

NERVOUS EXHAUSTION.

HORSFORD'S ACID PHOSPHATE.

Recommended as a restorative in all cases where the nervous system has been reduced below the normal standard, by overwork, as found in brain workers, professional men, teachers, students, etc., in debility from seminal losses, dyspepsia of nervous origin, insomnia where the nervous system suffers.

It is readily assimilated, and promotes digestion.

Dr. B. H. Boyd, Lafayette, Ind., says: "I have used it in several cases of nervous exhaustion with uniformly good results."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application without expense, except express charges.

Prepared under the direction of Prof. E. N. HORSFORD, by the

RUMFORD CHEMICAL WORKS, PROVIDENCE, R. I.

Beware of Substitutes and Imitations.

CAUTION:—Be sure the word "Horsford's" is **PRINTED** on the label. All others are spurious. Never sold in bulk.

NEW YORK POST-GRADUATE MEDICAL SCHOOL AND HOSPITAL.

Eighth Year—Sessions of 1890.

The POST-GRADUATE MEDICAL SCHOOL AND HOSPITAL is closing the eighth year of its existence under more favorable conditions than ever before. Its classes have been larger than in any institution of its kind, and the Faculty has been enlarged in various directions. Instructors have been added in different departments, so that the size of the classes does not interfere with the personal examination of cases. The Institution is in fact, a system of organized private instruction, a system which is now thoroughly appreciated by the profession of this country, as is shown by the fact that all the States, territories, the neighboring Dominion and the West India Islands are represented in the list of matriculates.

In calling the attention of the profession to this institution, the Faculty beg to say that there are more major operations performed in the Hospital connected with the school, than in any other institution of the kind in this country. Not a day passes but that an important operation in surgery and gynecology or ophthalmology is witnessed by the members of the class. In addition to the clinics at the school published on the schedule, matriculates in surgery and gynecology can witness two or three operations every day in those branches in our own Hospital.

Every important Hospital and Dispensary in the city is open to the matriculate, through the Instructors and Professors of our schools that are attached to these Institutions.
