A Lumberman's Opinion.

I was troubled with palpitation of the heart and sleeplessness," writes Mr. Wm. Pritchard, Lumber Inspector, Lanesville, N. S., "and used Dr. Chase's Nerve Food with very great benefit. As my whole system was unrefreshed and built up," Dr. Chase's Nerve Food forms new rich blood and restores the feeble, wasted nerve cells.

"With what result?"

Judge Sharp Williams tells the following:

"One of the negroes on my place did me quite a valuable service once and I wanted to show my appreciation. After paying him I asked:

Now, uncle, which shall I give you, a ton of coal or a bottle of whiskey?"

"Fo' de Lawd, Massa John, he replied, you shurely knows Ah only buhns wood."

DR. CHASE'S OINTMENT.

A man left his umbrella in the stand in a hotel recently, with a card bearing the following inscription attached to it: This umbrella belongs to a man who weighs 250 pounds weight. I shall be back in 10 minutes.

On returning to seek his property he found it in its place a card thus inscribed. This card was left here by a man who can run 12 miles an hour. I shall not be back.

I consider MINARD'S LINIMENT the best Liniment in use.

I got my foot badly jammed lately. I bathed it well with MINARD'S LINIMENT, and it was as well as ever next day.

Yours very truly,
T. G. MULLIN.

He Wanted the Job.

To the colored man who made application for work he listened and awaited the finish of the tale of the applicant's qualifications for the job, then stilled in this manner: "Well, I'd like to give you the place, but I'm afraid I can't for you tell me you are married. I have special reasons for wanting to give this position to a single man."

"Why, boss," exclaimed the willing worker, "if dat's de on'y trouble, ah kin git a divorce between now an' when you all's ready fob me to start in."

Presence of Mind.

A remarkable exhibition of opinion of mind stands to the credit of James Dennis, an Australian hotel-keeper. One day he found himself behind his own counter looking down the muzzle of a revolver held by a villainous-looking fellow who was requesting him to put up his hands. He raised them, but protested, "Surely, it doesn't take two of you to hold me up." The robber, who had come alone, turned his head to see who the other man might be. In a flash Dennis' own revolver was out and the rascal's opportunity was gone.

Faith in drugs was the subject under discussion when a staid physician who had spoken against the practice of 'dosing' by laymen told this story: "I had a patient once who complained of pains in her right arm. She was otherwise well and strong and looked upon the little ache as nothing serious. Weeks after she had been to see me she met me and said that she used the liniment I gave her on her bad arm every night and that when she did not use it she could not sleep. One night she retired before making the application, but reached for her bed to the table, got her liniment bottle, gave her arm a good rubbing and felt better for it and went to sleep. When she awoke the next morning she discovered that she had grabbed the wrong bottle and had applied copious doses of black ink. It did her as much good as my liniment."

This Concrete Root Cellar Costs Less Than Wood and is Much More Durable

Cement is particularly adapted to the construction of Root Cellar floors and walls. Experience proves that for the farmer, Concrete is superior to wood in every point of comparison.

Concrete permits of a desirable degree of coolness without frost. There is no question as to its durability. Concrete lasts, not for years, but for ages and needs no repair.

Anyone who has scooped vegetables from the old plank floor will appreciate the fact that Concrete offers a smooth, continuous surface with no projecting plank ends or nails to damage the scoop or ruffe the temper of the scooper.

Her Endorsement.

She advanced to the paying teller's window and, handing in a check for fifty dollars, stated that it was a birthday present from her husband and asked for payment. The teller informed her that she must first endorse it.

"I don't know what you mean," she said hesitatingly.

"Why you see," he explained, "you must write your name on the back, so that when we return the check to your husband, he will know we have paid you the money."

"Oh, is that all?" she said, relieved. One simple thing.

Thus the "endorsement" money thanks, dear, I've got the money. Your loving wife, Evelyn.

Facts About Motherhood

The experience of Motherhood is a trying one to most women. Not infrequently an epoch in their lives. Not one woman in a hundred is prepared to understand how to properly care for herself. Of course, every woman now, always has medical advice at hand, but many approaches the experience with an organism unfitted for the trial of strength, and when the strain is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother's mental and physical condition. This is a happy and healthy mother of children, and indeed child-birth under these conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of motherhood, nerves and broken health resulting from an unprepared condition, women will persist in going blindly to the trial. It isn't as though the experience came upon them unawares. They have ample time in which to prepare, but they, for the most part, trust to chance and pay the penalty.

In many homes once children there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy, and strong.

Any woman who would like special advice in regard to this matter is cordially invited to write to Mrs. Pinkham at Lynn, Mass. Her letter will be held in strict confidence.

Local Option in Ontario.

The local option contests in Ontario last week resulted in adding twenty-six municipalities to the prohibition list. The municipalities carried by the prohibitionists include two towns, nine villages and fifteen townships. Besides the twenty-six carried, twenty-two others gave majorities for prohibition, but because they did not give three-fifths majorities they remain in the license column. Under the Ontario law two run votes are worth as much as three temperance votes. The Legislature should remove this unfair handicap. There were 131 places in which they might have attempted to repeal the local prohibition. They ventured it only in three places, and were rebuked by an emphatic vote in each in favor of the law's retention. There can be no better evidence of the good effects of local prohibition than that in the 131 places which were unable to secure its repeal, and that in the three places in which they attempted it they failed. Of the 816 municipalities in Ontario, 435 have prohibited the grogshop. At each annual election the territory in which the temperance cause is delegating widens. We congratulate the decency-loving citizenship of Ontario on the good work they are doing.

Outwitting the Publican.

The Rev. Harry Bissaker, the well known Wesleyan minister, tells a story of how a publican was outwitted. In a certain place there was a great stir over a temperance bill which was about to be passed. One publican posted the following notice outside his public house:—

"If the temperance bill is passed this place will be closed."

The temperance people were puzzled as to the best way to meet this announcement. Finally, an idea occurred. They placed on the door of the workhouse the notice, "If the temperance bill is passed this place will be closed." And a similar notice was placed on the door of the jail.

A noted English physician has given his opinion that the brain, once stupified by liquor, can never again be quite what it was before. In view of this, how preposterous is the claim that a youth can "show his side out" for several years, without being really the worse of it.

THE CURSE OF THE NATION IS CONSTIPATION

"Fruit-a-tives" Alone Cures This Disease

A famous scientific states that Constipation, or non-action of the bowels, causes more deaths than all other diseases combined. Constipation inflames the kidneys, ruins digestion, is the foundation of Rheumatism, poisons the blood, causes Headaches, Neuralgia, Nervousness and Insomnia.

Constipation is caused by a weak or sluggish liver. Bile, the only purgative of the body, is secreted by the liver, which in turn should pour out into the intestines sufficient bile to move the bowels. Unless the liver is active, there cannot be enough bile to move the bowels regularly, and Constipation is the result.

"Fruit-a-tives", the famous fruit medicine, will always cure Constipation because it acts directly on the liver—relieves the congestion—increases the quantity of bile—and strengthens the bowels.
