soils are formed from rocks by the action of freezing and thawing, rain, running guestion as to which there is so wide disagreement among farmers as there is about the cost of milk. It undoubtedly costs more in winter than it does in summer, and this was especially true under the old time system of feeding on dry hay and corn-stalks, with sometimes a little grain for variety, which, however, usually went to make fat on the body rather than to increase the milk flow. There was no inducement in those days to have cows caleve in the fall for the fresh flow came at a season when it was almost impossible to keep it up. Milk is always dearer in winter than in summer, as good and thawing, rain, running galeagy of the year of the proposable to keep it up. Milk is always dearer in winter than in summer, and this possible to keep it up. Milk is always dearer in winter than in summer, as a season when it was almost impossible to keep it up. Milk is always dearer in winter than in summer, as a season when it was almost impossible to keep it up. Milk is always dearer in winter than in summer.

It is provided in the first blist and the proposable to keep it up. Milk is always dearer in winter than in summer.

It is always the part of the summer was rapidly approached and the their surprise when he should deamed it at their hands.

It is the home of countless number of when the summer was rapidly approached by the summer was rapidly approached by the summer was rapidly approached by the summer was the summer was rapidly approached by the summer was rapidly approached by the summer was rapidly approached by the summer was the summer was rapidly approached by the summer was the summer was rapidly approached by the summer was rapidly approached by the summer was rapidly approached by the summer was the summer was the summer was rapidly approached by the summer was rapidly approached by the summer was the summer was rapidly approached by the summer was rapi ion of freezing and thawing, rain,

tle men who wore garments made of basement barn and silos to ensilage palm-leaves." Hundreds of years after their calves in the fall with some confidence that the winter product will rican forest, and held an interview ing off a mysterious letter to the old pay its cost. Corn fodder is so much with one of their princesses. Later, school-teacher, and waiting and watchcheaper than is pasture on high-priced Captain Burrows, of the Congo Free

in summer, where the main dependence is on pasture. We believe that good pasture in June will bring more milk from a new milk cover the action.

cheaply than does reliance on pasture, even when corn is cut and fed daily as an adjunct to it.

This, we think, pretty nearly proves that, considering results, the winter feed of cows costs less than it does while they are at pasture. Most farmers deceive themselves into thinking that their summer pasture costs mothing, because they expend neither money nor labor to secure its product. The cow is turned in, eating with one mouth, but all the time trampling the

fear. The fear went to the horse like was an electric message. Then came a punishing pull of the lines, with jerking and the whip. Talk to your horse as to your sweetheart.

A HANDFUL OF EARTH.

Soil is not an inert, lifeless mass of dirt, essentially unclean and unworthy of thought or attention, but is a live and complex substance in which constant change is taking place, as an electric message. Then came a punishing pull of the lines, with jerking and the whip. Talk to your horse as to your sweetheart.

A FASHION NOTE.

A FASHION NOTE.

Mrs. Crimsonbeak—I wonder what will be the prevailing color of girls waists this season

Mr. Crimsonbeak—Well, if they keep on lacing as tight as usual I think it would be a safe gamble to say that they will be black and blue.

She rarely mentioned Dr. Melrose's name; but I could well understand why she was silent.

So the winter passed. Two or three times the doctor came to relieve the monotony. My parents grew to welcome him as a friend, and I, in my heart of hearts, as a brother, for I felt sure I had guessed the secret of bis love for Maude.

He talked of her so constantly, tell-and how her beauty of character had far exceeded even the charm of face and form.

farm, and that if his health continued to fail he might soon be unable even to pay the interest.

Then Maude and I began to hold our whispered conversations to better purpose—to decide that we were strong, and young, and healthy, and that such gifts were given to us to be made use of. And so it ended in our sending the strong of the str

use of. And so it ended in our sending off a mysterious letter to the old ing off a mysterious letter to the old is school-teacher, and waiting and watching days for a reply, which came at last to tell us she had succeeded in my sister warm loving embrace. So she lad ome bock lovelier than ever.

Ah, I could guess what had deepened the flush upon her cheek, the radiance of us, she felt assured, wold fill the role. So she left it for us to decide—one must go and one must stay.

At last Maude said it must be she who would go. She was older than I, and she thought she would be happier away working than at home sitting with folded hands. She was so

The grass is sappy and innutrious in May, and by July or August it either on made by nature, and wander from place to place, supporting themselves that conve will not eat so much of it, and what they do eat will not make so much milk. So great is the need of extra feed for cows at this time that corn drilled for fodder is often cut before it has even got into blossom, and when it of course has every little nutrition. So soon as corn matures sufficiently, that will furnish a ration that will materially increase the milk flow, and makes it more of extra feed for cows at pasture. And the place is good hunting-ground. They will be an adjunct to it.

The grass is sappy and innutrious in May, and by July or August it either to other tribes. They are nomads by nature, and wander from place to place, supporting themselves by hunting. One place seems to be as much a home to them as another, if it is good hunting-ground. The place is good hunting-ground. The present if it is good hunting-ground. Their revengeful nature and their their office of extra feed for cows at this time that to office it as even got into blossom, and when it of course has very little nutrition.
