

CHRONIC BRONCHITIS

Cannot be cured with ordinary soothing syrups. The disease must be attacked at the root to eradicate the irritation of the lungs, heal the wounds and strengthen the respiratory organs. The composition of

MATHIEU'S SYRUP
of Tar and Cod Liver Oil and other Medicinal Extracts marks it amongst all other remedies as the true specific for the diseases of the throat, the bronchial tubes and the lungs. Here are a few conclusive proofs:

PORT GREVILLE, C.B., Dec. 31, '09.
Blacking & Messville Co., Ltd.
Dear Sirs,—Please ship by next express if possible, 3 doz. Mathieu's Syrup. It is the best cough mixture on the market.
Yours truly,
W. STERLING.

CHURCH POINT, July 31, '08.
Blacking & Messville Co., Ltd., Amherst, N.S.
Dear Sirs,—Nearly one year ago I had my first order of "Mathieu's Syrup" from you. It was not known in this country, and I gave samples to several families whom I knew would use it. After a few weeks I began to have a call for it, and trade has increased wonderfully since. I have not the least doubt but that it will soon be the best selling remedy for coughs, colds, etc., on the market. In my store here sales are good and our people ask for it. Several stores in this country now keep it in stock and report sales increasing. I have bought from you since August 16th, 1907, 4 Gross and have only 3 dozen on hand at this date, and which I am holding for retail trade in my store.
Yours truly,
LOUIS A. McLANSON.

AGAINST HEADACHE there is no remedy so active as Mathieu's Nerve Powders which contain no opium, morphine or chloral. 25 cts. per box of 18 powders.

OS. McMURDO & Co., Wholesale Chemists and Druggists, St. John's, Nfld.

**Municipal Council
Another Stormy Session
Last Night.**

The full board was present at last night's meeting. The News and Telegram were represented.

Supt. Grimes wrote about the condition of Queen's Road, near the street rails, and asked that the Council attend to the matter. The Reid Company are responsible, and will be written by the Secretary.

E. Kelly asked for position as Caretaker of East End swimming bath. Deferred.

G. H. Massey, for the R. N. Co., wrote that the Company was doing the repairs to Water Street.

Horwood Lumber Co. sent sample of broom for street sweeping purposes, and asked for an order. Matter will be looked into, as will also their offer of pipes, etc., to the Water Dept.

Austin Murray, Hamilton Avenue, asked for compensation for land taken. Referred to the Engineer.

Mrs. A. Gosling wrote about the lack of troughs for drinking purposes, for horses. The matter will be looked into.

John Dooley complained of the condition of Kenna's Hill and Cove Road. Referred to the Engineer.

Residents of Mundy's Pond Road petitioned for a gas light. The Lighting Committee will deal with the matter.

It was decided that receptacles, for waste paper, fruit peels, etc., be placed on the streets for the convenience of the public; and violators of the law in the matter, will be summarily dealt with.

MYRON'S DISMISSAL.
Patrick Myron, who was dismissed

"RUN DOWN"

Does This Describe Your Case. If so Read the Following Letter.

114 Bellevue Av, Toronto.
Dear Sirs:—
Some time ago I was persuaded to purchase four boxes of Dr. Bovel's Iron Tonic Pills. At the time I had little faith in them, as I had been a sufferer from nervous trouble for several years. At the same time I was very much run down and out of sorts. I am now pleased to say that after using eight boxes of your pills I am entirely built up, and have to thank your company for my good health.

Yours truly,
MRS. S. M. FLYNN.

The above letter describes so well the condition of a person whose nerves are weak and exhausted that little need be added.

The danger of such a state of health is sometimes overlooked by persons who do not realize that the next step is some form of paralysis which leaves one helpless in mind and body.

Dr. Bovel's Iron Tonic Pills are sold by all druggists and dealers at 25c per box.

If your Druggist or Dealer cannot supply you send 25c. (in stamps) to us direct.

BOVEL MANFG. CO'Y.
St. John's, Nfld.,
or Montreal, Can.

fact that the sewerage system had been extended.

On motion of Councillors Ryan and Martin, the matter was referred to a special meeting of the Sanitary Committee.

COLLECTORS REPORT OVER \$470 ARREARS COLLECTED LAST WEEK.

The Collectors submitted their weekly report, which was called for by Councillor Channing.

Collector Grace reported for \$298.02 arrears, and \$94.25 current.

Collector Larkin reported for \$174.75 arrears, and \$9.20 current.

Several of the Councillors complained that the collections were small for a week.

The Secretary explained that the bills for the half year were being prepared, and the collectors were working at them during the week.

Councillor Martin asked the Secretary if the Whitney Law Corporation now established, here, were paying the regular tax. It was ordered that the Solicitor take the matter in hand.

The parties who are using the West End Promenade for advertising purposes, will have to discontinue.

Councillor Martin asked for the cost of the pump on Parade Street, for the last two years. The statement will be submitted next meeting.

Balliff Roll sent in a report about the cabmen on Regatta Day.

Councillor Mullaly thought the report very unsatisfactory, as "it showed nothing." A further report will be asked for.

"HOLD TWO MEETINGS A WEEK," SAYS COUN. MULLALY.

Councillor Mullaly, looking at the clock at 11.30, said, "I beg your pardon, Mr. Mayor, but would it not be wise to hold two meetings a week one for routine work, and another for new business."

The Mayor—Formerly we used to get through at 11 o'clock.

Councillor Mullaly—So ye did, Mr. Mayor.

Councillor Channing (to Councillor Mullaly)—Will you come down two nights a week?

Councillor Mullaly—Yes, or six, if necessity calls for it.

NEW DRAINS.

Councillor Martin called attention to the condition of the drain on Corporation St., and moved that in future all drains in congested localities, be laid of concrete or some other such material.

Councillor Channing seconded the motion, he thinking such a change would lessen the possibility of disease.

Councillor Mullaly would support the motion if he knew the cost, and asked that the motion be modified, which latter was done, to the effect that the new drains be laid of such material when approved of by the Council.

The Mayor gave an opinion that the cost would be too great, and that the cable stone drain was equal if not superior, to the concrete one.

Councillor Ryan thought the Council should move slowly in the matter when such a large outlay might follow.

Councillor Coaker, seconded by Councillor Myrick, moved as an amendment, that the matter be referred to the Engineer for report. A vote being taken, the amendment was carried by 4 to 2; Councillors Martin and Channing voting against the amendment.

Councillor Coaker, on behalf of the residents of the South Side, reported that the water supply was short over there, and requested that one of the watering cars be sent there daily to give a supply.

HARVEY RD. EXPENDITURE UP AGAIN—INSPECTOR BARNES ON THE STAND, WHO SAYS WORKMEN WERE INFERIOR.

At midnight the Harvey Road expenditure again came up for discussion, and Road Inspector Barnes was placed on the "stand" by Councillor Mullaly. The facts which led up to the matter have already been published, and this morning's debate will prove interesting.

The Road Inspector Answering Questions.

Councillor Mullaly (to Road Inspector Barnes)—How many men were employed on the Harvey Road job?

Rd. Inspector—I can't rightly remember, but I think from 11 to 28 at various times.

Councillor Mullaly—I mean, how many, during the progress of the work; was there 200?

Rd. Inspector—I can't say; you will find it on the pay sheets.

Councillor Mullaly—But I was not here then to find it on the pay sheets; and there are lots of things I can't find.

Councillor Mullaly—Did you hire the men who worked on the road, or

Rev. Father Morriscy

A Combined Treatment That Really Cures Catarrh.

Canadian weather, with its extreme cold and sudden changes, gives almost every one Catarrh, and makes it hard to cure. Some recommend internal remedies—some external applications.

Father Morriscy used both—tablets to be taken three or four times a day to invigorate the system, purify the blood, and help it throw off the disease, and a soothing, healing, antiseptic salve to be applied inside the nostrils. This combined treatment known as

"Father Morriscy's No. 26"

attacking the disease from within and without, soon cures.

Mr. A. C. Thibodeau, General Merchant in Rogersville, N.B., writes on Jan. 22nd last:

"A few words as to the merits of your Catarrh Cure. For the last 10 years I have been troubled with Catarrh of the head and stomach and during that time have tried all kinds of other remedies with no results, until I tried your Catarrh Cure which I am glad to say has cured me. I highly recommend it to those who are suffering with this disease."

Don't trifle with Catarrh—cure it with Father Morriscy's No. 26, 50c for the combined treatment at your dealer's. 68

Father Morriscy Medicine Co. Ltd. - Chatham, N.B.

were they sent to you already hired, or have you any idea what caused the estimate to be exceeded?

Rd. Inspector—All the men I took on the work had notes from the late Councillors, except one, Councillor Cowan.

Councillor Mullaly—Have you those notes now?

Rd. Inspector—No.

Councillor Mullaly—Well, how many did you have together?

Rd. Inspector—Sometimes I had pocket full.

Councillor Mullaly—Did I ever as you to employ men, or for any favors?

Rd. Inspector—No, never. I only met you two days before the election and you never mentioned anything about employing men to me.

Councillor Mullaly—Do you know that the estimate for the work on that Road has been exceeded by \$440 and what do you attribute this over-expenditure to?

Rd. Inspector—As I said before, employed the men on notes sent me and some were of an inferior class who did not give full value.

Councillor Mullaly—It was stated here at last meeting that some of the work was due to repairing LeMarchand Road. Was it repaired?

Rd. Inspector—No; but some materials were spread over by Corbett's, Freshwater Road, also Parade St., the latter being practically made new.

Councillor Mullaly—The Engineer at last week's meeting, said he figured on the distribution of the materials in his estimate of \$700.00, and the extra \$440.00 would not be for carting.

The Mayor—The Engineer made that statement last Friday night and "stuck" to it. I believe that the removal of the materials from the grounds was not considered.

Councillor Mullaly—That's rough on the Engineer, Mr. Mayor.

Councillor Mullaly (to the Road Inspector)—Did the present Mayor or the late Mayor send you any notes?

Rd. Inspector—Yes, the late Mayor several, and the present Mayor one.

Councillor Mullaly—I say again, Mr. Mayor, that the Engineer did figure on the disposal of the waste materials and if he did not, \$440.00 was a large

mistake.

Councillor Mullaly (to the Road Inspector)—Do you honestly think that the carting away of the materials put up the expenditure?

Rd. Inspector—Perhaps a little, again, the men were off the day the late King died, and the day he was buried, and were paid for both days.

Councillor Mullaly—I've no fault to find with that; but what do you think the cost of those two days would mean?

Rd. Inspector—About \$50.00.

Councillor Mullaly—Well, not over \$100.00, which still leaves the extra expenditure \$340.00.

Councillor Mullaly—Now, someone as made the statement that the workmen were inferior, I did not; but what do you think?

Rd. Inspector—Some were inferior but I don't want to run down the men as I think they were poorly fed during the winter, and did the best they could.

Councillor Mullaly—I don't know about the men being poorly fed; you're saying that, and it is a private affair.

What I want to know is how many tickets you handled; how many men employed for the whole time the work was on, and who gave you the notes?

Rd. Inspector—I can't remember.

Councillor Mullaly—But you hired all on the notes from the late Councillors.

Rd. Inspector—Yes; only the few who were engaged by the Engineer.

The Mayor (to Rd. Inspector)—Did I send you a note?

Rd. Inspector—Yes, Sir.

Councillor Martin—All the workmen who came to me I gave them notes; not requesting that the men be employed, but asking that if employman was to be had to give them a share of it.

Councillor Mullaly—Did any Councillor go around the locality looking for men to give notes to?

Rd. Inspector—I can't say, just now.

Councillor Mullaly—Did you hear my name mentioned, as looking to get men on the job?

Rd. Inspector—No, you never approached me.

Councillor Channing—How long was

the work going on?

Rd. Inspector—About six weeks.

Councillor Ryan (to the Mayor)—Was it agreed that the Councillors should not send notes?

The Mayor—I don't think so; this only referred to the blasters, as mentioned last meeting.

Councillor Mullaly—I don't want to doubt you, Mr. Mayor, but it was understood, I believe, that no notes were to be given for employment, nor was any influence to be used, during the election.

The Mayor—It was in the spring; and you would have done the same thing.

Councillor Mullaly—I would not, Mr. Mayor. We have officials here to employ and look after workmen, and I intend at a future date to move in this matter. A Councillor is not a Foreman or Rd. Inspector, and is unable to judge who is a good road worker or otherwise.

Councillor Mullaly (to the Rd. Inspector)—Did you employ the men on your own responsibility?

Rd. Inspector—No, I had no authority. I employed them on the notes sent me by the Councillors.

Councillor Ryan (to the Mayor)—Is it not strange, as you have stated, that the old Council only agreed to give the Engineer power to employ blasters alone for this work? If he had authority to employ anyone, and a mutual agreement was made, he should have authority to employ all. The Rd. Inspector is only the foreman to look after the men.

The Mayor—Well, it was dangerous work, and we thought the blasters should be engaged by the Engineer.

Councillor Mullaly—It is strange, Mr. Mayor, that the Engineer only employed 6 out of more than 200.

Councillor Martin (to the Rd. Inspector)—Was there more blasting done on the work than was expected?

Rd. Inspector—Yes, I believe there was.

Councillor Ryan—But there were not more than six men to do the work.

Rd. Inspector—No.

The Mayor—It was only the blasters that we decided upon to be engaged by the Engineer. No other arrangement was arrived at.

Councillor Mullaly—The Mayor don't believe what he says. The Engineer was the proper one to engage workmen; he knew most about the work, and has stated he figured the whole cost at \$700.00.

The Mayor (to Councillor Mullaly)—Well what about it?

Councillor Mullaly—Only this, it was stated here that I asked to get men employed, which I repudiated. It was also stated that you were elected by acclamation, and some one else at the head of the poll, but it did not cost the public a cent to elect me.

Councillor Martin—That is another indignation, Mr. Mayor.

Councillor Mullaly—I make no indignations. What I have to say, I'll say, and will be bound by no one.

Councillor Martin—Harvey Road did not elect me at the head of the poll.

Councillor Mullaly—Whoever it elected, the work cost \$440 more than was estimated.

Councillor Martin—I repeat that Councillor Mullaly is insinuating.

Councillor Mullaly—The Mayor, as an intelligent man, should know differently.

The Mayor—There was nothing very wrong about the over expenditure, that I can see. The men needed work in the spring, and it was given them.

Councillor Mullaly—The worst feature, to my mind, is that there was an agreement for Councillors not to use notes, seeking employment, and I believe there was a resolution to that effect. Will you deny that there was?

The Mayor—I think not; ask the Secretary?

The Secretary turned up the minutes of March 24th, which read that the estimate of the work was \$700.00, and only St. John's men were to be employed.

Councillor Mullaly—The work did not start for some time after that, and it was then the resolution or agreement was made.

The Mayor—As I said before, the work was given in the spring when the men needed it, and it will happen any spring when work is going on.

Councillor Mullaly—Mr. Mayor, don't put up such a plea too often; the public won't believe that.

Councillor Martin—I gave the notes to the men because they needed the work. How did I know if they were inferior workers?

Councillor Mullaly—The Rd. Inspector said they were; I did not. I did not say the work was started for election purposes; but I do say that advantage was taken of it; and I have proven that the charges against me are unproven, and let the public judge. Further, I have not been talking outside to the Road Inspector, who is unable to tell how many notes were

given, and by whom. It is all a blank with him, as to what happened.

The Secretary—I don't remember any discussion of the old Council, as to the matter of notes.

Councillor Mullaly—Perhaps it was about tickets; they would count just the same.

The Road Inspector then explained that some materials had been carted off the road to long distances, which would add to the cost.

Councillor Mullaly retorted that the Engineer, in his own statement, figured on this, and how the cost went up was now a matter for the citizens to judge.

The "Cabmen's Tariff" and "Compromise" matters were deferred, and at 1.15 this morning the meeting adjourned.—Daily News.
