

MARKET REVIEW AND FORECAST

TORONTO, May 6.—With the continued warm, dry weather of the previous week, seedling corn, wheat, and oats to a much earlier completion than usual. The larger portion of the new crop is now in Ontario. The warm showers, which fell toward the end of the week, proved very valuable in promoting growth and unless a cold period sets in this month, prospects are very favorable for a good crop this year. The winter wheat crop in the United States is reported as good, although authorities claim that the Russian fry is making its appearance. No indications on wheat dropped slightly during the week, also on coarse grains. Live stock have remained quiet and were firm at the end of the week.

WHEAT

It is now reported that the Russian crop of last year was over-estimated, and it is believed that with the opening of the Durumales before harvest, the shipment of breadstuffs would not materially affect quotations; at least all holders on this side seem optimistic. Quotations: No. 1 northern, \$2.70; No. 2, \$2.60; No. 3, \$2.50 (Ontario), \$2.40 to \$2.57.

COARSE GRAINS

It is anticipated that more oats and barley will be sown in Eastern Canada this spring than in any number of years and from all appearances there will be a strong demand for them. Quotations on oats are slightly higher this week. As follows: Oats, C.W. No. 2, 69¢; No. 3, 67¢; feed, 65¢; oatmeal, 85¢. Corn, \$1.50 to \$1.60; buckwheat, 80¢ to 85¢; rye, \$1.60 to \$1.75; mauling barley, 75¢ to 80¢. Montreal quotation, Oats, C.W. No. 2, 67¢; No. 3, 65¢; feed, 63¢; oatmeal, 80¢ to 85¢; barley, mauling, 80¢ to 85¢.

MILL FEEDS

Quotations on mill feeds remain unchanged from last week: Bran, \$2 to \$2.10; shorts, \$2 to \$2.10; middlings, \$3 to \$3.10; feed flour, \$3.20 to \$3.30; Montreal, \$3 to \$3.10; shorts, \$2 to \$2.10; middlings, \$3 to \$3.10; meal, \$3 to \$3.10.

THE SITUATION

The situation locally is unchanged. The quality of hides now coming forward is better than in the winter. The market is quiet, with a few sales. The price quoted recently have been lower on account of the poor quality of the hides. As follows: Oats, C.W. No. 2, 69¢; No. 3, 67¢; feed, 65¢; oatmeal, 85¢. Corn, \$1.50 to \$1.60; buckwheat, 80¢ to 85¢; rye, \$1.60 to \$1.75; mauling barley, 75¢ to 80¢. Montreal quotation, Oats, C.W. No. 2, 67¢; No. 3, 65¢; feed, 63¢; oatmeal, 80¢ to 85¢; barley, mauling, 80¢ to 85¢.
