DO IT NOW.

The head of a large business house bought a number of "Do It Now" signs and hung them up around his offices. They were effective beyond expectation and yet it can hardly be said that they worked well. When, after the first few days, the business man counted up the results he found that the cashier had bolted with \$25,000, the head bookkeeper had eloped with the typist, three clerks have asked for a rise in salary, and the office boy has set out to become a highwayman.—Boston Globe.

NEW SECURITIES AGAIN.

Issue of new securities at London in March increased £14,600,000, or 80 per cent over March, 1913, and £20,300,000, or 170 per cent over March, 1912. It was not a high record for March, however, for last month's £32,866,000 issues compared with £38,010,000 in the same month of 1910, and with £38,270,000 in 1909. For the year to date, the total also falls nearly £10,000,000 short of 1910.

WHERE SOME OF THE GOLD GOES.

At the close of March, according to the last detailed report available, gold actually in the Imperial Bank of Russia was \$781,480,000, as compared with \$757,340,000 at the opening of the year and \$678,510,000 at the close of March 1913. Never before did the Russian Bank hold so much gold as at present. It has increased its gold reserve during practically every week of the present calendar year.

WHAT CITY PLANNING IS.

A Definition by the Chief Engineer of the Board of Estimate and Apportionment of the City of New York.

City planning is simply the exercise of such foresight as will permit the orderly and slightly development of a city and its environs along rational lines with proper regard for health, amenity and convenience, and also for commercial and industrial advancement.

STEEL IN THE SOUTH.

The future prosperity of the South depends as much upon its steel as upon its cotton. Both agriculture and manufacturing create wealth, and it is production, by farm or manufacture, that increases the world's resources. Retailing or jobbing create nothing but service. They are necessary functions, of course, but add nothing material to the wealth of a community.

The South does not want to spend its entire energies earning a living by jobbing on a commission basis the goods manufactured in the North. The South prefers to give the North a commission for selling articles manufactured in the South.—(Manufacturers' Record.)

AN EARLY AP

(Special Correspondent)

Edmonton, Alberta, April 24.—Among the archives of the Government of Alberta, which show the records, which show the native of Quebec, a gratiation agent for the Lakes. He was found to have travelled extensively in the province of Alberta and Saskatchewan, and was the first white man to visit the province.

The report made by the man, who had escaped from a camp, and had been found by a north shore of Lake.

"The country was so full that it grieved to discover such an escape because the seas against one by change of mind. Contrawise so delicious and useful of things, that they were wise in their ways. What pleasure in and poverty!"

Radisson returned with his company with his brother, visiting his home together they explored of Lake Winnipeg, a prophecy regarding the world after a lapse of time.

Anthony Hendry, in 1754 as an emissary to solicit the traders of the prairie and Fort Churchill.

Hendry came to the Red Deer river, and of the Canadian history spring down the river and the white man of the world visited this province.

However, Hendry, the western count Henry Kelsey, according to the left York Factor, French traders had two years in travel of Manitoba and the journey is laid the records do not.

"Radisson was on the possibility were then the things," Mr. Blundell, a portion of the history of the North captured by the turned to the west, after passing Quebec."
