Ski gloves found in Den-Pharm. before finals in Dec. Please identify - Brian at 431-0860.

Yee Lap Chan/Eric. Found your calculator in CAB 273. Identify to claim. 433-5317.

Perfectly Simple. Simply Perfect.

Three calculators from Texas Instruments.

They're easy to use and there's one to make your everyday calculating tasks simple.

Each one features a sophisticated solar power system. That means you're not going to be let down by batteries when you can least afford it.

In a nutshell, the three calculators you see here reflect what we believe calculators are all about: they're fast, they're efficient, they're reliable and they're easy to use.

We're sure there's one for you.

To start with there's the TI-31 SLR which performs the 63 most used scientific and statistical functions, including the algebraic operating system.

But if you're into more advanced math, statistics or computer sciences, you should be looking at the TI-36 SLR, or the TI-37 Galaxy.

The TI-36 gives you a total of 89 functions. It can convert figures from one base to another and performs mixed calculations. It also has a 10 digit/2-exponent display that shows 13 mode or status

calculations. The TI-37 Galaxy has all this plus it can handle integer or fraction calculations. And it comes with a hard plastic carrying case.

So if you're looking for a calculator that's simple to operate and perfect for what you want it to do, think two letters, T.I. — and visit your Texas Instruments dealer.

What could be simpler?
