The C. M. B. A. members in St. John, Carleton and Fairville, are making arrangements to have an enjoyable outing on the river next Wednesday. The excursion party will leave Indian-town at 8.30 a. m. sharp. A meeting of the outing committee will be held this evening.

Victor Desrosier, of the Boston American staff, is in the city visiting Charles Gibbons. The Boston newspaper man is delighted with his trip and yesterday while at Mr. Gibbons' summer home at Riverside enjoyed the waters of the Kennebecasis to such an extent that he swam with ease across the river and back, a distance of over two miles.

The enterprising town of Gibson recently installed a gravity water system, using a windmill to pump the water to their reservoir. It was found however that the wind power was insufficient, and for the past two days the town has been without water. The result was that yesterday Messrs. E. Leonard & Sons of this city, received a rush order for a steam engine and boiler. The new plant was up and running this morning by Star Line.

LADY BOOKKEEPERS.

The supply at the school is exhausted. These positions are open to any qualified applicant. Apply in person at the office, 20 Canterbury street.

HAPPY WHIRL SOON COMMENCES.

The re-opening of Victoria Rink will be a boon to people living in the North End and Valley sections, as well as a convenience to thousands of others. It is centrally located, and on the line of street railway. Once inside, the air is cool and refreshing and an hour or so of roller skating will be no exertion. In spite of the fierce onslaughts of Old Sol. The new hardwood flooring is an immense piece of carpentry, and as true as spirit level and tools can make it. The music of Dumb's Band from Boston will be a great feature. Monday night the happy whirl commences.

BOY KILLED WEDNESDAY AT NEWCASTLE, QUEENS CO.

Was Run Over by a Sloven Loaded With Freight From the May Queen.

A sad accident occurred at Newcastle, Queens Co., on Wednesday evening, when a fourteen year old boy by the name of Mercer was run over by a sloven and instantly killed. Young Mercer had been down to watch the arrival of the May Queen. When she left he jumped on a sloven owned by T. E. Miller, which was going to Upper Newcastle. The team had gone a short distance from the wharf when young Mercer slipped and fell beneath the wheels of the sloven, which was loaded with freight from the steamer. The wheels passed over the boy's chest and rendered him unconscious. He was carried to a nearby house, but by the time the house was reached life was extinct. The boy was an exceedingly bright and popular young fellow, and much sympathy is expressed for the bereaved parents. His father is an employee of the New Brunswick Coal and Railway Company.

THE CLARKE ASSAULT CASE

POSTPONED TILL NEXT WEEK.

Mr. Baxter for the Prisoner Objected to Certain Testimony Which He Claimed Had Nothing to do With the Case

The Clarke rape case was resumed in the police court this morning when J. B. M. Baxter appeared for the prisoner.

The prosecution put Jennie Darley, a young girl, on the stand. She said she resided on Millidgeville avenue and she knew Clarke. She saw him on Millidgeville avenue on a Wednesday evening about three weeks ago. She was alone at the time when she met Clarke. The witness was about to tell what transpired when Mr. Baxter objected to her going on any further, as he claimed that what happened three weeks ago had nothing to do with the charge against his client for something which happened a week ago. He said that the evidence if given would be printed in the newspapers, and quite properly so, but that it being spread broadcast that his client had been identified in other cases than the one he has been charged with might have a tendency to work on the minds of the public from which a jury would be picked. This evidence if it had to be given could come up at a later date when the grand jury is called together. The magistrate thought that Mr. Baxter was right in his objection and would not allow the witness to proceed with her testimony, but she returned the case and remained the prisoner until next Tuesday or Friday.

Mr. Baxter said that the police were holding Clarke's underwear as evidence and he wished to be allowed to see it. His request was granted.

FOREST FIRES RAGING

IN DIFFERENT SECTIONS.

That at Westfield is Now Under Control, But Much Damage is Being Done

—Elsewhere.

For the past two weeks nearly everybody has been wondering how long it would be before the usual forest fires would break out, as the weather has been so very dry. Yesterday the start came in different sections of the province and today fires are raging in earnest. The majority of these fires are due to grass as they have been started by some one setting fire to brush heaps.

A fire of this sort was started back of Belyea's Cove near Westfield and was soon burning over the farms there. It was feared at first that Westfield itself would be destroyed, but a brigade was organized and it was reported this morning that the flames were well under control. The only damage which had been done was the destruction of a considerable lot of grass and some timber.

A despatch from Sussex says: Forest fires have a t last broken out in this county and the smoke today was so dense that the sun was obscured. For some time there has been anxiety as to the situation in the county. There has been no rain to speak of since the first of July and the intense heat, the most pronounced for years, has dried everything until the countryside is like a tinder box. Several small fires have been burning along the hills but they were not dangerous. Today White's mountain is ablaze and all the country round about Sussex is dotted with fires. It is only a matter of time when these will assume serious proportions and do much damage to lumber properties. Rain is needed badly not alone on account of the wood fires, but the crops are being scorched to ruin's point. The grain is in bad shape and unless it is relieved by showers will be almost a complete loss.

The dairy industry is feeling the strain too. During the past few weeks there has been a noticeable falling off in the supply of milk received at the creameries and cheese factories, and with the price of dairy produce away up, the loss will be a serious one. Cattle cannot get the feed necessary to produce a good flow of milk until rain comes and everybody is praying and hoping that it may arrive soon.

In Westmorland County the fires are also raging, and a number are reported as doing serious damage along the Moncton and Buctouche railway. At Irishtown a specially hard fight had to be put up against it. It is in order to save the place from destruction.

It is feared that unless rains come soon the damage will be done to the timber lands all over the province. The farmers are also complaining that unless they have rain shortly the crops will be an entire failure. They say that the hay was a poor crop and if this dry weather keeps up the other products of the farm will also be as poor.

HAS HAD HARD LUCK.

A stranger in the city today is P. W. O'Donnell, a former New Brunswicker, who has had more than his share of misfortune. Mr. O'Donnell is the son of Irish parents, and was born near Fredericton. Early in life his family moved to the south and when he grew up he entered into the business of railroad construction, carrying out contracts in Panama and other southern countries. While engaged in railway work in Guatemala some years ago, Mr. O'Donnell was the victim of a premature explosion of blasting powder, which resulted in the total loss of his sight. When he recovered from his injuries he went into banana growing, but the hurricane of 1903 swept his plantation and left him penniless. Since then Mr. O'Donnell has become an evangelist and has conducted revivals in different countries. He has come to St. John and desires to make the acquaintance of Christian workers in the hope that he may be able to arrange a series of meetings here. At present he is living at 86 Colberg street. Mr. O'Donnell is well posted in political matters relating to the south and is quite an interesting talker.
