

## DID NOT WANT TO SIGN ON SABBATH

Liquor Case Goes Over Until Tuesday on Jewish Witness' Request.

Jacob Lampert's plea held back proceedings this morning during the hearing of a case against Thomas Tulick, a Russian, charged with stealing twenty-two bottles of White & Mackay whiskey, the property of Lampert. Sergeant Detective Power had seven witnesses present ready to testify and Jacob was the first. At the conclusion of his testimony his evidence was read over to him and he was asked to sign his name. He appealed to the magistrate to save him from committing sacrilege by violating his Sabbath day through signing his name and the magistrate consented. Mr. Lampert operates a second-hand store in the North End which was open for business today.

He testified that he had had the whiskey in his house in Ann street and that he had missed it and had notified the police. They had gone to a house in Acadia street and had found the whiskey there though there were left only fifteen bottles and one half bottle. The accused had claimed that he had bought it in Acadia street for \$20.

The case was postponed until Tuesday morning at 11 o'clock.

## English Boys to Learn Canadian Agriculture

THESE four prize winners of the competition held by the Daily Mail Young Farmers' Clubs of Great Britain, have been awarded a full summer course at the agricultural schools of Alberta by E. W. Beatty, president of the Canadian Pacific Railway, and will shortly tour the Eastern and Western provinces as the guests of the company. The London Daily Mail plan of an interchange of visits between boy organizations of Great Britain and the Colonies is a direct stimulus to British-Canadian immigration, particularly in turning the minds of English youth, agriculturally inclined, towards farming opportunities in Canada, and few schemes are calculated to have the lasting and far reaching effect of this one. He was last here as officer commanding the Bolingbroke, and previously he was in charge of the Pretoria and Monmouth. ## Something New For Tonsillitis

Ontario Lady Adopts New Vaporizing Salve, Vicks

Miss Margaret Hooley of 96 Chesley Ave., London, Ont., says: "I am pleased to say Vicks Vaporub has done me a lot of good as I am subject to colds in winter. I also found it a great relief to my throat when I had tonsillitis. Also my mother finds it goes for headaches. I would not be without it."

"They used to treat colds externally with tallow, goose grease and camphor. Recently, internal dosing has been the habit and people naturally doubt the value of a salve."

For this reason, Canada drugists introduced Vicks Vaporub, the vaporizer for all cold troubles, last winter by giving away dozens of jars to responsible families and Canada families. With such endorsement and a positive money-back guarantee, every household ought to give Vicks a thorough trial as the home remedy for colds, croup, sore throat, bronchitis, catarrh, neuralgia, cuts, burns, bruises and sores.

All drug stores 50c a jar. For a free test package write Vicks Chemical Co., 344 St. Paul St., W., Montreal, P. Q.

Though Vicks is new in Canada, it enjoys a remarkable sale. Over 17 million jars used yearly.

STREET PAVING.

In response to considerable agitation from business people in the south end of the city, Commissioner Frink this morning requested G. N. Hatfield, road engineer, to make an estimate of the yardage necessary for the permanent paving of British street from Water street to Charlotte and Charlotte street from Britain to Broad, with a view to ascertaining the cost of this work. The commissioner said that if the city was able to pave this section this year it would complete the heavy trunk line from that part of the city to all points.

Asked about Waterloo street, he said that he had permanent curbing laid there last fall and the completion of the pavement would depend on the action of the council. He was of the opinion that water main and service pipe renewals might be necessary before the paving could be started.
