

SYDNEY BASIC SLAG

The Ideal Fertilizer for Fall Wheat

Our general salesman has now started booking orders for the fall wheat trade. If you have used fertilizer in the past you know it pays, but Sydney Basic Slag will yield you a bigger profit than anything you have yet used. It costs \$20 per ton for cash. Compare this with what you have been paying.

If we are not represented in your district will you take our agency, or perhaps you could recommend us a man? In any case drop us a line and let our general salesman give you a call and tell you about Sydney Basic Slag. He is a fertilizer expert, and we are sure you will find a conversation with him profitable.

Interesting descriptive literature will be sent on application.

McCormick

THE McCORMICK LINE

All Steel Side Delivery Rakes and Hay Loaders

The side delivery rakes and hay loaders you buy from the McCormick local agent this season will be all steel machines. The weight is less, the draft is lighter, the machines stronger. They will do more work and last longer because of the all steel construction.

See them. Ask the local agent to show you the all steel side delivery rakes. Ask him to explain how they handle the hay without threshing off leaves and blossoms, how the cylinders can be adjusted to pick up all the hay, whether the crop is light or heavy.

The steel frame loader carries the hay up to the top of a load ten feet from the ground. There are no gears, no waste of power. Two horses can handle this loader easily. It is easy to un hitch—just pull a rope from the top of the load and drive off. The forecarriage loops it upright and makes it easy to hitch to the next wagon. Don't fail to see it.

McCORMICK mowers, dump rakes, side delivery rakes, hay loaders—that's the line to buy. See the McCORMICK local agent or write us at the nearest branch house for full information.
