

IX. SEPTEMBER hath XXX Days. 1795.

HARVEST.

THE maiden star now rules  
the varied year,  
o'er the fields the golden  
sheaves appear;  
Chaste-Luna gently darts a lan-  
guid ray,  
To light the sun-burnt reaper  
on his way,  
As to his lowly cot he speeds  
with joy,

No goading cares his happy  
hours annoy;  
Whilst he with pleasure views  
his rising race,  
Who round him cling to snatch  
the fond embrace;  
With innocence their little-foes  
impart,  
Unheedful of the polish'd rules  
of art:
