Phœnix Mutual

LIFE INSURANCE COMPANY,

HARTFORD, CONN.

ASSETS, Securely Invested, ...	$6,090,562.13
SURPLUS, Free of all Liabilities, ...	1,761,147.18

RATIO of Assets to Liabilities larger than that of any other Company of equal age, being 14.068 of Assets to every 100 of Liabilities.

DIVIDENDS, paid to Policy Holders, ...	$1,021,217.39
INCOME in 1870	2,827,638.12

The Progress of the Company for the last Five Years has been as follows:

	Assets at end of year.	Income for the year.
1866	$1,457,314.95	$ 848,607.71
1867	2,218,344.29	1,179,044.28
1868	3,644,060.28	1,930,833.64
1869	5,084,073.50	2,432,979.00
1870	6,090,562.13	2,827,638.16

Within the past five years the Assets of the Company have increased more than Five Million Dollars, notwithstanding nearly a Million Dollars have been returned to Policy-holders in Dividends, and One and a Quarter Million Dollars paid in losses by Death during that period.

That this is a progressive Company is demonstrated by the following Comparative Statement of Business in 1865 and 1870, respectively:

	No. Pols. Issued.	Sum Assured	Income	Assets.
1865	4,302	$8,779,424	$606,681 06	$903,284.71
1870	9,065	19,466,761	2,827,638.16	6,090,562.13

That the business of this Company is managed with the strictest economy, is indicated by the fact that notwithstanding the large increase in business, the expenses have been in inverse proportion, as will be seen by the following table:

	1870	1869	1868	1867
Ratio of expense to Premium Receipts,	17.39	19.27	19.67	22.53
Ratio of expense to Gross Receipts,	15.41	17.20	18.07	20.53

As evidence of the special care taken by the Company in the selection of risks, it is sufficient to state that its Ratio of Losses paid to amount at risk, is smaller than that of any other Company of equal age, namely, 0.91.

Since the commencement of its business the Company has issued more than

52,000 POLICIES,

and has paid in losses One and Three Quarter Million Dollars to the families of those who have deceased while members of the Company.
