Dr. C. A. Hodgetts Speaks of Ambulance Association Work.

Montreal, Dec. 14.—Dr. Charles A. Hodgetts of Ottawa, is here conducting examination tests for trophies to be competed for by the local St. John Ambulance Association. He reports revived interests in the association which now has about 50,000 members. Dr. Hodgetts showed much keenness in the work and the same applies to the Nova Scotia workers he said.

METTING OF SCHOOL BOARD

At last night's meeting of the school board authority was given to open a school in the Protestant Memorial Home and to appoint a teacher. The gift of a piano by the teachers and pupils of King Edward school was acknowledged with thanks. The secretary was instructed to write to C. N. Vroom, secretary of the St. Stephen school board for further information about a provincial convention of school trustees which St. Stephen has urged the chief superintendent of education to call. The existence of eleven habitual truants came in for unfavorable comment from Dr. H. S. Bridges, who suggested that these truants be sent to the Industrial Home or that special schools be provided for them. It was announced that the schools would close Dec. 17 for Christmas holidays. Applications for positions on the teaching staff were received from Gordon A. Titus and Miss Gertrude Shea. Miss Anne Ginnell thanked the board for leave of absence. A special meeting of the board will be held Dec. 29 to take up the estimates for the next year.

Besides Dr. A. F. Emery, the chairman, there were present: Mrs. E. R. Taylor, Mrs. Richard O'Brien, H. Cobly Smith, J. D. P. Lewis, G. H. Green, A. McIntyre, George E. Day, Thomas Nagle and Dr. H. S. Bridges, superintendent of schools.

FIND CURE FOR FOOT AND MOUTH DISEASE

Paris, Dec. 14.—Foot and mouth disease, the greatest dread of stock raisers throughout the world, is not only curable, but can be cured easily in four days, according to a sensational announcement made before the Paris Society of Biology by Dr. Andre Cepede. Dr. Cepede reported that he had discovered a serum which had an almost instantaneous effect. Fourteen cows on one farm, already far gone with the disease, were cured easily in four days to a week, while other cows on the same farm which had not yet caught the disease were inoculated with the serum and remained healthy.

CRITICISM OF MEDAL

London, Dec. 1.—(By mail)—It is understood that the distribution of the 1914-15 Star, the British War medal, and the Victory Medal, will probably occupy about four years. Already 5,000,000 medals have been distributed to individuals or sent to record officers at home and to the overseas Dominions and the colonies for distribution. This distribution includes 1,400,000 1914-15 stars, over 900,000 British war medals, and 50,000 victory medals. The approximate number of British war medals required for distribution, and it is estimated that these latter will be distributed at the rate of 300,000 per annum.

A correspondent of the Daily Mail declares that the Victory medal, now in course of issue, is so incredibly mean in appearance that no written criticism or photograph could possibly convey a correct impression of it.
