

THE WEATHER.
Toronto, June 11.—With the exception of some showers in the eastern portion of Quebec, the weather today has been fine and warm in all districts from Ontario to the Maritime Provinces. A few scattered showers have also occurred in Saskatchewan and Alberta, while in Manitoba it has been fine and very warm.

AROUND THE CITY

Automobile Lamp Found.
An automobile lamp found in Main street awaits an owner at the North End police station.

Card of Thanks.
Mr. and Mrs. Fred L. Cunningham and family, of Millish, N. B., wish to extend heartfelt thanks to the many neighbors and friends for the many acts of kindness shown in their recent bereavement, the loss of their dear son and brother.

New Company Formed.
George D. Wannamaker, Rupert M. Rive, C. Herbert McLean, A. C. Jardine and J. D. Williams, of this city, are applying for incorporation under the name of Wannamakers Limited. The new company will have a capital stock of \$100,000 and the head office will be at St. John.

Strayed from Home.
Gerald Donovan, a young lad of four years, yesterday afternoon wandered from his home and was found on Main street by Officer Linton who brought him to the North End station. The young fellow was kept at the station until Hazel Ross called and took the boy to his home 39 Moore street.

A Quiet Wedding.
A quiet wedding took place yesterday at the residence of Mrs. Clark, 257 Charlotte street when Garr Fraser Grant was united in marriage to Miss Mand Alice Holburn, both of this city. Miss Dorothy Dimock acted as bride-maid and Gordon E. Parlee supported the groom. Rev. J. H. A. Anderson performed the ceremony. Mr. and Mrs. Grant will reside in St. John.

Prizes Donated.
Mr. and Mrs. Colby Smith, Mrs. Gregory, of West St. John, the ladies of the Canadian Club and others have very kindly donated prizes this year for the pupils of the School for the Deaf, Leicesters, who were selected to receive rewards for good standing at the examinations held last May. The Principal, on behalf of the pupils, begs to thank these ladies and gentlemen for their generosity.

Summer Wheat Shipments.
The summer wheat shipments which were commenced last summer by the Purness line running between St. John and London, are being continued this year, and in all it is expected that 500,000 bushels will be shipped. Already one steamer has taken away 72,000 bushels, while another will sail today with the same amount. During the summer the sailings will continue every two weeks until the end of September.

The Hebrew Pentecost.
The feast of Pentecost, which is being celebrated by the Hebrews in the city, will be brought to a close at sunset this evening. The celebration was begun on Tuesday evening with services in the Synagogue. Special services were held yesterday morning and evening and will be continued today. Before the close of the celebration Rev. B. L. Amud who is conducting the special services, will deliver a sermon touching on the feast.

Pleased With St. John.
Albert Lewis, of Liverpool, who, as reported in The Standard some time ago, had been induced to settle in the city rather than proceed further west, has been so favorably impressed with St. John that he has sent word home to his wife and family to come out. Mr. Lewis has also written to several of his friends in Liverpool who intend emigrating from that country, advising them to make their home in St. John.

Carpenters Elect Officers.
At the meeting of the Carpenters and Joiners' Union held last evening the following officers were elected for the ensuing year: President, Charles Steward; vice-president, Benj. Young; recording secretary, H. Pratt; financial secretary, W. W. Williams; treasurer, George Redmore; conductor, Thomas Moore; warden, T. Nixon; auditor, H. McLaughlin; trustees, A. Williams, business agent, James L. Segrue. Most of the business before the meeting was of a routine nature.

To Investigate Motor Services.
Com. McLellan intends to go away in a short time for a few days trip to several cities with the object of getting information about the motor services of other places with motor fire apparatus. He will make a general enquiry into the fire departments of such cities as he is able to visit in the limited time at his disposal. He will also make some enquiries as to the efficiency of motor ambulances with a view to having one in St. John. On his return he will take up the matter of holding a public investigation into the police department.

Injured When Rifle Burst.
An accident which might have proved much more serious than it did occurred Tuesday afternoon when Chas. Fish, while shooting on the rifle range was cut in the forehead by a piece of steel flying from his shattered gun. He had loaded the gun to fire at a target and when he pulled the trigger the shot shattered the gun. A piece of flying steel from the rifle struck him in the forehead but glanced off the head. The wound which did not prove very serious was dressed by Dr. Roberts.

SILVER MINE IN NORTH END IS THE STORY

Adelaide Street Sewer Workmen Strike a Supposed Vein.

ORE SAMPLES ARE AT CITY HALL NOW

Metal Found Resembles Silver, but Until Dr. Mathew Comes Home Definite Analysis Cannot be Made.

What may prove a very important discovery and cause a stampede of population to St. John such as would take the breath away from even the most ambitious boomers was made yesterday when city workmen engaged in excavating a trench for the Adelaide street sewer outlet came upon what is believed to be a vein of silver. In passing through the bare white rock yesterday the workmen discovered a vein of hard bright metal looking like silver. The vein ran in the direction of the trench, and the blasts made during the afternoon showed that the metal vein extended for fifty feet, with the end of it still out of sight.

When Commissioner Wilmore went out to the North End yesterday to inspect the work he was shown the vein, and brought in several nuggets of the metal to City Hall, where they were the objects of much curiosity. The general opinion around City Hall was that the metal was either silver, or nickel, which is a pretty valuable substance, the only important mines of nickel suitable for the manufacture of armor plate being found in Canada.

A specimen of the metal was sent down to the custom house with the idea of getting the opinion of Dr. G. P. Mathew, the geologist, on it. But Dr. Mathew is taking a holiday in the country, and the city officials will have to remain in suspense until he returns or some other geologist can be found who knows what the metal is.

In carrying out the excavation work for the Adelaide sewer the workmen have, as has already been reported, found quite a number of precious stones, which Dr. Mathews pronounced to be fine and marketable. A silver mine has been unearthed which will give a feather in the cap of the metal form of government, and do much to give St. John some more advertising.

A city official remarked yesterday that he had been told some time ago by an old miner who had made a fortune in the West that wherever you found limestone adjoining a hard white rock it was safe to bet that you would find silver.

"There is no telling," he added, "what kind of metals we are going to find about St. John. Certainly it will be a great thing if the city can claim the credit of discovering a silver mine, and a much better thing if the city can acquire the mining rights and produce all the silver it is entitled to pay its bills. St. John may become another Cobalt."

Possibly the discovery may further accentuate the boom in real estate about the city.

The Board of Trade is carrying on a certain amount of advertising of the city and province along the line which has been pursued for some years. Most of the advertising takes the form of special write-ups of what is going on in the way of development, illustrated with interesting views, Colonial, an illustrated weekly magazine, recently had a very good article on St. John with a series of views of the city, and the works of progress here. Arrangements have been made for the publication of an article in the Glasgow Herald and also in the Canadian Gazette of London and a Yorkshire paper and several other periodicals. Mr. Hoag, the secretary, reports that illustrated journals show a disposition to use photos of scenes in the city, which seems to indicate that St. John and the province are attracting an increasing amount of attention.

The board is continuing the policy of sending out weekly newsletters to a large number of papers in Canada, the United States and Great Britain, and quite a few of the papers publish the letters which give St. John and the province a good deal of free advertising.

Fisheries Officials Hepp.
Alexander Finlayson, of the department of marine and fisheries, Ottawa, is in the city at the Royal. Mr. Finlayson, who has been in the city at the Standard last evening, stated that the different hatcheries in the provinces are making an excellent showing. When asked if another hatchery would be erected in the near future, Mr. Finlayson pointed out that these now in operation were ample to answer the demands, and that the supply of eggs was not sufficient to keep them running to capacity. The western provinces, which have heretofore been neglected in the matter of hatcheries, are to receive their share this year, and Mr. Finlayson expects to build several in that section of the country, Kennebecasis Bay.

LOCAL BANKS CUTTING DOWN ON NEW LOANS

Orders Received Yesterday By Some Bankers to This Effect.

TIGHT MONEY IN WEST GIVEN AS THE REASON

Considerable Decline also in Local Stock Market—Leading Issues Tumble and May Go Even Lower.

Owing to the fact that the stock market is again in the throes of liquidation, many of the securities regarded as strong being radically affected, the banks in the city, on orders from their respective head offices, yesterday refused new loans, causing a sharp tightening of the local money market, trading to a large extent being held up.

A representative of one of the local agencies when interviewed stated that while it is probable that loans would not be refused on first-class security, new business was not being looked for.

The impelling cause of the fall in the stock market was the decision of the Supreme Court in the United States in the long-delayed Minnesota rate case. A local man when speaking of the decision stated that it seemed to have a double character and was of the opinion that the depression was due to a misunderstanding of the decision.

C. P. R. dropped to 210 1/4 yesterday afternoon, giving the local dealers an opportunity to buy for a raise. It is not thought that C. P. R. is affected with the United States railroads and it is believed that the remarkable loss in the value of this stock is due to the influence of the "big interests."

Little Effect Here.
The local situation was not materially affected by the depression, although many securities struck a new low and may go lower within the next twenty-four hours. The money in the savings banks in St. John has not been touched and it is probable that it will not be needed. Building is going on and labor is scarce and the banks are not refusing loans the money stringency would have no effect here.

The assistant surgeons are Dr. J. A. McCarry, Dr. S. H. McDonald, Dr. J. S. Bentley and Dr. A. E. Loggie.

NEW APPOINTMENTS TO HOSPITAL STAFF
Commissioners at Meeting, Last Evening, Named Four Assistant Surgeons and Same Number of Physicians.

At the meeting of the Commissioners of the Public General Hospital held last evening the new scheme for increasing the efficiency of the staff was put into effect by the appointment of four assistant surgeons and four assistant physicians.

In order to accept the position on the staff of the hospital, Dr. L. M. Curran resigned his position as a member of the Board of Commissioners. Dr. Curran was appointed to the board by the County Council, and his successor will be selected by the same body.

BIG PROPERTY SALE AT MILLIDGEVILLE
Maritime Properties Ltd., Buy Thirty-seven Acres from Property of Helen A. James—Will Sub-divide it.

The Maritime Properties Ltd., a company organized in St. John, a short time ago to carry on a real estate business, has bought the property of Helen A. James at Millidgeville, consisting of 37 acres, in the central part of the village. A church and school house and several stores and houses are located on a portion of the property and the remainder is being made up into building lots. The directors of the Maritime Properties Ltd. are: Helen A. James, J. G. Willet, L. V. Langley, E. A. Smith and J. H. Scovell. The property which they expect to convert into building lots when the Suburban Railway is extended to Millidgeville has a frontage of 1000 feet on Adelaide Road, and is intersected by Manners-Sutton street. A portion of it borders on several in that section of the country, Kennebecasis Bay.

YOU CAN'T LOSE IN THIS COMPETITION

Daily Increase in Interest in The Standard Puzzle Contest.

SOMEONE MUST WIN A HANDSOME PRIZE

Get in Now, for in a Few Days it will be Too Late—Information for Contestants.

Only a few days more and the opportunity to count the circles in The Standard's puzzle contest will be closed. Interest is growing each day and not only in the city of St. John but throughout the province, many are earnestly striving to reach the one correct answer to the puzzle.

Most of your friends have worked it and are going over the puzzle again to verify their answers before sending in a solution to the contest office. Next Saturday the contest closes and the remaining three days gives plenty of time to study the conditions and file an answer.

Those sending in solutions this week are on an equal basis with those who have already registered an answer. It is better, however, to bring or mail your count to the contest editor as soon as possible so that proper credit can be given. The remarkable variation in the solutions already received proves conclusively that there is a wide difference among those who are "absolutely certain" of the correct number of circles contained in the chart.

This contest is one in which you cannot lose because every dollar sent in applies on a subscription to The Standard, and you are certain of receiving the best newspaper value in this section of Canada for whatever payment you make. You are also given a chance to win any one of the gold prizes offered through a friendly competition which will afford amusement while testing your mathematical skill and accuracy. And another attractive feature is that the money you spend for a subscription may earn you greater dividends than any investment you have ever made.

No one in The Standard office can know the exact number of circles in the chart until the envelope containing the designer's figures has been opened. This will not be done until after the close of the contest on next Saturday.

For information we print again the following hints to contestants:
How to Enter.

Any person living in the Province of New Brunswick and Nova Scotia may enter The Standard's Puzzle Contest upon payment of a subscription of not less than \$1.00.

Contestants can send any intermediate amount but no payment greater than \$5.00 will be accepted with any one solution. An official receipt will be mailed each subscriber from The Standard office.

Study the prize list carefully and note that the value of the prizes largely depends upon the dividends paid with the winning solutions. Contestants may secure subscriptions from their friends if they so desire and have the solutions registered in their own name.

The Deciding of Ties.
In case of ties there will be as many prizes reserved as there are awarded for less correct answers. If there should be more ties than there are prizes offered, those who tie will be given a second puzzle according to the rules and all who sent in less correct solutions would be eliminated.

There are seventy cash prizes and a little time and patience might put all to be sold at one price. Who read The Standard anyway, and by paying a dollar or more gives you the opportunity to join the counting brigade.

Ladies' Outside Skirts.
Three hundred ladies' outside skirts at F. A. Dykeman & Co.'s made from attractive cotton wash materials to be sold at \$1.00 each. This is a lucky purchase of theirs made at a great saving in price. These skirts would ordinarily cost \$1.75. They are made from white Indianhead, natural shade Indianhead, grass linen, striped percale, Shepherds' plaid, blue and white, black and white polka spots. And large varieties of other materials.

Wanted.
The Municipality of St. John is calling for tenders for a large amount of sewer construction in the Parish of Lunenburg, and for the supply of vitrified pipe. The advertisements appear elsewhere in this paper.
