on the board of trade today. It closed Light, fat and heavy \$4 50 per cwt at \$1 50 per bushel, the highest point since 1888. The excitement in the wheat pit during the closing hour was intense. The market fluctuated violently all morning, but gave no evidence of the pyrotechnics to come. Joseph Leiter's okers were quietly at work, and during the first hour bought about 2,000,000 bushels of July wheat, principally short saies. July opened only %c above yesterday's close, or at 991/2c. For a moment it got over the dollar mark and then dropped to 98%c. Pit traders sold short, and soon found themselves in deep water. Liverpool market kept up its sensational advance, closing 14d to 51/2d higher than the day before. Bread riots were reported in Spain, Italy and France. The French Government had removed its import duty and Spain and Italy were said to be contemplating the same action. Great

as was the wheat famine abroad, that article was found to be equally as scarce in the Chicago pit, when the bears tried to cover. May, which opened 7c higher, at \$1 37, had declined to \$1 31. July was hanging about the dollar mark. Leiter announced that he just sold 2,000,000 bushels of No. 2 red wheat to a French

syndicate at \$1 47 per bushel. Pit traders were stampeded. July rushed up to \$1 03 after selling down to 98%c. May jumped 1c, 2c and 3c between trades, to \$1 50, and closed there. July fell back to \$1 021/4, closing at that, a net gain of 3%c, compared with a net gain of 20c in May.
