

Hamilton Man Tortured By Stone in the Bladder

TREATED BY DOCTORS FOR A YEAR AND GREW STEADILY WORSE

THEN CAME GIN PILLS — AND A CURE

Everyone who lives in the neighborhood of Hamilton, Ont., knows about the strange case of Mr. Herman.

For a year he puzzled Hamilton physicians. They said he had "Inflammation of the Bladder." But all their treatment did him no good. Two and-a-half boxes of GIN PILLS (at a cost of 50 cents per box) did what the doctors couldn't.

Messrs. The National Drug and
Chemical Co., Toronto.

Gentlemen—
I cannot express myself strongly enough when I speak of what Gin Pills have done for me. When I remember how I suffered not so long ago from Kidney and Bladder trouble, and how now I am healthy and well and strong and able to do a full day's work, I feel I should speak and tell other sufferers of my experience and of the wonderful merits of Gin Pills.

Something over four years ago I was taken down with what the doctors called Inflammation of the bladder, intense pains in the back and loins, great pain and difficulty in urinating, and agony at times confined me to bed for three or four days at a time. Poultices were laid across my back and front and by laying in a certain position I could get relief and then get up and go to work, although frequently I would have to leave my work before nine o'clock and return home to bed.

The pain was greatest in the region of the bladder, and during the attacks, which occurred more and more frequently, amounted to unbearable agony, and I became so weak that I could not walk across the floor.

For over a year I continued to get worse, and the doctors could do nothing to relieve or cure me. My case seemed hopeless but my wife

noticed in the paper one day what Gin Pills had done for others and sent for a box to try and see if they would help me.

From the very first I noticed and felt that Gin Pills were doing me good. The pain was relieved at once and the attacks began to come at longer intervals, and hope that perhaps I might be cured returned to me once more.

I continued taking the pills for about six weeks, and then to my surprise and delight, the stone I sent you some time ago, came away from me and my pain stopped. I continued to take the pills for a short time longer, and rapidly regained health and strength. It is now three years since Gin Pills cured me, I have had no return of the trouble and I have not lost a day's work on account of it since.

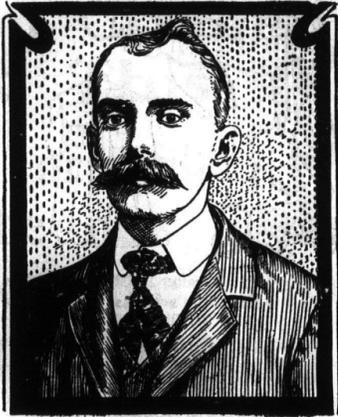

You cannot understand how grateful we are for Gin Pills. There is not the slightest doubt that they saved my life, and we recommend them to anyone who complains of pains in the back or bladder.

Yours gratefully,

513 James St. North, Hamilton. JOHN HERMAN

The Dr. Sanden Electric Belt gives New Strength and Vigor to Men, and I ask no Pay Until Cured

The highest mental and moral development, the greatest possible success in life, either financially or otherwise, can best be attained when the organs of the body are in a normal state of health—when the ambitions and efforts are backed by rugged, manly vigor.

The man who is weak, who lacks nerve force and energy, is certainly handicapped to a greater or less degree in every undertaking where a clear brain and an abundant reserve fund of nervous energy and vitality are essential—and these qualifications are required at the present day more than ever before.

I have devoted my entire life to the minute study of the causes and effects of nervous debility and those weaknesses of men which sap the vital energy. In nearly every case the trouble can be traced to some tax on the nervous system in former years, such as overwork, hard study, dissipation, indiscretions, etc., for all these things lower the vital forces and rob the constitution, and what is still more unfortunate, they generally do so at that delicate period of life when youth is merging into manhood, when Nature should be most assisted in her work of perfect development.

DON'T USE DRUGS

It is in correcting the consequences of these unfortunate mistakes that the properly applied current of Galvanic Electricity gives the best obtainable results, because science tells us that electricity and nerve force are one and the same thing. I apply it through the famous Dr. Sanden Electric Belt, with Suspensory Attachment. It is worn about the body at night only, and gives new life and energy to every weakened organ, curing while you sleep.

My plan of selling my Appliances should meet with the approval of every fair-minded man. It is not necessary to pay in advance, or even to make a deposit. You can make arrangements to get a Belt suited to the requirements of your case, on trial, not to be paid for until you are cured, and I only charge the regular list price. If you are not satisfied with the results, you can send the Belt back to me, and that ends the transaction. Isn't that a fair offer?

If you are weak and nervous; if you lack confidence and ambition; if you are easily discouraged and depressed; if you are not the man you ought to be, you need Electricity. Your nerves are craving for it just as the growing fields crave sunshine and warmth. In the great and sublime effort nature is making to restore your strength, she needs some aid. Will you assist her? You can if you will.

A Fashionable Frock of Cashmere.

Cashmere makes a most charming dress for the younger girls and it is to be extensively worn throughout the autumn. This one is simple and girlish yet exceedingly smart and attractive. The color is one of the beautiful grayish blues and the trimming is silk banding while the guimpe is made of white muslin. The autumn has brought a long list of beautiful shades, however, and rose colors and dull greens are to be much worn, while there are reds that are beautiful in the extreme and brown is always practical and serviceable. Plaids too, are very beautiful and are always attractive for the earlier season and shepherd's check promises to con-

A May Manton pattern, No. 6430, sizes 4 to 10 years, will be mailed to any address by the Fashion Department of this paper on receipt of ten cents. Man never lacks an excuse for what he wants to do.

Thomas Hardy: Man may rise above his environment, but he can never rise above that to which he gives his attention. If he lives in a garret and thinks discouragement and failure and hate and gloom, he will live in a garret still. But if he, while living in the garret, employs to the full his time in improving himself, in taking care of his health, in keeping his mind free from the clouds of discouragement, and instead cultivates courage, determination and faith that he is going by his works to get better things, then he will rise above that environment. But no one may habitually think evil, meanness, hate, failure, and rise to happiness.
