Just a Glimpse Into Fashion's Mirror

What is Found in New Wearables and Styles for the Autumn Season of 1914

The Suits

The wide diversity of styles prevalent this fall allows milady a very great scope in the selection of her New Fall Suit. Of course there are the fads, but here the fads do not hold as much sway as in other places, consequently a great number of the "latest styles" never see the light of day here.

The new Basque and the Pleated Skirt are bound to meet with much favor, although they were looked upon earlier with horror. Some very pretty models have later been produced which have entirely changed that sentiment. The The suit skirts are invariably 2-pieced with the long tunic. The coats long with extra long backs.

The Coats

When one looks over the many many coat styles they cannot help but marvel at their volume, and such pretty ones too. The Balmacaan and the Cape, to mention but two, with a wealth of variety of buttons, are becoming most popular. Most becoming to the styles are the cloths which lend themselves most gracefully to the various adaptations, the pile fabrics and large plaids being the more popular.

This is the first of a series of style observations. Watch this corner for more information of what is going to be worn this fall and winter.

SUMMONS OF DEATH REMOVES ENGINEER

The Late Roderick Parke Contributed Much to Scientific Progress in Ontario.

Roderick J. McD. Parke, a well-known electrical consulting engineer, died Tuesday, at his residence, 179 Cottenham street, after many weeks of illness. The late Mr. Parke was the designer of the first long distance transmission plant in Canada, viz., from the Ragged Rapids, on the Severn River, to Orillia. Many towns in Ontario are now operating light and power from his plans. He was chosen by Mayor Drouhart to report upon the cost of distributing electricity throughout the city. This report was used in part when the design now in operation was being prepared. As Consulting Engineer for the Dominion Government he prepared plans and supervised the lighting of the Welland Canal from end to end. He went to Europe and induced the British Aluminum Company, Limited, to establish an agency in Canada, and under the name of Parke & Leith, developed such a large business for them as to necessitate his organization of an aluminum wire-drawing plant to supply order.

Card of Thanks

Mrs. Charles Whelan desires to express on behalf of her brothers and herself, gratitude to the many friends who have by their sympathy and kindness assisted so much in their hour of sorrow in the death of their mother, the late Mrs. Anastasia McDonnell.

Market Notes.

George Smith of Holloway left some money with the police which had been paid him for some apples and potatoes, the buyer of which he had not found.

WOMEN'S LEAGUE PERFECTS PLANS

Immediate Emergency is Need of Red Cross Supplies.

The executive committee of the Toronto Women's Patriotic League have been holding daily meetings, and have decided on a plan of organization. The immediate emergency is that a large number of Red Cross supplies for sick and wounded soldiers must be ready within a fortnight's time. It is requested that those persons who are already engaged in Red Cross work throughout the city should communicate with the secretaries of the Toronto Women's Patriotic League, giving details of the work they are doing. By this means overlapping will be avoided. It was resolved at the initial meeting of the association that all workers in Toronto should be members of the league.

Seas de Excursions at Very Low Fares, Aug 28, 29, 30.

OBITUARY

Mrs. Ernest A. Blaind.

After an illness of some months which she bore with great patience, Mrs. Ernest A. Blaind passed away at midnight Saturday at her summer cottage, on the front of Sidney, whether she had gone on account of her condition of health. She had previously sought restoration by entering a sanatorium west of Toronto, but without favorable results.

The late Mrs. Blaind, whose maiden name was Miss Bernice Stewart, was twenty-five years of age and was a daughter of Mr. Colin Stewart of this city. In religion she was a Presbyterian. Her happy personality made many friends for her, and they deeply regret her early death.

Red Cross Committee Organised

The Red Cross and Supply Committee of the Belleville Patriotic Association met last night in the Lecture Room of the Armouries after the regular meeting of the Association.

The following officers were elected: President—Mrs. S. S. Lozier, Vice-President—Mrs. (Dr.) MacColl, Vice-President—Mrs. Col. Ponton, Vice-President—Mrs. J. P. Willis, Secretary—Mrs. W. C. Mikel, Treasurer—Mrs. Jas. St. Charles. Executive Committee is to consist of the officers and three ladies from each of the different women's organizations of the city.

LAST CONTINGENT FROM KINGSTON

Amid the cheers of thousands of citizens the Grand Trunk train carrying the 5th Field battery and the fourteen volunteers from the 14th regiment left the Grand Trunk station on Friday afternoon at 4.20 o'clock for Valcartier.

The sight of the wives, mothers, fathers and friends of the men, who left for the front, as they stood on the station platform will long be remembered by those who gathered at the station. Many of the women crying while others were doing their best to keep back the tears that seemed determined to come.

"My only regret is that I am not going with you," was the statement of Col. Rathbun when addressing the volunteers. He urged on the men the necessity of doing as they were told and always obey their superior officers no matter how hard the task might be.

A number of the men who are attached to the battery came from Brockville and Belleville.

Some difficulty has been experienced in purchasing enough horses. Although Major Beckett has been purchasing horses for the past week he has been unable to get enough and for that reason he will continue to make purchases for some time. He will go as far as Valcartier but will immediately return to the city for the purpose of getting horses.

It was expected on Friday morning that the total number to leave the city would be about two hundred.

BOOST BELLEVILLE FAIR OF 1914.

Every year since the organization of the Belleville Agricultural Society this association has endeavored to give a little more for the 25c than the year previous and all we are sure, will admit, they have succeeded and owing to the experience of past successes, this year the society has made a gigantic stride at an enormous expense in securing for the 3 days—7, 8 and 9th of September, the Wilson Bros. I.O.U. Ranch Wild West show from Muskogee, Oklahoma, U.S.A. This aggregation is headed by Mr. Homer S. Wilson, recognised as the champion roper and all-round cowboy of the world, and a company of true to life Oklahoma cowboys and also the youngest and most daring cowgirl known throughout the world.

Only roping horses and polo and running ponies especially adapted and selected to use in the various hazardous and thrilling feats of great skill and daring are used, while the cattle are of the long horned type, and always wild. The bucking horses and the bucking, riding and subduing contests are always important features of a wild west show. These "buckers" are all grain fed, full of life and fight and always buck. They are of the old famous Mexican outlaws and their descendants, from the can and Spanish bull rings. This herd was purchased direct from Senor Vachases, of Durango City, Old Mexico, in fact a reproduction is given of the much talked of stampedes as they are held in Pendleton, Ore., Cheyenne, Wyo., Calgary, Alta., Winnipeg, Man., and all of the skillful hair-raising feats of horsemanship, cowboyism, etc. that amazed the westerner will be performed at the Belleville Fair. The program of events is long and varied, taking about two hours and is worked in the center field and on the race track directly in front of the grandstand and between the heats of the races, which are not interfered with. The character of the entertainment furnished is high class, clean, startling and rapid fire, in every way a great big show for the fair admission of 25c. The weather never interfering with the exciting stunts following one another in rapid succession, whether rain or shine. As thousands flock to the stampedes held in other parts of the country the attendance at the Belleville Agricultural Society Exhibition this year should be the largest in its history, which has marked the engagement of this great west show in all the American cities the present season and also last year for it is an exciting wholesome sport, every number on the program a skillful thriller and each dangerous feat is bound to call forth the hearty approval and applause of the excited spectators.

This show is a feature of the Central Exposition at Ottawa and goes direct from Belleville to the capital to put on the same show at the same enormous cost. Two performances daily, afternoon and evening, program changed daily.

Buried in St. James.

The funeral of the late Mrs. Anastasia McDonnell took place this morning from the residence of her daughter, Mrs. Charles Whelan, Fort street, to St. Michael's church, where the Rev. Father Killen officiated at a solemn requiem mass in the presence of many mourners and friends. After mass the casket was removed to St. James Cemetery. The bearers were Messrs. Hurley, St. Charles, Dolan, McGurn, Cushing and Day.

The surviving members of the family are one daughter, Mrs. Charles Whelan, and two sons, Archibald McDonnell and Daniel McDonnell and DDr. J. J. Mcconnell of Colorado.

School Reopening.

The High and Public Schools of Belleville reopen tomorrow. The west side pupils will use for the first time their new building, Queen Mary School.

Child Passed Away.

The infant son of Mr. Edward Patterson, of Foxboro, died yesterday. The funeral took place this morning.
