SIR W. ROBERTSON NICOLL in *The British Weekly*

"I am anxious to call special attention to 'Sapper,' the author of two shilling volumes—the first, 'Sergeant Michael Cassidy, R.E.,' and the second, 'The Lieutenant and Others.' There is a touch of genius, and more than a touch, in 'Sapper.' . . . Altogether remarkable, and indeed wonderful books—to be read by all who are fain to understand."

Daily Telegraph

"'Sapper' may go on writing war stories until, like Lord Kitchener, another sapper, he rises to the rank of Field Marshal; he will never sate us. Already he is far and away the most convincing historian of the war; his glimpses of khaki life, revealed in the guise of fiction, convey more to the layman's mind than all the military despatches and all the eye-witnessed documents ever issued. In the two volumes, 'Sergeant Michael Cassidy, R.E.,' and 'The Lieutenant,' there are forty separate stories. All will draw either laughter or tears, for each has a unique dramatic touch, supported by a rollicking humour or an agonising pathos. . . . The stories must be read, every word of them, for their rich and intoxicating flavour to be appreciated. Soldier and civilian alike will hail 'Sapper' as a benefactor of mankind."

JAMES DOUGLAS in *The Star*

"Every writer who looks at war with a fresh gaze is worth a lot to us in our conflict against the narcotic of custom. Such a writer is 'Sapper.' . . . I rate the stories of 'Sapper' very high. . . . They are something far more terrible than anything Kipling or Stephen Crane or Tolstoy or Zola ever imagined. There is a dreadful black passion in them—all the blacker and all the more dreadful because it is illumined by flashes of humour."

Daily Mail

"Delightful. . . . These sketches glow with the 'atmosphere over yonder.' . . . Every phase of life at the front is touched by this easy-flowing pen. . . . He has a delicate vein of grim description which brings the reality of war home to the reader without a surplus of lurid and revolting details. . . . 'Sapper's' humour is of the richest kind, and he has not lost the rollicking rejoicing in life that he revealed in 'Cassidy.' The adventures of 'Ebenezer the Goat' are glorious."

Times

"If anyone at home wants to realise what other people are enduring for him abroad, if it be only the cold and the wet and the mud, here is the chance for him."
