

There is no good reason why you should wait till Spring before getting a

DE LAVAL CREAM SEPARATOR

ON THE CONTRARY, YOU may buy a De Laval NOW and save half its cost by May. If, for any reason, you can't conveniently pay cash you can buy a De Laval on such liberal terms that it will actually pay for itself.

AS TO YOUR NEED OF A separator, if you have the milk of even a single cow to cream you are wasting quantity and quality of product every day you go without one. This waste is usually greatest in cold weather and with cows old in lactation, and it counts most, of course, when butter prices are high.

THEN WITH A SEPARATOR there is always the sweet, warm skim milk and saving of time and labor in addition.

WHEN IT COMES TO A choice of separators, De Laval superiority is now universally recognized. Those who "know" buy the De Laval to begin with. Those who don't "know" replace their other separator with a De Laval later—thousands of users do that every year. If you already have some other machine the sooner you exchange it for a De Laval the better.

WHY NOT START 1915 right in dairying? SEE and TRY a DE LAVAL NOW, when you have plenty of time to investigate thoroughly. The nearest DE LAVAL agent will be glad to set up a machine for you and give you a free trial.

Papec Pneumatic Ensilage Cutters

"The Wonderful Papec"
Elevate silage to any height at 600 to 800 R.P.M. with one fifth less power than any other blower cutter. This is due to the fact that the Papec first uses centrifugal force, then with its x-taps moving the cut silage in a steady stream—not in bunches—the elevating is accomplished under high pressure through a small pipe. Iron and semi-steel construction easy to operate. Built in sizes for any power from 4 H.P. up. Investigate the Papec now and save time, annoyance and money at cutting time. Write today for our new illustrated circular. It is FREE.

THE PAPEC

IT THROWS AND BLOWS
