HOG CHOLERA AROUND TORONTO.

ered Lately in the Vicinity.

Hog cholera continues to prevail in the neighborhood of the city, and it is feared that a good deal of the pork offered on the local market is from the carcases of sick animals slaughtered by their owners to avoid financial loss. It is said that no less than five epidemics which have

A GREEN GOODS GAME.

Samuel Penny, an Owen Sound Laborer

is Now Under Arrest. Owen Sound, Sept. 28.—A detective named Rogers made an arrest here yesterday. The prisoner is Samuel Penny, a laborer, who is charged with "unlawfully writing a letter offering to sell a counterfelt token of value and in executing and promoting the scheme in offering to sell such counterfelt token of value used a fictitious name."

Penny was trying to run a species of green goods game on a small scale. He had his mail sent to G.B.T., Box 108, Owen Sound. One of the circulars was sent to the Attorney-General's Department. The department immediately wired the postmaster here and ascertained that Penny rented the box. Rogers came up and arrested Penny.

Ratiway Notes. James Walsh, an old G.T. man, and formerly manager of a steamboat line between Sarnia and Chicago, is at the Queen's on his way to Montreal.

It is said that the next move made by the Grand Trunk will be the removal of its Hamilton train despatchers' office to St.

Thomas.

A meeting of the T., H. & B. share-holders was to have been held at the Queen's yesterday to authorize the issue of bonds to prosecute work and pay off indebtedness, but no quorum being present next Monday was set for the date of the conference.

Storm fences are being erected along the the conference.

Dyspepsy or Indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juices, without which digestion cannot go on; also, being the principal cause of headache. Parmalee's Vegetable Pilis, taken before going to bed, for a while, never fail to give relief, and effect a cure. Mr. F. W. Ashdown, Ashdown, Ont., writes: "Parmalee's Pilis are taking the lead against ten other makes which I have in stock."

Judge McDougall will to-day hear appeal from convictions made by magistrates.

Miss Sabitha Jarvis, Scarboro, was convicted of running down with her rig a bicyclist. Mr. Lobb will ask that it be quashed. Other appeals will be: N. Jutechinson, convicted of scorching, and Themas Elwood, fined for illegally using fishing nets in Ashbridge's Bay.

Foreign exchange is firm at \$4.84% for demand sterling. Bankers say that at this figure there is no profit in importing gold. Messrs, Lazard Freres deposited the \$2.000,000 gold they received this morning at the sub-Trensury in exchange for legal tenders. The Trensury gold is now considerably in excess of \$124.000,000, though the official statement may not show it for everal days. St. Paul shows loss of \$138,000 in gross and \$175,000 net for August. It is reported that Burlington's figures will be very favorable. Northern Pacific for hird week in September shows a gross ecrease of \$127,000. There is a more libral supply of time money in the loan arket. It is stated the Anthracite comarles will not advance coal prices on ct. 1, and that production for the month ill be fixed at four million tons. Marterially a shade above the lowest.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-stree east, received the following despatch to day from Chicago: The bears have trave ed a thorny path for three or four days, an to-day was no exception. Heavy local of crators have begun a bull campaign on the strength of wheat statisties. They have been helped by the continued excellent export demand and the anxiety of millers tyet cash wheat, which is now selling a

strength of wheat statistics. They have been jetped by the continued excellent export demand and the anxiety of millers to get cash wheat, which is now selling at about the same price as December. The American wheat market has again resumed its normal relationship to the commerce of the world. The best authorities are agreed as to the shortage of the winter wheat crop, and the market has broadened out beyond the mere scalping of factions. A prominent built stated to-day that the position of wheat is stronger than it has been for twenty years, and it will now make no difference who is elected President." The heavy Northwestern receipts posted during the last week have been eaused by the stringency in the money market that has compelled wheat in line elevators to be moved to terminals. The receipts have shown a marked falling off. Threshing returns from the Northwest show live to ten bushels, as against fifteen to forty last year. Thoman, the crop expert, estimates the yield of Minnesota and the two Dukotas at 122,000,000, or 72,000,000 less than 1835, and that 75c will look cheap for December wheat before the maturity of the market offers many opportunities for good profits and quick turns on the short side. The visible supply decreased 940,000 bushels.

Corn and onts moved in sympathy with wheat, but on a narrow range. Shorts have been liberal buyers all the past week, and the prospective advance in western rates is having its effect. The export demand is good, and we look for a fair advance in values.

Provisions—Continued reduction of stocks and the good cash demand to meet the export requirements has had a buoyant effect on the provision market.

McIntyre & Wardwell (John J. Dixon) send the following despatch to their branch office in Toronto: Wheat—This market is getting broad and trade is increasing, and it looks like higher prices very soon unless some change in the attitude of the big local bulls, for they are pressing everything with all their power.
