

Send your Messages by Telephone.

To-day the farmer's life is a comparatively easy one, made so by modern improvements in agricultural implements.

Take, for instance, binders, threshing machines and other devices, until they were invented farmers did manage to till the soil by hard laborious work.

But,—how many farmers could get along without them to-day?

The same applies to telephones in rural districts. Until you actually have a telephone in your house, you can't realize how absolutely indispensable it is.

Where formerly a farmer had to deliver messages or errands in person, he is now enabled to communicate these over the telephone.

Instead of losing valuable time going on errands he explains what he wants over the telephone and sends his boy along.

Have you a telephone in your house, one that you can depend upon to deliver your messages properly?

If you haven't, write us and learn how cheaply and easily a telephone service can be placed in your home.

"LEADER"

Fence Lock

The Double Grip Gives Double Strength

A brand new No. 9 hard steel wire fence with a lock doubly as strong as any previously devised for a woven fence—this is the "Leader" fence.

The "Leader" lock has a double grip (usual locks have but a single grip). The double grip makes doubly as stiff and strong a fence—the wires cannot be moved up, down or sideways under the most severe strain to which a fence could be put. The "Leader" is the leading fence investment. Buy it.
