Montreal, 11th August, 1919.

A Port Arthur, Ont., press dispatch says that the Great Lakes Wireless Association, has been formed among the operators on land and ship stations operated by the Marconi Wireless Telegraph Co. of Canada, under the Naval Service Department. The operators, the majority of whom are being paid \$45 and \$50 a month on ships, and the same with a living allowance of \$25 on land stations, have forwarded a request to the company for \$75 a month, with a \$10 increase yearly, \$30 a month living allowance and \$15 a month living allowance for officers in charge of land stations. Station officers usually obtain house, fuel and light.

In dealing with the City of Montreal's application for an order directing the C.P.R. Telegraphs, and the Great North Western Telegraph Co. to place their wires underground along certain streets, the Chief Railway Commissioner, Board of Railway Commissioners, said on Aug. 13: "I am of the opinion that in all cases where city development has reached such a stage as the streets in question, to render it reasonable and advisable that the improvement should be made and all city wires placed underground, the board should make an order requiring the underground construction to be made and that the cost of this underground construction should be placed upon the company, in cases where it does the necessary work, or, in cases when it is done by the municipality and ducts rented from the municipality, on such terms or rental as may be agreed upon between the parties."
