> THE HURONS AT WOODSTOCK.—Our lacrosse club had a grand time at Woodstock on Monday. A time allowance of an hour was made for a game between them and the Woodstock team. The latter got one game in 45 minutes, and at the end of the hour a second game had not been taken by either side. The play was good all around. The boys were splendidly treated, and are loud in their praises of the hospitality of the Wood-stock people. A. Patullo, of the Senti-nel-Review, was a favorite with the Goderich party, owing to his kindness and at-tention. The Woodstock people deserve credit for their push and energy. That town has already a reputation for know-

ing how to get up a grand day's sport. The Huron Tribune, of Bad Axe, Mich., has the following reference to a former resident of Goderich: "The Republicans of Huron county will present the name of Richard Winsor at the Republican convention in Port Huron, and ask his nomination for congress, and in doing so they will name a man who has no enemies to punish, who has created no factional strife in seeking for the place, who is immensely popular at home who has the ability to make a canvass

EARLY HARVEST.—Donald Ross, of the 2nd concession of Stanley, finished his harvest on Monday, Aug. 18th, which is earlier than usual.

The township of Stanley came very near losing its esteemed deputy-reeve, A.
M. Campbell, last week, who was laid up
by a severe attack of bronchitis, and who
was thought at one time to be beyond
recovery. His many friends will be glad

to learn that he is better. Mr. Wilson has commenced to build a two story brick block on the corner of Mill and Turnberry streets, Brussels, formerly occupied by E. Leavens. It and the new woollen mill make a fine block on a hole that was always an eye-

sore to the village. The Gorrie Enterprise says : An un fortunate accident happened to Jaz. Peterman, who was working on the McIntosh Church building, north of this village, on Thursday afternoon last, by which he had several ribs broken. He was wheeling material up a plank when he lost his balance and fell on to a post several feet below. He will be laid up for some time.

AMPUTATED.—A short time ago while feeding a thresher on the Ransford farm, Andrew McGregor had the misfortune to have the fingers of his right hand cut with the band-cutter's knife. To save the fingers if possible, they were sewed up, but mortification set in with the little finger, and this week Mr. McGregor came to town and had his finger amputated close to the hand.—[New Era.
J. D. Ronald, the Brussels steam fire

engine builder, has just about completed a fire engine of a different model than his old one, and which is claimed by experts to do more than the old one, raise steam faster and make more also, has a more powerful pump and less friction in discharging the water. It is to be tested this week and if it beats the old one as is expected, it will be first class, as the old model was hard to beat.

BIG THRESHING. -This is the season of the year for big threshing, and as there is considerable rivalry between the enterprising owners of the several steam machines, we are glad to chronicle their feats. On this subject a correspondent says: "Mesers. Harvey & Stewart, of Stanley, with their steamer, threshed on the farm of Mrs. Dallas, 2nd conces-sion of Tuckersmith, 800 bushels of fall wheat and 200 bushels of barley in ten hours. Who can beat it? We want to hear from the famous Wm. Murray."
Another correspondent says: "On Wednesday last E. Hinchley, of the town-line, McKillop, threshed with his Climax separator, and Leonard engine, 1,015 bushels of grain in one day, as d moved the machine nearly a mile at noon. Of this grain 880 bushels were fall wheat. This work was done on the farm of Messrs. John McDowell and Robt. Me-Millan, McKillop.—[Expositor.

SUDDEN DRATH.—A man named Mal-colm Campbell, about 50 years of age, who owned a 50 acre farm in the township of Culross, not far from Wingham, went from his home in Teeswater, on Friday last. Not feeling very well he bought some medicine, and also some whiskey, there, and left for home the same day. When he got near his own same day. When he got near his own place, it appears, he turned from the road to make a short way home through a wheat field, but he never reached home. The next evening (last Saturday) a man passing through the wheat field found him dead, near the fence. He had no marks of violence on him. The supposition is that he died from an overdose of the medicine or the whiskey, or, perhaps, from the effects of both. He perhaps, from the effects of both. He was an unmarried man, and had no relations in this part of the country. It is supposed he has some connexions living in the county of Middlesex. He was a quiet, harmless man, but was always greatly addicted to intemperate drinking. One more argument in favor of the Scott Act. -[New Era.
