The world-famous food scientifically made of whole-wheat and barley, contains the blood-making, tissue-building, elements of these field grains, including the natural phosphate of potash, (grown in the grains) which nature uses in making new brain and nerve cells.

In the manufacture of Grape-Nuts the starch of the grains is predigested—changed to a form of sugar which is quickly absorbed by the blood, and the user soon shows better color, and increased vigor of body and brain.

## Presentation to Sir Edward Morris.

Last night at the T. A. Hall the Society presented Sir Edward Morris with a gold watch in recognition of his services to the Society during the past twenty years. There was a large gathering of the members. Sir Edward was met at the entrance of the Hall by the presentation committee, viz. Messrs. T. M. White, J. P. Grace, F. Wallace, T. J. Spurr, W. J. Myler, J. J. Bates and W. O'Brien. The Premier was conducted to the meeting room where he received an ovation.

SIR E. P. MORRIS.

The band stationed on the gallery rendered the patriotic air "The Banks of Newfoundland." In the absence of the President, W. J. Ellis, who is now in New York, the meeting was presided over by Vice-President J. J. Griffin, who in an appropriate speech made the presentation of a beautiful gold watch to Sir Edward, who thanked the Society for their handsome present. He referred to the work done by the Society since its inception and paid a tribute to the memory of the founders. He expressed the hope that branches of the T. A. might be established all over the country. The band then discoursed "He's a jolly good fellow." Speeches suitable to the occasion were also delivered by Messrs. T. M. White, Geo. F. Power, R. J. Power and J. J. Bates. In the course of their addresses alluded to the services that Sir Edward had rendered to the Society after the Crash of 1894, which saved the T. A. Hall from being lost to the Society.

## Tailor Rebels at Varsity Clothes.

LONDON, April 11.—Oxford men have not escaped the lynx eye of the Tailor and Cutter expert who goes about seeking metaphorical holes in the clothing of the nation's gentlemen. In a recent issue of that paper it is stated that many of the Oxford students show a lamentable lack of common sense in their dress, or, at any rate, certain parts of it. Their gray flannel trousers are turned to show three inches of brightly colored socks, and the belted jacket is all the rage. Fancy vests are worn, which have a decidedly ready-made appearance about them.

The trousers are marked out for special condemnation. The knees are baggy, they are innocent of any creases, and they have long lost any claim they may have had to shape. Even the students' hair is mentioned as being almost long enough for curls, and there is a veiled sarcasm in the remark that "it is possible some of these eccentricities are adopted to label themselves 'Varsity' men, and if that be the case they succeed."

"The scholars' gown is a dignified garment," says the expert in clothing, "but when it hangs down from the wrists when the wearer's hands are in his trousers pockets, and the neck is located at the waist, then it is neither dignified nor graceful, and yet this seems to be the way they are mostly worn."

## EVERY DAY BRINGS A FRESH PROOF

That Dodd's Kidney Pills are a Boon to Suffering Women.

Mrs. Rousseau tells how they cured her after three years of almost ceaseless pain.

Hintonburg, Ont., April 15.—(Special.)—Every day furnishes fresh proof that the women of Canada can be cured of ailments which have hitherto seemed to be a part of the inheritance of the sex by the use of Dodd's Kidney Pills. And this place has a living proof in the person of Mrs. Rousseau, of 37 Merton Street.

"For over three years," Mrs. Rousseau states, "I was very ill. My troubles were painful. I suffered very much with back and my head ached almost continuously and I scarcely knew what it was to be free from pain. I was very weak and run down. Occasionally my hands would swell up, and this, too, gave me a great deal of annoyance and discomfort. I began to use Dodd's Kidney Pills and very soon commenced to improve. Three boxes cured me completely."

Nine-tenths of suffering women's troubles start from diseased kidneys. The natural way to cure them is to take away the cause, that is, to cure the kidneys. Dodd's Kidney Pills always cure diseased kidneys.

## Big Lock-Out.

Special Evening Telegram. HAMBURG, April 15. A lock-out in the building trades of Germany began at 6 o'clock this evening. Between fifty thousand and two hundred thousand workers already are known to be affected, but reports have not yet arrived at headquarters. Although the employers of Berlin, Hamburg and Bremen have not yet participated in the movement, and negotiations for a peaceful settlement are continuing, the lock-out is a most widespread one. Bitter feeling divides the employers and employees. Most of the contractors are determined to work for the defeat of the Trades Unions. It is estimated that ten per cent. of the employers have declined to join the lock-out being in sympathy with the men's demands. The building material manufacturers have joined forces with the employers in several cities in resolving not to deliver materials to those employers not obeying the lock-out.

The rioting began by the natives in revenge for the action of Chinese officials in cornering and controlling the export of rice. The Governor's Yamen, in which the missionaries had sought refuge, was set on fire by the rioters and destroyed. The missionaries and other foreigners fled and were taken aboard a merchant steamer in the harbor. The British Consulate and Custom offices have been abandoned, and two more British gunboats are hurrying to the scene. No fatalities are reported. The properties known to have been destroyed are the buildings of the China Inland Mission of the Methodist China Inland Mission and Norwegian Mission.

## Drunk Runs Amuck.

Last night at 10 o'clock a man who was frenzied with liquor disported himself on Water Street West, near Alexander Street. He was tormented by a crowd of boys, whom he repeatedly followed, and failing to catch these he assaulted several passers-by. One sturdy young man, whom he attempted to knock out, gave him a croak under the ear and put him quickly out of commission. Friends then took him away.

## Threatened with Diabetes

HAPPY ESCAPE FROM KIDNEY TROUBLE. The life of a man on the road is not all sunshine. Late travelling, excessive use of rich and sweet foods at hotel tables, too much smoking and the strain of getting business makes it a strenuous life. This is the experience of Mr. H. F. Hardy, written from his home in London:

"Late last spring I noticed I was losing strength. I had a great thirst for water and my kidneys were unduly active. Some months earlier I had suffered vague pains in the small of the back, was more or less sleepless, and my nerves were more or less on edge. I started to build up—look a box of Ferrozone, which quickly made me feel so much better. I cut out sweets, sugar and starchy foods, and took Ferrozone tablets with each meal. The results were surprising. A renewal of my health and vigor started up that was quite surprising. I lost that intense thirst that made me crave for water all the time. I wasn't laid up a single day, and attribute my success and robust health entirely to 'Ferrozone.'"

When a man is run-down, nervous, feeling blue, and out of sorts, when he lacks power to stay at things, and the sight of a good meal fails to excite his appetite—these are the surest signs that his condition demands two Ferrozone Tablets at meals. No other tonic is so strength-giving and invigorating—try it. 50c. a box, six for \$2.50, all dealers, or The Cattarhazone Co., Kingston, Canada.
