

Want, Sale and Exchange

All advertisements under this heading will be charged for at the rate of 5c. per word per insertion; six insertions given for the price of five.

This department will be made a special feature of *The Guide* from now on, and is designed to better serve the interests of our subscribers by furnishing space where they may make known their wants, and get in touch with prospective buyers at a nominal cost. Under this heading will be inserted all miscellaneous advertising, such as Farms For Sale or Wanted, Machinery, Help Wanted, Articles Wanted and For Sale, Auction Sales, etc.

In this column, as in every part of *The Guide*, any advertisements of a false or questionable character will not be accepted, but the space will be confined exclusively to the use of legitimate advertisers who seek help, or wish to buy, sell, or exchange stock, machinery, etc. A condensed advertisement in *The Grain Growers' Guide* should be a business getter for you. Try it, and be convinced.

ANNOUNCEMENT

THE GUIDE is the only paper in Western Canada that is taking the part of the farmers in the live questions of the day. Thus it is the paper that is most vitally important to its readers. We hope that our readers will give us all the support in their power, and help us keep up the good work. To make a paper strong and prosperous we must have the support not only of the readers but also of the advertisers. We have told our readers before that the dollar, which is the subscription price, does not pay one third of the cost of producing *The Guide*. Every strong supporter of *The Guide* can help to make it a great paper by doing his business, as much as possible, through *The Guide*. If each farmer, who really believes that *The Guide* is his sincere friend, will do this, *The Guide* will soon out-distance every other paper in Western Canada. Make *The Guide* not only your newspaper but your market place as well. All of our readers who are stock breeders or have anything to sell should advertise their business in *The Guide*. Let every reader of *The Guide* lend a hand to help his own paper.

THE GRAIN GROWERS' GUIDE, Winnipeg

BREEDERS' DIRECTORY

Cards under this heading will be inserted weekly at the rate of \$4.00 per line per year. No card accepted for less than six months, or less space than two lines.

Under this heading should appear the names of every breeder of Live Stock in the West. Breeders and Breeders everywhere, as you are well aware, are constantly on the lookout for additions to their herds, or the exchange of some particular animal, and as *The Guide* is now recognized as the best market authority, and in every way the most reliable journal working in the interests of the West, nothing is more natural than for you to seek in its columns for the names of reliable men to deal with when buying stock.

Consider the smallness of the cost of carrying a card in this column compared with the results that are sure to follow, and make up your mind to send us your card today.

FARMER WANTED

Immediately, with suitable outfit, to work a good improved farm on shares in the Swan River district. Apply to Harper & McCreary, Ltd., 412-441 Somerset Block, Winnipeg.

You Say

I want an engine that won't shirk work; that will stand-up-to-the-grind day after day without costing me a fortune for repairs, or hiring an expert to keep it going. I want an engine that will do my breaking and plowing deep and cheap—that will draw harrows, discs, drills and binders just as well as horses do and without injuriously packing the soil—that will drive my complete separator continuously, steadily, safely. In short, I want an all purpose Farm Tractor—economical in fuel, light in weight, but strong in construction—one that delivers the necessary power for any work—an engine that will always produce Maximum Results at Minimum Expense.

We Say

Buy the Self-steering Gas Traction Engine—the engine that won the Gold Medal at the Great Winnipeg Plowing Contest. Its record in every branch of farm work shows it to be the most economical—most reliable—the simplest—most thoroughly constructed of farm tractors. Its magnificent success at the Winnipeg Plowing Contest, the severest tests before the most competent judges in America—proves our claims. And our claims are backed by our guarantee.

They Say

We want you to note carefully what some users say about the

GAS TRACTION ENGINE

"we plowed 850 acres this fall—the engine worked perfectly, pulling 10 plows in hard ground."

"the first gas engine ever built—it doesn't take three or four experts to run a Gas Traction Engine"

"We threshed 56 days this fall—70000 bushels—the engine ran perfectly."

"the self-steering device is a wonder and is perfect in every way. I wouldn't have an engine without it."

"the engine works to perfection and is very economical of fuel."

"is so good I want another just like it."

WHAT WE GUARANTEE

We not only guarantee the horse-power—the material and workmanship—but the amount of fuel it will use per acre—the number of breaking plows it will pull—the number of discs it will pull and the size separator it will steadily and continuously drive. If you are satisfied with that kind of guarantee write to us to-day—get an engine, put it in your field and apply the test.

Send for our book "The Passing of the Horse."

Gas Traction Company Ltd.
