CANADIAN AFFAIRS. (FROM OUR OWN CORRESPONDENT.)

TORONTO, July 5, 1850.

Nothing of much importance came before the Bouse last night.

In enswer to an inquiry of Mr. LaTerriere, Mr. Hincks stated, that it is the intention of the Government to include in the Estimates a certain sum to provide for the establishment of a School of Navigation at Queber.

In answer to an inquiry of Mr. Prince, Mr. Price stated, that the papers, vouchers, and other written documents belonging to the late Mr. J. M. Murchison, late of the City of Toronto, said to have been placed by him in the Secretary's Office, on the 18th January, 1841, could not be found, nor any record of them.

In answer to an inquiry of Mr. Laurin, Mr. Drummond said, it was not the intention of the Ministry to bring forward, during this Session, any measure for Indemnifying Jurors in Criminal cases, so far as to pay their expenses during the time they are obliged to attend Court, nor their travelling expenses.

About half past one o'clock this afternoon, the
large mass of rock known as Table Rock, gave
way and went tumbling into the river below.—
The mass carried away was about six rods in
width and twelve in length, and fortunately no Sumcient number of accessible Members.

The question now comes,—the Committee having so stallified itself, will the House of Assembly support the Government? It will—for it is contained as they have done the shading, tyrannical policy of the Government, thereby deceiving and betraying their constituents. The Globe has fold us that Mr. Lafontaine is the dictator of Cansda—bis the Ministry, in fact—and the majority of the Members are his very hamble and obsequious servants. Mr. Lafontaine opposed to Retrenchment, particularly in the matter of the Government of General's salary; he knows very well that Lord.
