

I would be very surprised if ~~the~~ the other
 soldier was driver. I already said I was doubting myself
 on the identity parade. I don't know what I had to
 drink, it was brown, I don't remember the name. It seemed
 to be strong. It did not make me drunk. I am not used
 to drinking. First the driver came into the house, then
 the other one. I do not remember saying that two
 Canadian soldiers drove into the lane in a ~~jet~~ ^{jet} jeep and
 came into the house on the night of 6 June. I don't know
 anything that happened after the accident. I don't know
 why I only remember what I want to remember.

The beam - I saw the first man when he stopped in
 front of the house.

Jeep - I don't know how fast the jeep was going. I
 was not frightened. I had not rode in a jeep
 before. The jeep was on the right side of the road
 before the accident. I was watching ahead. I did not
 see what we ran into.
