THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, JULY 30, 1923

ASK HALF HOLIDAY FOR THURSDAY

Request at City Hall for Horse Race Time—Work at Two Slips.

A request for a half holiday on Thursday for the benefit of the citizens who wish to take in the horse races was presented at the council meeting of the council this morning; coal tenders were awarded; and it was decided to call for tenders for the bulkhead at the head of the public slip, Indian town.

A delegation of merchants presented a request for a half holiday on Thursday to give an opportunity to attend the horse races at Moospath. They said that all the retail merchants who had been spoken to had been in favor of the idea, and also some of the manufacturers. They left with the intention of securing a signed petition of merchants and manufacturers, asking for the half holiday. Paul Quinn acted as spokesman.

The contract for coal for the ferry was awarded to the Dominion Coal Co. at \$1.28 per ton. This, Mr. Bullock said, was 15 cents a ton more than was paid last year.

Commissioner Bullock recommended that \$76.42 be paid to Capt. A. Norwood, to make up his full pay for time lost through an accident sustained while on duty. After some discussion the Commission changed his motion to read a special allowance of \$75, on account of time lost, and this carried.

Compensation Comment. During the debate Commissioners Bullock and Wigmore expressed the opinion that they would be better off with the Workmen's Compensation Board, but Commissioner Prink said he found it the other way.

Commissioner Bullock presented a recommendation of the city engineer and road engineer that a new bulkhead be built at the head of the Queen slip, about 12 feet farther out and filled in. This bulkhead would be 60 feet long, 18 feet high and 12 feet deep. The recommendation was laid over for further information as to the ownership of the slip.

A recommendation that tenders be called for a new bulkhead at the head of the public slip, Indian town, the structure to be 100 feet long, 10 feet wide and 12 feet deep, was presented by Commissioner Bullock and adopted.

Mayor Fisher asked who the engineer had not stated the necessity for this work in his report, and was assured by Commissioners Bullock, Wigmore and Thornton that the work was necessary.

John MacDonald Is Sent Up For Trial

Sydney, N. S., July 30.—John MacDonald of Toronto, prominent member of the Workers' Party of Canada, known in labor circles as "Moscow Jack," was this morning committed for trial at the next session of the Supreme Court, on a charge of seditious utterances. MacDonald is alleged to have used words "they come with their damnable flag and take you"

End Corns

The simplest way to end a corn is Blue-jay. Stops the pain instantly. Then the corn softens and comes out. Made in clear liquid and in thin plasters. The action is the same.

Blue-jay

At your druggist

Our portrait is of Mr. MICHAEL T. HONEY, of 66, Granville Avenue, Long Eaton, England, who writes:—

"Some years ago whilst touring Ireland with 'Sanger's Royal Circus' I contracted some kind of an irritable skin complaint, which seemed to be different treatments in the way of ointments and lotions, all of which utterly failed to give me the slightest relief. Recently at Long Eaton, where I am engaged as Advertising Manager of 'The Picturehouse,' the conductor there begged me to try Clarke's Blood Mixture, but I refused. However, he, knowing his curative powers from experience, made me a present of a bottle, which I began to use. I received a slight improvement in my limbs, I got another bottle, and continued the treatment until I had used four bottles, and now my skin is perfectly healthy again."

Sufferers from Bad Legs, Abscesses, Ulcers, Scalds, Burns, Swellings, Piles, Hemorrhoids, Itch, Eruptions, Eczema, Scabies, Ringworm, etc., should realize that lotions and ointments can but give temporary relief to be sure of complete and lasting benefit, the blood must be thoroughly cleansed of the impure waste matter, the true cause of such troubles. Clarke's Blood Mixture quickly attacks, overcomes, and expels the impurities, that is why so many remarkable recoveries stand to its credit. Pleasant to use, and free from injurious ingredients.

Of all Dealers—see that you get

Clarke's Blood Mixture

"Everybody's Blood Purifier."

WHITE HOUSE FLOWERS

President and Mrs. Harding found time during their short visit in Tacoma, Wash., to greet suffering men in the veterans hospital. No former soldier was more proud of the flowers he received from the visitors than Chauncey Mays, formerly of the 49th Field Artillery, who won a special word of sympathy from the "First Lady."

During the course of a speech at a mass meeting of miners here during the strike.

TELL OF AUTO RIDE AND DRINKING

(Continued from page 2)

Moore's Story. John Edward Moore said that he had joined the party at Cooper's Corner. He said the bottle of liquor they bought was like the one produced in court and that they had paid \$8.50 for it. He did not know the name of the drug store where they had procured the liquor. He insisted that Crawford had blown his horn for Exmouth street and Brunswick street. He had seen a man step directly in front of the right hand headlight. He had seemed to jump clear of the headlight and then slipped and fell. He heard Miss Vialto tell Crawford that he had hit a man but he had told Crawford that he did not think the car ever touched the man and he felt no shock. At Haymarket square Crawford had asked him to take the car but he would not. Crawford had appeared nervous. Crawford started to drive him home to Egbert street by way of the Marsh Road, when a policeman had overhauled them by the N. B. Car Exchange. This was a more roundabout way to go home but they always went that way. He had been ill in the car.

To Mr. Henneberry he said they had been going at a rate of eight or nine miles an hour down Prince Edward street. He would not say that Crawford was under the influence of liquor. The examination of William Garvin was not attempted this morning. He said that everything had to be written. He can talk and will tell his story on Wednesday morning.

Liquor Case. Immediately following this case Charles Brown was charged with selling liquor on July 28. An advice of plea was given to Brown. He was fined \$200 which was paid.

Immediately following the car which Mr. McCann was a car driven by Walter Leonard of the Leonard Fisheries, Ltd. Seeing what had happened followed the car and on reaching Haymarket square he informed Police-man Gaudet of the occurrence. The policeman boarded Mr. Leonard's car and followed the other one, catching up with it just by the building of the N. B. Car Exchange in the Marsh road. The car and occupants were taken back to the scene of the accident.

Report Critical. McCann has been in the employ of the C. N. R. as a porter at the Union depot. His conviction this afternoon was said from the General Public Hospital to be critical.

The victim woman is about nineteen years of age, fair haired and neatly dressed. She gave her testimony in a clear manner and did not waver on cross-examination. Crawford, who resides in Prince Edward street, is twenty-eight years of age. He seemed to feel his position keenly.

PRISONERS RELEASED. Seattle, July 29.—A radio message from the U. S. coast guard cutter Bear reported the flight from Anadyr, Siberia, of the schooner Iskum, which on Thursday arrived at Nome with two Russian Soviet guards in irons. The Iskum and three other American schooners had been detained by Soviet authorities while in the "whaling district."

SALT PLANT DESTROYED. New Glasgow, N.S., July 30.—Word was received here today that the plant of Mackay and Chambers, a New Glasgow firm operating the salt mine at Malagash, was destroyed by fire Saturday evening.

ORNAMENTAL LIGHTS ASKED FOR

There was considerable discussion on the meeting of the council this morning on the matter of ornamental street lighting for the city during which it was suggested that streets which wanted the ornamental poles pay one half the cost.

Mayor Fisher said residents of Waterloo street asked for a hearing. Commissioner Bullock said he understood the members of the Germain street Improvement Association were considering offering to bear half the expense of ornamental poles.

Commissioner Thornton thought they had better wait until the new street lights were installed and then perhaps there would be the demand for ornamental poles as the new lights, he understood, were very nice with the progress of the ornamental lighting system, it was said at the office of the Civic Power Commission this morning and it was hardly likely another section would be linked up tonight. It was hoped, however, to have the entire three sections connected and in operation by the middle of the week.

Some British Empire Forestry Conference delegates, including many foresters from all parts of the British Empire, were in Campbellton, N. B., this morning; others were salmon fishing on the Restigouche. This afternoon and tonight will be spent in Bathurst, Tuesday in Chatham. At 11 o'clock on Tuesday night the party will leave Chatham for St. John. A motor trip to Salmon River will be made, and the party entertained to luncheon by the Pejeapet Company. The afternoon and evening of Wednesday will be spent in St. John, and the party will be accompanied by the delegates at the Union Club at seven o'clock on Wednesday evening.

Dusseldorf, July 30.—The much heralded communistic demonstration against what is called the German Fascist, proved complete failure yesterday, according to reports reaching here. The day apparently was one of the most uneventful Sundays in many weeks, as far as indicated by reports from Cologne, where the demonstrators were, rather, lack of reports—reaching French headquarters.

Cologne, July 30.—British troops interfered here yesterday in the only "anti-Fascist" day, disturbances reported throughout the Rhineland and the Ruhr. The military clashed with German civilians on a street and one citizen was wounded and three arrested.

SPARROW-MARTEN WAR FOR TENACITY

Toronto Builds Home For Mosquito-eaters and Then the Fight Begins

Toronto, July 29.—"Apartments for martens," is the latest slogan of the Toronto Parks department. Martens have a voracious appetite for mosquitoes—hence the department's thoughtfulness. Already one large birdhouse, with all modern conveniences, has been installed at Withrow Park, and others are in preparation for erection at Reservoir Park and Centre Island.

But in seeking to provide housing for the enemy of the mosquito, officials reckoned without the ubiquitous sparrow. Scarce had the Withrow edifice been opened for business when squatters' rights were taken out by a flock of chattering sparrows.

The martens, renounced and abandoned, after mobilizing in force, accomplished an eviction, only to suffer a like fate as the result of a subsequent counter-attack. The uninvited guests are again in possession. The ball is now expected.

The collection of playing cards is a hobby with Queen Mother Maria Christina of Spain, she already having in her collection rare cards of Arabian, Egyptian, French and Spanish manufacture.

KEATING'S KILLS

BURN IT TO KILL MOSQUITOES AND FLIES

Balloons hangars can be kept cool by painting the outside with a highly reflecting coating like white paint and the inside with aluminum paint, it is said.

FORESTRY MEN NOW ARE IN N. B.

Will be in St. John Wednesday; Dinner in Their Honor.

Some British Empire Forestry Conference delegates, including many foresters from all parts of the British Empire, were in Campbellton, N. B., this morning; others were salmon fishing on the Restigouche. This afternoon and tonight will be spent in Bathurst, Tuesday in Chatham. At 11 o'clock on Tuesday night the party will leave Chatham for St. John. A motor trip to Salmon River will be made, and the party entertained to luncheon by the Pejeapet Company. The afternoon and evening of Wednesday will be spent in St. John, and the party will be accompanied by the delegates at the Union Club at seven o'clock on Wednesday evening.

Hundreds of Elderly Men and Women Praise Tanlac For Its Great Benefits

Many People Join in Words of Gratitude That Pour Into Tanlac Offices From All Over the Continent—Tell of Remarkable Experiences.

One of the features that has stood out most prominently in connection with the introduction and sale of Tanlac everywhere has been the very large number of men and women of advanced age who have testified to the splendid results they have derived from its use.

Among the many elderly people who have recently realized the powers of the medicine and voluntarily expressed their great gratitude to Tanlac is Thomas Palmer, sr., well known retired farmer of Havelock, Ontario. Mr. Palmer says:

"You don't often see a man as spry as I am at seventy-two and judging by the way Tanlac fixed me up I am sure it is fine for anybody."

"Before I took Tanlac I could hardly walk and had not been down town without my walking stick since last September. Sometimes every joint in my body ached. I was terribly run down, had suffered from constipation for ten years, my kidneys bothered me a great deal, I had no appetite and seldom got a good night's sleep."

"I took different medicines for two years without any relief to speak of. The Rhineland and the Ruhr. The military clashed with German civilians on a street and one citizen was wounded and three arrested."

"Tanlac Vegetable Pills are Nature's own remedy for constipation. Sold everywhere."

"Tanlac fixed me up so fine I feel as active as I did thirty years ago."

Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimists, nor will Canada continue to develop if her people allow themselves to become croakers and groochers. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural products.

Canadian farmers who have expanded the capital invested in their farms out of profits in farming are numbered in thousands. These successful farmers have paid off their mortgages, cleared their barns and stables, bought their machinery, made a good living and brought up their families. It meant hard work, but today they are independent.

Money in Mixed Farming
In recent years, at different points on the prairies, oats fed to steers have brought from 70c to \$1.07 against the Port William price of 42c per bushel, while barley used for the same purpose has brought as high as 95c as against the Port William price of 57c per bushel. Farmers marketing their coarse grains in this way lower marketing cost, have a sure market and make money on their grain, while at the same time they market their roughage, otherwise often wasted.

The cattle embargo is now off. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

Money in Pigs
The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying for feed, labor, interest

and depreciation, the net profit per pig was still \$4.63.

Profits from Sheep
As money-makers, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

Poultry Pays
Poultry makes money for those who adopt modern methods, whether East or West. Little Prince Edward Island markets co-operatively in carlots, shipping annually upwards of one million dozen eggs. The British Columbia Co-operative Poultry Men's Exchange markets in the same way, thus saving enormous glut in their local market.

Grow Seed
Canada's Northern growth seed possesses extra vitality. There is a large market for it to the south. Canada exports seed potatoes, but imports other seeds. She has the opportunity to grow seed for herself and for export.

The Future
Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our beef and bacon, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us on the British market. Eventually, she will herself be an importer of many other food stuffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay off our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

EVERY BOTTLE OF TANLAC GAINED FIVE POUNDS ON THREE IN THIS HOME RESTORED

Mr. Fannie Judson, widely known and highly esteemed resident of 228 Albert street, Windsor, Ont., recently said:

"There is nothing better I can say for Tanlac than that I am still enjoying the splendid health it brought me four years ago. At that time I had been suffering from a complication of troubles for five years and was right on the verge of a complete breakdown. I had fallen off to a mere skeleton of my former self and was too weak and nervous even to hold a writing pen. I could sleep little and suffered from indigestion."

"I used five bottles of Tanlac and gained five pounds for every bottle and am now enjoying as the health as most any school girl."

Tanlac Vegetable Pills are Nature's own remedy for constipation. Sold everywhere.

"I thought all medicines were about alike until I took Tanlac, and I want to say I have not seen its equal in all my sixty years," says William Sudd, 28 Mulberry street, Hamilton, Ont.

"For six years I had asthma and had fever so bad every spring I could hardly breathe. What I ate nauseated me, I was so nervous I had to walk the floor at night and had such a pain across my back I could hardly stoop over to lace my shoes."

"Tanlac fixed me up so fine I feel as active as I did thirty years ago."
