

### CREW OF J. RANDALL RESCUED AFTER ALL

Ship Foundered in Lake Ontario  
—Sailors, After Struggle,  
Reached Lighthouse.

#### MEN SWAM HALF A MILE

Kingston, Nov. 25.—(Special.)—After being given up as lost, word reached here early tonight that Capt. Harry Randall and the crew of the steam-ship John Randall were safe, although the little coal carrier was sunk off the Dukes, where the vessel endeavored to put in for shelter during a big storm on the afternoon of November 15. The captain of the steamer telephoned from Pictou to his relatives at Seely's Bay, and then word was sent on to Kingston. Capt. Randall and the three members of his crew, John Brady, engineer, of Newborow, and Harry and Gilbert Smith, of Seely's Bay, cousin of Capt. Randall, will arrive here from Pictou tomorrow.

**Swam Half a Mile.**  
The Randall foundered about a half-mile off the Dukes at 12 o'clock on Wednesday morning, November 17. She encountered a terrible snow storm when off the Dukes, and the little craft could not stand the strain and went down. The life boats were sent from the boat was wrecked, and Capt. Randall and the three members of the crew swam the half-mile to the pier at the Dukes.

**More Dead Than Alive.**  
They suffered terribly from exposure and arrived there feeling more dead than alive, but were taken care of by Capt. Frederick Bonnard, the lighthouse keeper, and are now none the worse for their experience. As the weather moderated today Capt. Bonnard took the men to his quarters over to South Bay, and from there they got a boat to Pictou. The boat is a total wreck but it is believed that the boiler can be salvaged.

The Randall was given up for lost three days ago in marine circles but Capt. John Randall, father of Capt. Charles Randall, in command of the St. Ignace, N.S., never gave up hope.

**At the Grand Opera House** on Monday night, Marjah, the man of mystery, and mind reader, who the Randall had founded, and he declared that the crew were safe and that the vessel would be found at the Dukes. On Tuesday night he was asked about the vessel again, and he again declared that the crew were safe and the steamer at the Dukes.

**ARMED MEN BURN  
CORK BUILDINGS**  
Occupants of One House  
Given Only a Minute to  
Clear Out.

Dublin, Nov. 25.—Several buildings in Cork were burned last night by a band of armed men. They gave the occupants of one house on the Grand Parade only a minute's notice to clear out before setting it afire with petrol. Another building on Hardwicke street was burned in the same manner. The military assisted at the fire brigade in checking the flames.

Constable Donnelly was kidnapped at Roskeel, County Louth, Tuesday evening by armed men. He is threatened if he is not liberated. The court-martial which is trying Directors Martin Fitzgerald and Hamilton Edwards and Editor P. J. Hooper of The Freeman's Journal, under the restoration of order in Ireland act, today found the defendants not guilty on four charges: first, making a false statement; second, spreading a report likely to cause disaffection; third, making a statement intended to cause disaffection; third and fourth, making a statement likely to cause disaffection.

Judgment now will be promulgated on two charges: first, unlawfully spreading a false report, and second, spreading a report intended to cause disaffection among his majesty's subjects.

**GROSS IMPERTINENCE,  
SAYS SIR EDWARD CARSON**  
London, Nov. 25.—(By Canadian Associated Press.)—Sir Edward Carson has denied that he had received an invitation to appear before the committee of the self-constituted council of one hundred Americans at Washington, who are investigating the Irish situation. He adds that he would regard such an invitation as gross impertinence.

**FORESEES REAL CHANGE  
IN ECONOMIC SITUATION**  
London, Nov. 25.—The food controller stated today that he saw in the fall in the price of wheat in America and Australia a sign of a real change in the economic situation here.

**Railways May Form Alliance  
For Transcontinental Route**  
Salt Lake City, Utah, Nov. 25.—The possibility of another transcontinental line with the Chicago, Burlington and Quincy, the Denver and Rio Grande and the Western Pacific, forming an alliance was admitted here today by P. S. Fawcett, passenger traffic manager of the Burlington route. Mr. Fawcett said the Burlington had already begun three passenger service in co-operation with the Denver and Rio Grande, and that December 1 would see a change in the merchandise routings that would practically mean a continuous route from Chicago to San Francisco.

### HEAVY WAGERING ON QUEBEC RACE TRACKS

Montreal, Nov. 25.—(Can. Press.)—According to the figures of Provincial Government Inspector Francis H. Dunn, who represented the government at all provincial race tracks the past season, and supervised the pari-mutuel arrangements, a total amount of \$11,714,733 was wagered by the 246,500 people who paid admission. These figures include the Blue Bonnets, Dorval, Mount Royal and Connaught Park, all millers and the Delormier, Malsouche and King Edward parks, half millers.

Dorval did the largest business, with Connaught Park second and Blue Bonnets third.

The admission averaged about \$1.25, so that admission totaled over \$300,000 in the season.

The figures have been accepted by the provincial government.

### BULGARIA'S ENTRY TO LEAGUE OPPOSED

Serbia, Rumania and Greece  
Have Formally Filed Their  
Objections.

Geneva, Nov. 25.—Serbia, Rumania and Greece today formally notified the assembly of the League of Nations that they are opposed to the admission of Bulgaria into the league.

Austria is the only former enemy state which is likely to be admitted to the league without serious opposition.

The majority of the members of the sub-committee dealing with the applications of Austria, Bulgaria, Albania and Liechtenstein, presided over by Lord Robert Cecil, are said to favor the admission of Bulgaria, but the Rumanians and Jugos-Slavs have declared they will fight against it, asserting that the committee of Bulgaria into the league now would create a grave complication.

This has been interpreted by some of the delegates as a menace that they will quit the league if it is admitted.

The Montenegro government is industriously circulating among delegations and press representatives in support of its application for admission to the league, of which neither the council nor the committee on new members have thus far taken notice.

Montenegro being considered a part of the Serbian-Croatian-Slovene state.

**To Take in New Blood.**  
Organization of the judicial staff of the league passed a critical examination today by a committee of four in the course of which Baron Ganesca Mijovic, of Japan, demanded a more impartial selection of the personnel of the secretariat from among the different nationalities belonging to the league.

Sir James Eric Drummond, permanent secretary of the league, explained that the English and French influence predominated. The English and French are the official languages of the league.

It is proposed to apply a weeding out process every five years, taking in new blood by retaining the most efficient employees to assure continuity in the work. Civil service rules and competitive examinations also will be imposed.

Geneva, Nov. 25.—The council of the League of Nations today elected President Wilson as its president for the year, the same purpose were sent to the various powers, asking whether he will accept the role of mediator between Mustafa Kemal, the Turkish Nationalist leader, and the Armenians.

Geneva, Nov. 25.—It was announced after a meeting of the steering committee of the assembly this morning that the next meeting of the assembly will be on Tuesday, Nov. 30.

**Why Bulgaria is Opposed.**  
The people of Serbia, Greece and Rumania are unanimously opposed to Bulgaria's admission at this time, said M. Spalekovich, head of the Serbian delegation. Bulgaria has not fulfilled any of the important items of the peace treaty. The only conditions under which the league will approve her admission are: first, the restitution of all property, machinery, cattle, furniture and the like of a just indemnity; second, the payment of the Bulgarians guilty of outrages committed against the women and children of Serbia.

We have not received one cent of indemnity, nor has a single Bulgarian been tried for the crimes committed. We are strong partisans of the drawing from it, even the assembly should decide to admit Bulgaria. Such a move would be a very unfortunate one, would seriously prejudice the people against the league.

I believe Bulgaria should be admitted, but only after she has given strong indication that she is willing to carry out the provisions of the treaty and live in peace with her neighbors. Promises without action will not satisfy us.

"We should regard the admission of Bulgaria at this time as an injustice because it would be giving tacit approval to Bulgaria's attitude. Unfortunately the big powers seem to favor Bulgaria's entry, and we may be unable to prevent it."

**Miss Annie Fitzhugh to Wed  
Aches De Seguro, New York**

Kingston, Ont., Nov. 25.—(Special.)—A report from New York states that Miss Annie Fitzhugh, formerly of Kingston, opera and concert singer, is to wed Andres Aches de Seguro, a Cuban pianist and bass, at the wedding to take place next spring likely at Havana.

### HAMILTON

Hamilton, Nov. 25.—Fearing that the submission of a by-law for \$2,000,000 for the hospital needs would mean the loss of all money bylaws, the board of control this afternoon adopted a resolution to ask for \$200,000 instead.

That there is a strong possibility of making a three-cornered fight of it was men tonight in discussing the political situation.

At present in the field is Controller Thomas Jutten and George C. Copley. Harry Foster is mentioned as the probable choice.

There will be opposition in the city council to the bylaw for \$200,000 for the hospital, it was learned today. The reason is that some of the aldermen think the home too costly for the service it will render.

Slippery rails caused a street car accident late this afternoon in which Mrs. Edith Mulveney of Niagara-on-the-Lake suffered painful, but not serious injury. The accident occurred at the Stuart street station of the Grand Trunk Railway.

### TEMPERANCE ORDER UPHOLDS SPRACKLIN

Government Morally Bound  
to Support and Give Him  
Enough Men.

The grand division of Ontario, Sons of Temperance, concluded a successful two days' convention in Willard Hall. Officers' reports were optimistic and a great forward movement is to be undertaken for 1921. The sick and funeral department report shows this branch of the order to have the strongest financial standing of any friendly society in Ontario. On Wednesday night a banquet was tendered by the South York district division to delegates from outside the city. The speakers were: Dr. A. S. Grant, Rev. Newton Powell, E. L. G. Hohensthal, M.W.P., Prof. McMillan and Wm. Rees.

A special campaign fund is being raised for propagation and juvenile work. It is the intention to engage the services of a special organization. During the campaign it is the intention to distribute 100,000 leaflets and 5,000 posters.

The following resolution was passed regarding the enforcement of the prohibition laws: "We desire to place on record our approval and commendation of Rev. J. O. L. Spracklin, license inspector at Windsor. His moral and physical courage has allowed him to undertake a most dangerous and necessary work in the law enforcement of this province. So long as part of the country is 'wet' and the other 'dry,' the traffic will be carried on with huge profits by a criminal class of desperate characters, and the traffic will not only corrupt the dry provinces, but also bring our country into disrepute with our neighbor to the south on account of the illicit traffic in wine that country."

When the government of Canada opened the doors, which were closed during the war against the liquor traffic, they committed an awful crime against Canada. The conditions brought about are demoralizing, and the law-breakers in the illicit liquor trade have been given the opportunity they desired for making fortunes."

**RESULTS FROM USE  
ALMOST IMMEDIATE**  
Druggists Instructed to Re-  
fund Money in Every In-  
stance Where Satisfactory  
Results Are Not Obtained  
After First Few Doses.

The next time you have a cough or cold go to your nearest drug store and ask for a bottle of Asprolox. Have the clerk open it on the spot, take a teaspoonful, repeat the dose in an hour and again the second hour. If you are not surprised and delighted with the results, then go back to your druggist and he will refund your money without question.

Asprolox is manufactured by a million-dollar corporation, composed of successful, level-headed business men, and the fact that they are willing to stand back of every bottle sold is convincing evidence of their absolute confidence in the preparation.

As recently announced, the Asprolox formula was perfected by Dr. J. W. Smathers, an American Physician and Pharmacist of thirty years experience. In referring to his new discovery, Dr. Smathers said: "Ever since I first began the study of medi-

cine I have realized the great need of a more efficient method of treating Colds, Bronchitis, Croup in children, and kindred disorders. The trouble has been that most people invariably treat the symptoms and not the cause. Most people nowadays when they have a cold simply take Aspirin. Plain Aspirin never did, and never will, cure a cold. It relieves the symptoms momentarily and alleviates only. Others take nauseous doses of Quinine and violent purgatives, which often upset the system to such an extent that the treatment is more than the disorder. Still others use cough remedies and expectorants, which afford only temporary relief.

"My new formula, Asprolox, not only relieves the symptoms, but the cause as well. It is a combination treatment, and acts as an anti-pyretic, which reduces the fever and relieves the feeling of distress and discomfort; an Expectorant which loosens the phlegm, relieves congestion and stops the cough; a laxative which opens the bowels, and an antiseptic which retards germ growth and checks the spread of the infection. Those who have taken Asprolox find it difficult to describe the wonderful feeling of relief and exhilaration they experience. The volatile parts of the solution penetrate deep down into the air passages. The head is unstopped, sneezing, sniffing and coughing usually cease at once, and headache and other distressing symptoms almost invariably disappear with the first few doses. Only one bottle is usually sufficient to break up the most obstinate cold."

This new scientific discovery is rapidly becoming the generation of the drug trade in Canada, and thousands are now using it with the most astonishing and gratifying results.

When the government of Canada opened the doors, which were closed during the war against the liquor traffic, they committed an awful crime against Canada. The conditions brought about are demoralizing, and the law-breakers in the illicit liquor trade have been given the opportunity they desired for making fortunes."

### ASPROLOX NOW HAVING ENORMOUS SALE HERE

Thousands Now Using New  
Scientific Cold Remedy  
With Most Astonishing and  
Gratifying Results.

### MANY SHOOTINGS THROUGHOUT IRELAND

Woman Caused Military  
Pickets to Fire on Each  
Other and Constable.

Dublin, Nov. 25.—Shootings during the night and early today are reported from various parts of Ireland. A soldier and a civilian were shot near Phoenix Park gates, Dublin, last night while the vicinity was under military patrol, but no details of the occurrence have been learned.

A civilian was seriously wounded at Newry while attempting to escape from a house which was being raided by the military. Another civilian was wounded under similar circumstances at Listowel, County Kerry.

The body of a man was found riddled with bullets at Mitchelstown last night. A former soldier was shot today this morning by armed men at Monte, County Westmeath.

It was officially stated in Dublin today that Michael Moran, was shot and fatally wounded while attempting to escape from an escort taking him to Galway camp last night.

Wore Civilian Clothes.  
According to one account of the Phoenix Park affair, a fashionably dressed woman, acclaimed to a military picket, was shot and killed. "That's the man." The picket is then said to have fired, killing the man, who proved to be Constable Dillon in civilian clothes. Another picket, hearing the shot, came upon the scene, and opening fire is declared to have killed Lance Corporal Turner, a member of the national guard. Then the mysterious woman disappeared.

Inspector Madigan, who has been active against the Sinn Fein movement, was shot while walking along a street in Cork today. He was not wounded seriously.

There is an alarming outbreak of typhoid fever in the Skibbereen district. Several deaths are being investigated by the authorities, but no evidence has been uncovered to connect the outbreak with the alleged plot by a Sinn Fein to spread typhoid germs.

### MONEYLESS PERIOD COMING TO RUSSIA

Finance Commissioners Are  
Ordered to Prepare Plan to  
Abolish Money.

Berlin, Nov. 25.—The council of people's commissioners in Russia has directed the Russian finance commissioners to prepare a plan within a month for the abolition of money, according to a Moscow report to The Red Flag, the communist organ here.

The despatch says it is expected that the moneyless period will be decreed effective from January 1, 1921.

According to this information, payments for necessities of life by workmen and families in the second category probably will be first abolished along the lines of the Soviet plan, by which gas, water, electricity and telephone service will be furnished.

In conclusion, the article in The Red Flag says: "After one year of organized efforts of the victorious proletariat this thousands of years-old commercial system falls like a house of cards. Should the moneyless scheme succeed in its first and hardest period here its adoption by the whole world could be brought about. When our children are grown they will know money only by memory."

### DUNNVILLE RESENTS RANEY'S DISMISSAL

(Continued From Page 1).  
David Hastings has been peremptorily suspended as police magistrate for the town of Dunnville, an office which he filled with every satisfaction to your petitioners.

And whereas such suspension is a reflection not only on Mr. Hastings, but upon the police commissioners of the town, its municipal council and all citizens generally, particularly so because of the high position of Mr. Hastings and his position in this community as one of its leading and foremost citizens;

And whereas the said David Hastings has occupied the highest office in the gift of his fellow citizens as president of the board of trade, a member of the public library board, and a member of the board of education;

Demand Reinstatement.  
Now, therefore, your petitioners pray that the said David Hastings be immediately reinstated in his office, and in default of such reinstatement that you refer such charges as may have been communicated to you, and permit Mr. Hastings to vindicate himself, his family and this community, and remove the stigma which has been cast upon him."

### MUST FIRST BREAK REIGN OF TERROR

Premier Says No Conciliation  
in Ireland Possible Till  
That is Done.

London, Nov. 25.—The Irish problem again was brought up in the house of commons today and the question of conciliation between the Irish people was raised. Premier Lloyd George, giving his opinion in the matter, declared:

"I have always been convinced that no policy of conciliation is possible in Ireland until the reign of terror has been broken, for the very obvious reason that men in Ireland who would be prepared to enter into negotiations at the present time are in a terror of their lives and cannot do so freely."

Answering another question, the premier said the cabinet had come to the deliberate conclusion that it was not desirable at present to enforce martial law in Ireland. He believed it would not help even if it were applied.
