Provincial Meeting L.O.B.A. Mar. 18th

Preparations for the Event Are Now Being Made and a Large Delegation is Expected.

An event of much interest will take place in St. John this month when the first provincial meeting of the Ladies' Orange Benevolent Association will be held. The dates set are March 18th and 19th, and it is expected that fifty delegates from the province will attend. A very interesting programme is being prepared which included a banquet to be given at the Clifton House, at which fifty members from outside points, one hundred or more St. John members and a number of invited guests will be present. Every preparation is being made for the entertainment of the delegates during their stay in the city.

A meeting of the L. O. B. A. was held last evening, presided over by the Most Worthy Grand Mistress Mrs. George O. Akerley, at which final arrangements for the meeting were made. Mrs. Akerley announced that on Monday at Moncton she had organized one of the largest L. O. B. A. ever formed. The Worthy Mistress Mrs. Cook, and fifty-six charter members joined at the organization meeting, while a large number of applications for membership were received. This Order throughout the province is the most flourishing, and has a splendid record of work, accounts of which will doubtless be heard at the coming convention.

MRS. ALICE McLUSKEY, prominent Lewiston woman, who says she wishes she could have gotten Tanlac twenty years ago, as it would have saved her lots of suffering. Declares she is now well and happy and that she wants everybody to know about it.

"I have been trying for twenty long years to find a medicine that would overcome my troubles, but my efforts failed me completely until I commenced taking Tanlac." was the remarkable statement made recently by Mrs. Alice McLuskey, residing at No. 66 Park street, Lewiston, Me., a well-known and most highly respected woman of that city.

"I just feel like I would give the world to meet everyone who suffers as I did and tell them about this medicine. If I could only have gotten Tanlac twenty years ago it would have saved me a lot of suffering and money. My principal trouble was indigestion, and for many years I could not eat meat or pastries for I would feel eating and nothing seemed to agree with me. Then, to add to the rest of my suffering, I contracted rheumatism in my shoulders and hips and the awful pains I suffered can never be told in words. This trouble finally got so bad I could hardly walk and my arms pained me so I could scarcely do all my housework without the least trouble. I don't get tired like I did and after doing my work I can get out and walk for blocks and feel just fine when I get back home. I earnestly advise everyone who suffers as I did to take Tanlac."

Tanlac is sold in St. John by Ross Drug Company and the leading druggist in every town, under the personal direction of a special Tanlac representative.—Adv.

CLUB IMPROVEMENT

St. Andrew's Curling Club Considering Changes in Their Rink.

The St. Andrew's Curling Club held a special meeting Tuesday evening to consider improvements to their rink building. A special committee submitted a report favoring an expenditure of from \$10,000 to \$12,000, which would give the larger accommodation on the ground floor for the club members and provide a splendid club room, with adequate ante rooms, etc., on second floor. This the Knights and Ladies would rent. Discussion produced considerable opposition and the committee was finally authorized to present an alternative plan involving a smaller capital expenditure and cutting out the big club room.

Miss Margaret, the Kirkpatrick attended the bride and Miss Phyllis, brother of the bride, supported the groom. The church was nicely decorated with evergreens. The bride was charmingly dressed in a tailored suit of navy blue with a georgette hat of navy and ostrich trimming. The bridesmaid wore a suit of taupe satin with hat to match. A. W. Covey Writes On Amateur Sport

Present Position in Maritime Provinces—Moncton Transcript Says Amateur Athletic Machinery in Railway City is a Mystery — 400 Amateur Athletes Registered.

(Moncton Transcript)

A. W. Covey, St. John, President of the M. P. B. A. U. of Canada, in an open letter to the "Amherst News" deals plainly with the Amateur situation in the Maritime Provinces. The Amateur Athletic Union machinery in this city is a mystery to many, and many questions are now the order of the day. Covey has this to say: "Early in the season we stated that every application for registration would be considered on its merits and this was our intention, of course we expected that all teams playing in a Hockey League would immediately register their players before starting the league. If I remember correctly we stated that up to the 31st of Jan. all players would be considered and if recommended by Mr. McNutt of Moncton, would be granted cards. We found, however, that neither Sackville nor Amherst attempted to register a single man until forced to do so. Both Sussex and Moncton had registered their players early in the season and it was only after these teams raised the question with the others that they put in their application for cards."

"It was suggested by some of the people in the provinces that every body be given a clean slate and a fresh start. This would include all the old professionals of former days, however, after serious consideration on the part of the Committee in charge of this work, it was decided that it would be absolutely impossible to do this, owing to various factors, which would have done more to hurt Amateur sport in the Provinces than the whitewashing of all these old professionals could have helped."

"With reference to Amateur Sport at the present time and later would say that, an dit may surprise you to know up to the present time since Jan. 1st, we have registered nearly 400 Athletes in the Provinces. This is to my mind a positive proof that the Athletes as well as the public want Amateur Sport and Amateur Sport in spirit it is well as in fact."

"Amateur spirit is more to be fostered than anything else if we want the good clean competition that marked the old days of Star Trophy Hockey and other athletics in the Maritime Provinces. We are doing everything to educate and promote athletes to this spirit and I believe that we have the greatest opportunity of all time before us. What we need is the support of every decent newspaper in the Provinces. You, as Sporting Editor of your paper might sometimes consider that some of our actions are not just right, but you can rest assured that no action is taken without serious and deep deliberation for the welfare of the Sport the individual and the Public. I am sure that you, as a moulder of public opinion would not advocate professionalism or as it is wrongly called semi-professionalism, when you realize that this is exactly what has killed practically every sport to these provinces up to the present time. I would like again to draw your attention to the fact that no matter what the appearances may be you can be sure that our intention is to be fair in absolutely every case and that no man will suffer intentionally and that we will rectify any mistakes just as quickly as we can get the evidence."

By reading the above message of Mr. Covey's some information is to be gained as to the government of Amateur sport in the Maritime Provinces and perhaps more is to be learned, if one reads between the lines, as a lot is apparently suggested.

CHATHAM MAILS FROM ST. JOHN.

Many Chatham people would like to know why the afternoon mail from St. John does not arrive here until tea-time, instead of 2:30 o'clock? In stormy weather there is some excuse, but in fine weather why does the branch fail to connect with the main line train? Some say the branch train could easily be held at Derby Junction when the local from the south is half an hour late; but apparently no one bothers his head about having proper connections made. It is the same story day in and day out—no afternoon mail from St. John; trains didn't connect. It's about time somebody in authority straightened out this thing, so that business firms and others can get their mail at proper time—Chatham Commercial.
