Apartment Houses Are Going Up Rapidly, Rents Are Low and Young Married Couples Finds it an Ideal Spot.

Now that the street railway service to Notre Dame de Grace is being im proved every day this part of the city is becoming even more popular in

a residential way.

Mr. G. W. Badgley, the prominent local real estate broker, is a great believer in the future of Notre Dame de Grace and in a recent interview with The Journal of Commerce laid especial importance to the building activities which were some on there tivities which were going on there.

Apartment houses of the most modern construction have been going up at a rapid rate, during the past year and several more are in the course of construction.

and several more are in the course of construction.

Many of these apartments which are rentling at from \$35 to \$50 a month are equal to apartments, in the city renting at doube this figure.

The prejudice which for a long time deterred young married couples from settling anywhere but in the centre of the city, seems to have been dispelled, and now Norte Dame de Grace is fairly populated with newly-weds. Improvements, such as the widening of streets and repairing of roads, are go fisteness and repairing of roads, are former on all the time, and there is a great likelihood of rents becoming appreciably higher in a short time.

E. G. M. Cape Says Masters and Bricklayers Have Already Come To a Suitable Arrangement.

"There will be no strike," said Mr. E. G. M. Cape last night when asked as to the truth of published assertions it hat the bricklayers would strike if their demands were not coneeded "There will be no strike because the masters and bricklayers have come to an arrangement which will be ratified by both parties."

On further inquiry, Mr. Cape said that the arrangement that will now obtain is that the bricklayers will continue work on the same terms and the same slary for a year. In the second year they will be given 60 cents an hour for a nine-hour day in the summer months, and in the winter the same for seven or eight or whatever hours a day work will be possible. Beyond that year nothing has been deeld-ed, dirther difficulties to be submitted to arbitration.

THROWING MATCHES

Prompt action of Dr. J. E. Thomas, of 139 Shuter street, was responsible yesterday afternoon in saving the life yesterday afternoon in saving the life of eight-year-old Fleurette Fortin, daughter of Edouard Fortin, of 370 Reaudy street, whose clothing was set affame by a match thrown upon her by one of a trio of boys who had passed her twice as she sat upon a door step and each time had thrown a door step and each time had thrown a fighted was match at the little girl, the first one falling to strike her. The physician pulled off his coat and wrapped it about the child, saving her from any more serious consequences than a slight scorching, while the hops ran away.
