HOW HETTY GREEN THE RICHEST WOMAN IN THE WORLD REGARDS A BUSINESS TRAINING.

(When I say that all women should have a business training, I mean women of all classes—poor, middling, rich and well-to-do. The assertion does not apply merely to those whose circumstances seem to indicate that they may one day be compelled to make their own way in the world. Every class of girl will make a better and happier woman if she has a business education, whether her womanhood sees her a maid, wife, mother or widow. I have heard it stated that for a woman to get a business training is to crush all the poetry out of her life. This is sheer nonsense. A woman with a knowledge of business appreciates music, painting and the other finer things of life just as much as the woman who is ignorant of all business matters; and the former has the decided advantage, in that she is able to turn her knowledge of business into securing more opportunities of seeing and appreciating these fine things. She can get more tickets to concerts and art galleries, she will have more money to become the possessor of more beautiful things than a woman without business training, and a woman with a sure income before her feels a great deal more like studying poetry than a woman who is compelled to worry about her future bread and butter. I have been a business woman for fifty years, and am just as fond of pictures and music as any one of my age. A business training is but one more accomplishment added to the list which the young woman of to-day is expected to acquire, and it is absurd to say that its possession will interfere with the proper enjoyment of any of the other accomplishments. Then every housekeeper is a business woman, the degree of her excellence as a housekeeper being the degree of the business training she was provided with before she entered upon her domestic duties. The successful and economical management of the house calls for the same kind of ability and judgment that is necessary to the successful management of a commercial enterprise. — Hetty Green in the Woman's Home Companion.

"The doctor can have his choice—just he must act quickly."

In event of the White-Mussen race being pulled off in the immediate future, the friends of Dr. Russell purpose challenging the winner on his behalf.

School Shoes

Even among shoemakers there are good, bad and worse, and of course their shoes are ditto. Some use poor leather, and others do not seem to get the right knack of putting it together—but they ask just as much for them as "the other man."

We have been in the shoe business more than 25 years, and know "who is who" among the shoe manufacturers.

If the shoes you have been buying are not satisfactory we can help you cut off some shoe expense. Children's shoes and Boys and Girl's school shoes get more space and attention here than any place in the city, and less cost to you.
