THE WIFE'S LAMENT.

He thinks I'm silly for wanting a kiss  
When he has me as anxious to be his  
And the reason is that he's "hindering" me,  
So I wish him to go hammering away down the street.

And a tear fills my eye, though 'tis hard to see,  
And I cannot but think how delightful and sweet  
Would the whole day have been with that little care.

For to my work it seems heavy and long—  
When that one little kiss would have made it so light.

And I try to grow "lively" by singing a song,  
But it dies in a sigh:—that one little kiss!

I'll love him, I'll love him to the end,  
And make him as happy as I can be,  
And who knows but an eye glass some angel  
Will send to show how I long for one lover-like hour?

NOTES AND NEWS.

GENERAL BUSINESS.

At last accounts 300 vessels were building at Glasgow on the Clyde, half of which will be steamers.

In the river Mersey in England thousands of fish are dying owing to the offensive matters discharged into its waters from the mills. The dead and dying fish are generally brown.

An association of Colliery owners has been formed in Wales to prevent loss from stoppage by strikes, etc. An insurance fund of £50,000 and a strike fund of £20,000 was formed.

Miss Shanks, the daughter of a farmer at Divit Hill, in England, was bitten in the arm by her uncle's dog about two months since. The wound was cancerous and on Sept. 24 the young lady was taken ill and after terrible suffering died of hydrophobia.

The fastest train on the English railways is the Great Western Express between the Paddington depot in London and Exeter. Its average rate of speed is 45 to 50 miles per hour, but between Paddington and Brighton it travels at the rate of 55 to 60 miles per hour, including the stopping.

Mr. Andrew Lusk, member of Parliament for Finsbury, who has just been elected Lord Mayor of London, is the son of Mr. John Lusk of Ayrshire. He was born in 1818, and has for many years been a member of the House of Commons.

He filled the office of sheriff in 1860-61, and was chosen Alderman for the Ward of Aldgate in 1868. In 1865 he was sent to the House of Commons to represent the borough of Finsbury, and was again returned in 1868.

Mr. Clay, a member of Parliament, and the best whist player in England, is dead. Among the educated classes the passion for whist is steadily extending, but few people have any idea of the amount of time which is every day given up to it in London. During the greatest part of the year a little knot of well-known politicians and men of letters meet regularly every afternoon at 6 o'clock in the card room of the Athenaeum Club. Here whist is played in its most scientific form, and it scarcely may be doubted, with great intellectual benefit.

A Connecticut thief who stole a farmer's watermelons sent the seeds back in a letter, requesting him to plant them for next year.

At a Boston restaurant a supply of live trout is kept in a tank, so that epicures may pick out which fish they wish to be cooked.

Perhaps the delectable cashier, is accused of having been a Liberal. If all the defaulters now-a-days belonged to that party its prospects would not be so dark.

Mr. Birmingham was excused from serving on the Stokes jury on the ground that he was opposed to capital punishment. The judge told him he ought to change his name.

Only forty-nine of one hundred and five youths who were recently examined for admission to the West Point Naval Academy were qualified. In June last forty-four out of seventy-six qualified.

Yan Kee, a prominent Chinese merchant of San Francisco, has made application for his naturalization papers, and will soon be a Yan Kee by nation as well as by name.

A Sunday-school teacher out West being asked if he did not want to be an angel, and with the angels stand, "No, he wanted to be an engine boy and run with the machines."

The laying of the corner stone of the new Capitol of Iowa, the other day, inaugurated a new era in public occasions. No speeches were made, except a few remarks by a workman who got his fingers pinched, and they were merely of a cursory character.

Accuracy is desirable. But the Indiana editor who quoted a familiar camp meeting hymn as follows:

"Ten thousand thousands (10,000,000) are there,  
But all their joys are one (1),  
Carried his love of accuracy to excess.

The Newport, R. I., News has been sued for libel, damages claimed \$20,000; but the News says "If the prosecutor gets a favorable verdict from any jury, we propose celebrating the event by closing our office and going on a clam hunt with a shot gun."

We are to have a spell of weather yet, according to a trustworthy Kentucky paper. It says: "October has caught the tip end of Lady August's panier as she was leaving her summer house and, like an impatient lover, insists upon proceeding with her while in the pleasant sunshine." How sweet.

Two successful hackmen in St. Louis entered into a co-partnership scheme, agreeing to divide their receipts. At the end of the first day they found themselves

Young men will be rejected to learn that tight boots may be drawn on easily by a simple process. The patient lies down on the floor, and holds his feet straight up in the air, until the blood runs out of them, thus diminishing the size of the foot, when it will slip into the boot as sleek as getting into a gutter on dark night. To enjoy perfect immunity from pediculi while the foot is thus exposed, it is only necessary to remain in position until ready to draw off the boots.

"What is your name?" asked the clerk of a witness about to be sworn before a justice of the peace. "Oswald Wood," was the reply. "How do you spell your name?" "W-o-o-d," replied the witness. "I don't doubt it," said the justice, "but double O D." The astonished judge thought that was one of the most extraordinary names he ever knew, and after two or three attempts to record it, both he and the clerk gave it up amid roars of laughter.
