railway properties of this Company:

Gentlemen,—Replying to your letter of enquiry of 4th inst., I am glad to be able to state that the coal areas of the Canada Coal and Railway Co. contain a practically inexhaustible supply of coal of very good quality, with such unusual advantages for shipment by rail and by water that it has a ready market at very profitable prices.

The analyses which have been submitted all show an excellent steam and household coal, and it produces a hard firm coke of superior quality. The work of the year just closed has been largely one of development and improvement, involving large expenditures in preparation for any increased output.

The work of the year just closed has been largely one of development and improvement, involving large expenditures in preparation for any increased output.

The year's work, however, under the present Board of Directors, shows an increase of more than fifty per cent. In the production, all of which has been sold at satisfactory prices, and from which \$185,000 were realized, and no bad debts incurred.

They have made extensive improvements at the pit-head, upon the railway, and at the Company's shipping wharf, providing for the better and more economical handling and shipment of the coal. Other additional plant and power are being secured to further increase the output. Among the many underground improvements, the most important is the opening of a new mine, from which coal is now being taken. The coal from this new slope, being raised by a very short hoist to the surface, can be produced at a minimum of cost. It is of a bright, firm character, and is much liked. This will prove a very profitable portion of the work during this year, and for many years to come.

The mines are now opened to a producing capacity more than double the output of any year under previous ownerships of the properties. This places the Company in a position to make larger earnings, and I have no hesitation in stating that the business will yield satisfactory profits to its stock-holders after paying all operating expenses and interest on the bonds.

Very truly yours,

H. F. Torrex.

quoted a shade easier owing to higher freight rates. White and red offer at 58c for export, while shippers are not inclined to pay more than 57c. The market is dull. Alsike sells at \$5.50 to \$6.75, the latter for choice. Red clover brings \$5.50 to \$6 and timothy nominal at \$1.25 to \$1.75.

H.L.HIME& CO.

Schwartz, Dupee & Co. wired Dixon: Wheat was again lower to-day. The market was very dull, partly owing to the interruptions in telegraphic service. As was the case on Saturday, there were few buying orders except by shorts. Foreign markets were practically unchanged. The weather through the winter wheat belt was an improvement, rain being reported. The visible supply was a disappointment to the buils, as it was expected to show a decreuse of about 500,000 hushels instead of an increase of 480,000 bushels. The weakness in corn and oats also had a depressing effect. The short interest had undoubtedly been largely reduced in the past two days. The price looks low, but unless we have a better general demand it will be difficult to advance prices.

BREAKFAST-SUPPER. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided for our breakfast and supper a delicately-flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame,"—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in Packets, by Grocers, labelled thus:

JAMES EPPS & Ca., Ltd., Homosopathic Chemists, INSURANCE. .. ASSESSMENT SYSTEM ..

Massachusetts Benefit Association GEORGE A. LITCHFIELD, President.
