FULLNESS OF OUR HARVESTS

Rev. Dr. Talmage, in an Eloquent Discourse. Stirs the Hearts of His Hearers te Joyful Thanksgiving by Recounting the Mercies Vouchsafed to Them by an All-Wise Creator.

Entered according to Act of Parliament of Can-ada, in the year 1901, by William Baily, of To-ronto, at the Dep's of Agriculture, Ottawa.

Washington, Nov. 24.-This discourse of Dr. Talmage is a national congratulation over the achievements of brain and hand during the past twelve months. The texts are I Corinthians ix, 10, "He weak urinary organs of children and enable them to retain their water naturally.

It is the Thanksgiving table of the nation. They will come from the east and the west and the north and the south and sit at it.

Welcome, Thanksgiving day! Whatever we may think of New England theology, we all like New England Thanksgiving day. What means the steady rush to the depots and the long rail trains darting their lanterns along the tracks of the Boston and Lowell, the Georgia Central, the Chicago Great West-ern, the St. Paul and Duluth and the Southern railway? Ask the happy group in the New England farm house; ask the villagers, whose song of praise in the morning will come over the Berkshire hills; ask all the plantations of the south which have adopted the New England custom of setting apart a day of thanksgiving. Oh, it is a great day of national festivity! Clap your hands, ye people, and shout aloud for joy! Through the organ pipes let there come down the thunder of a nation's rejoicing! Blow the cornet! Wave the palm branches! "Oh, that men would praise the Lord for His goodness

and for His wonderful works to the children of men!" Things have marvelously changed. Time was when the stern edict of Governments forbage religious . assemblages. Those who dared to be Sold by J. W. McLaren, Chatham.

I do not wonder that the Japanese and the Chinese and the Phoenicians so particularly extolled husbandry or that Cincinnatus went from the consulship to the plow or that Noah was a farmer before he became a shipbuilder or that Elisha was in the field plowing with twelve yoke of oxen when the mantle fell on him or that the Egyptians in their paganism worshiped the ox as a tiller,

Mr. Coderee Wants Everyons to Know his story He Had a Very Bad Case of Dyspersis, and odd, Dyspepsia Tabi te Cured H.m. After Everything else had Falled-H s Festimonial Letter.

Everybody in St. Jacques, Quebec, knows Ademard Coderre. He has given for publication the following letter-

to the public, so that all who suffer from that malady may find the only remedy that will cure it. Please tell all the people that Dodd's Dyspepsia Tablets cured me."

It is not often that any remedy receives such very high and unqualified commendation as Mr. Coderre gives to Dodd's Dyspepsia Tablets. There

can be nothing plainer than his straightforward statement of the facts of his case and its cure.

No one in St. Jacques doubts Mr Coderre's truthfulness, and no one who hears him speak of Dodd's Dys-pepsia Tablets can doubt his sincerity. The earnestness of the statements made by the friends of Dodd's Dyspepsia Tablets, is the distinguishing feature of their testimonials.

Almost everyone refers to the fact hat they have tried other treatments without success, and all manifest a desire to impress upon other sufferers, the fact that Dodd's Dyspepsia Tablets are not as other medicines are, but will instantly relieve and permanently cure all stomach trouble. Dodd's Dyspepsia Tablets is an honest remedy, endorsed heartily by honest people. They are no experiment, but a

Parts of the country, under dustrious tillage, bave become an Eden of fruitfulness, in which religion stands as the tree of life educational advantages as the of knowledge of good and evil, and one of them forbidden. We are ourselves surrounded by well cultured farms. They were worked by your fathers, and perhaps your mothers helped spread the hay in the field. On their headstones are the names bear. and the pines of Oregon, that has not sometimes shown its natural and total depravity. The thorn and thistle seem to have usurped the soil, and nothing but the rebellion of the plow can uproot the evil supremacy. But God is good. Now, if one of our seasons partially proves a failure the earth seems to repent of it the next summer in more muni-

ficent supply.

Praise God for the great harvests that have been reaped this last ! Some of them mined drought or insects or freshyear ! were not as bountiful as al, others far in excess of ets what have ever before been gathered, while higher prices will help make up for any decreased supply. Sure sign of agricultural prosperity have in the fact that cattle horses and sheep and swine and all farm animals have during the last two years increased in value. Twenty-million swine slaughtered this last year, and yet so many hogs left. Enormous paying off of farm mort-gages has spoiled the old speeches of the calamity howlers. If the anin their festivals presented their rejoicings before Ceres, the goddess of corn and tillage, shall we neglect to rejoice in the presence the great God now? From Atlantic to Pacific let the American nation celebrate the victories of the plow. I come next to speak of the con-

quests of the American hammer. Its iron arm has fought its way down from the beginning to the present. Under its swing the city of Enoch rose, and the foundry of Tubal Cain resounded, and the ark floated on the deluge. At its clang ancient temples spread their magnificence and chariots rushed out fit for the bat-Its iron fist smote the marble of Paros, and it rose in sculptured Minervas and struck the Pentelican mines until from them a Parthenon was reared whiter than a palace of ice and pure as an angel's dream. Damascus and Jerusalem and Rome and Venice and Paris and London and Philadelphia and New York and Washington are but the long pro-tracted echoes of the hammer. Under hammer .everywhere dwellings have gone up, ornate and luxurious Schoolhouses, lyce ims, hospitals and asylums have added additional glory to the enterprise as well as the bene-ficence of the American people. Vast public works have been constructed, oridges have been built over rivers and tunnels dug under mountains and churches of matchless beauty have gone up for him who had not where to lay his head, and the old theory is exploded that because Christ was born in a manger we must always worship him in a barn.

Railroads of fabulous length have been completed, over which western trains rush past the swift footed deer, making the frightened birds to dart into the heavens at the cough of the smoke pipes and the savage yell of the steam whistle. In hot. haste our national industry advances, her breath the air of 10,000 furnaces, her song the voice of uncounted factories, her footstep the flash of wheel buckets and the tread of the shaft and the stamp of foun-dries. Talk about antediluvian longevity! I think the average of human life is more now than it ever Through mechanical facilities men work so much faster and accomplish so much more in a lifetime that a man can afford to die now at forty years as well as one of old at 900. I think the average of human life in point of accomplishment is now equivalent to about 800 years, as near as I can calculate. In all our occupations and professions we feel the effect of a crippled or enlarged mechanical enterprise. We all have stock in every house that is builded and in every public conveyance that is constructed and in every ship that is sailed. When we see the hardworking men of the land living in comfortable abodes, with luxuries upon their tables that once even kings could not afford, having the advantage of thorough education, of accomplishment and art, we are all ready at this season to unite with them in praise to God for his good-

Now I come to speak of the conquests of the pen. This is the symbol of all intellectuality. The painter's pencil and the sculptor's chisel and the philosopher's laboratory are all brothers to the pen, and therefore this may be used as a symbol of intellectual advancement. There are those disposed to decry everything American. Having seen Melrose and Glastonbury by moonlight, they never beheld among us an impressive structure, or, having strolled through the picture galleries of the Louvre and the Luxembourg, they are disgusted with our academies of art, It makes me sick to hear these people who have been to Europe come home talking with a foreign accent and aping foreign customs and talk ing of moonlight on castles by the I think the biggest fool in the country is the traveled fool.

-But, considering the youth of our nation and the fact that comparatively few persons devote themselves entirely to literature, I think we have great reason to thank God for the progress of our American litera-ture. As historians have we not had in the past such men as Bancroft and Prescott, as essayists Irving and Emerson, as jurists Story and Marshall and Kent, as theologians Edwards and Hodge, as poets Pierreand Sprague and Longfellow Bryant, as sculptors Powers and Crawford and Palmer, as painters such men as West and Cole and Inman and Kensett? And among the living Americans what galaxies of intellectual splendor and power! Edward Eggleston and Will Carleton and Mark Twain and John Kendrick Bangs and Marion Harland and Margaret Sangster and Stockton and Churchill and Hopkinson Smith and Irving Bacheller and Julia Ward Howe and Amelia Barr and Brander Matthews and Thomas Nelson Page and Elizabeth Stuart Phelps and William Dean Howells and a score of others, some of them fixed stars and

some meteors.

As the pen has advanced our coland universities and observaleges tories have followed the waving of kinds — that on foot and that on the wing By the former I mean the firm and substantial works which will go down through the centuries. When, on the other hand, I speak of literature on the wing, I the newspapers of the land

How things have marvelously changed! We used to cry because we had to go to school. Now children cry if they cannot go. Many of them can intelligently discuss tical topics long before they seen a ballot box or, teased by some poetic muse, can compose articles for the newspapers. Philosophy and astronomy and chemistry have been so improved that he must be a genius at dullness who knows nothing about them. On one shelf of a poor man's library is more practical knowledge than in the 400,000 volumes of ancient Alexandria, and education is possible for the most indigent, no legislature or congress for the last fifty years has assembled which has not had in it rail splitters and farmers and drovers or men who have been accustomed to toiling with the hand and the foot.

The grain fields have passed their harvests above the veto of drought and deluge. The freight cars are not large enough to bring down the grain to the seaboard. The canal boats are crowded with breadstuffs. Hark to the rushing of the wheat through the great Chicago corn ele-vators! Hark to the rolling of the hogsheads of the Cincinnati pork packers! Enough to eat, and at low prices; enough to wear, and of home manufacture. If some have and some have not, then may God help those who have to hand over to those who have not! Clear the track for the rail trains that rush on bringing the wheat and the cotton and the rice and the barley and the oats and the hops and the lumber and the leather and everything for man and everything for beast! Lift up your eyes, a nation of God's right hand, at the glorious prospects! Build larger your barns

Woe to us for the wine vats if drunkenness wallows in them! to us for the harvests if greed sickles them! Woe to us for the merchandise if avarice swallows it! Wop to us for the cities if misrule walks them! Woe to the land if God defying crime debauches it! Our only safety is in more Bibles, more churches, more free schools, good men and more good women, more consecrated printing presses more of the glorious gospel of the Son of God, which will yet extirpate all wrongs and introduce

Grand-Niece of Ex-President James K. Polk, Writes to Mrs. Pinkham.

Thankful for Health Restored by Lydia E. Pinkham's Vegetable Compound.

Did you ever stop to realize what keen satisfaction one experiences when we find that some kind and helpful thing we have done for some one else has been sincerely appreciated! At such times, how truly we understand the expression "it is more blessed to give than to receive."

Think, therefore, of the pleasure and genuine satisfaction Mrs. Pinkham experiences when such letters come to her as the one from Mrs. Roser which we are herewith permitted to publish.

Think what it means to her; it means first, that one more lovely woman has been relieved from sickness and distress through her assistance; it means second, that this woman who is cured is so grateful that she wants other women in the land to know of it; and it means lastly that Mrs. Pinkham's claims for Lydia E. Pinkham's Vegetable Compound are fully substantiated by testimony of such high character that every woman who reads this must believe and hope.

To be appreciated is a great pleasure, but to bring peace and happiness to the suffering is heavenly. Such is the mission of Mrs. Pinkham, and such a letter as the following proves her success!

MRS. IDA L. ROSER, 326 E. 18th Ave., Denver, Col. Grand-niece of ex-President James K. Polk, and Assistant Grand Secretary of Colorado, Wyoming, and New Mexico Independent Order of Good Templars.

DEAR MRS. PINKHAM - I have been married for nearly two years, and so far have not been blessed with a child. I have, however, suffered with a complication of female troubles and painful menstruation, until very recently.

"The value of Lydia E. Pinkham's Vegetable Compound was called to my attention by an intimate friend, whose life had simply been a torture with inflammation and ulceration, and a few bottles of your Compound cured her; she can hardly believe it herself today, she enjoys such blessed health. I took four bottles of your Compound and consider myself cured. I am once more in fine health and spirits; my domestic and official duties all seem easy now, for I feel so strong I can do three times what I used to do. You have a host of friends in Denver, and among the best count, Yours very gratefully, —MRS. IDA L. ROSER, 326 18th Ave., Denver, Col."

When a medicine has been successful in restoring to health so many women whose testimony is so unquestionable, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

S5000 REWARD. — We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find that the above testimonis letter is not genuine, or was published before obtaining the viter's special permission.

Lydia E. Pinkham Medicine Co., Lynn, Mass.

One who can speak as generously and as justly of his enemy as of his friend has entered very deeply and vitally into the spirit of Christ.
